The idea that is advanced that the Democratic nominee is a non-partisan candidate can not be entertained sincerely by any one. The voter who can not look across the lines of party in the selection of a Judge, and cast his vote for a non-partisan indiciary by voting for Judge Koch, writes himself down as in favor of keeping the Bench strictly partisan.

penditures there This negative decision was expected. The Spanish commissioners had also a number of positive declarations, which filled some 37 sheets of a typewritten presentment. In this statement the Spanlards hold that the United States tad no ultimate rights in the Philippine Islands, and could have none, save by the consent of Spain in these negotiations, and upon terms satisfac-tory to her. According to the Spanish contention in the formal statement United States entertained no thought of annexing the Philippines when the protocol was signed, or it would have been expressed in the protocol as clearly as the conditions regarding the cession of territory in the

It was further held yesterday by Senor Rios and his colleagues that the capitulation of Manila, having occurred after the signing of the protocol and thus after the suspension of hostilities.

With all this for a ground work, the Spanlards made their first positive move against the Americans, and It constituted their counter proposition. They charged upon the United States a wrongful appropriation of public moneys belonging to Spain by selzing the tariff duties at Manila, and they formally demanded the return of these moneys, in the sum of nearly \$1,000,000 States were declared to have made and held as prisoners the Spanish troops at Mant'a in violation of international of hestilities under the protocol. The Spanish presentment also cited the refusal of the Americans to consider the Cuban debt, on the ground that it was not sanctioned in the pro-torol, and demanded an adherence to this as a precedent in the decision of the Philippines, regarding a consistion of which the Spanish held the protocol to make no mention.

ENGLAND'S WARLINE ATTITUDE Her Health Restored

Despite Salisbury's Speech the Preparations Are Still Continued. London, Nov. 5,-Despite the jubilation of the country over the favorable announcement by Lord Salisbury re-

A dispatch from Hong Kong received last night again remarks upon the un-usual naval and military activity there. The dispatch says General Black and his staff have been inspecting the old frontier of British Kau-Lung (Kow Loon), and selecting points for the erection of defensive works. Field and slege guns are being mounted, and the men-of-war lying off Hong Kong are embarking large quantities of ammunition. The fleet has been signaled to send no mails by the French steamer leaving today. The order is regarded as very significant.

The Berlin correspondent of The Daily News says: "It is asserted in well informed quarters that the British war preparations are connected with the Philippines question, in which the United States is working in agreement with England. The rumors are revived that the United States intend ceding to England some of the Islands or grant-ing coaling stations there."
