New York, Nov. 5.—R. G. Dun & Co.'s weekly review of irade says: Not even industries on the financial side this week. Although many are doubtless waiting for the votes before borrowing the volume of business through clear-ing houses is 8.5 perc ent larger than ing houses is 8.5 perc ent larger than O'Havie pastor. fect on Business. the volume of business through clearing houses is 8.5 per cent larger than in 1892. While polutical doubts may count for much, they can only have provented a growth of business which

might have been much more than has been realized. Failure returns for October are curiously puzzling, because, while the small failures compare remarkably well with those of previous years, and also the failures of \$100,000 or more in about two-thirds of the business clearses, there were large failures in a few branches, not generally due to present business conditions, which made the aggrougate \$14,000,000, but neither the Sawyer woolen failures nor others, excepting perhaps some in machinery and oots and shoes and leather, indicate difficulties beyond those of the par-ticular concerns failing.

Neither the volume of business nor the value of manufactured products diminishes. While Ressemer pig is sold against the combination at Pittsburg 10 cents lower, with other iron there and elsewhere steady, the general demand crowds closely on the heels of production.
