## Another Experience With "The May Be Many New Faces in the Little Conqueror" in Shenandoah.

Nothing in modern medicine has created TWENTY-TWO TO BE YET CHOSEN. the sensation that has followed the introduction of the "Little enemies to backache." In Shenandonh It has been just the same as in other towns, and the march of the "Little Conqueror" continues. Everywhere the confidence increases, as case after case of kidney disorder disappears as if by magic, and how people do rejoice and talk about it. You the United States senate will be deterknow it is so much easier to endorse the mined very largely by the result of tostatement of some one you know than the morrow's elections, when 23 states elect statement of some one you know nothing legislatures, which will in turn elect statement of some one you know nothing about in a far away town. ALARMING INCREASE OF CRIME.

A Prominent Cuban Declares That the Population of the Island Is Steadily Diminishing, and That Entire Villages Are Dying of Starvation.

Havana, via Key West, Nov. 7 .- The interregnum between Spain's virtual loss of sovereignty in Cubn and the assumption of full military control by the United States seems indefinitely prolonged, with no immediate hope of relief to a country which daily grows poorer and more depopulated. On all sides the question is asked, how much nearer is the final solution of the prob-lem than it was on the day the protocol was signed? The feeling among the better class of intelligent and influential Cubans may be pretty ac-curately summed up in the following observations made by a representative Cuban merchant of Havana to a press orrespondent:

"It seems to me-and I think my views are shared by many-that the United States government is dilly dai-lying too long with Spain over this evacuation question. Of course the problem is a difficult one, but the dethe lay is surely unnecessary. The United States has sent here an assortment of commissions, each more self important and mysterious than its predecessor and each veiling its operations with a cloud of secrecy which, so far as my own experience goes, really serves the purposes of obscuring issues and con cealing very small achievements. "Almost nothing has been accor

plished. The spirit of jealousy fills not only the individual members of all the commissions, but also exists between the different commissions collectively, These rivalries seem to engroup the at tention of commissioners much more than the serious issues affecting the welfare of Cuba and the dignity and good faith of the United States.

"First we were told that the date of occupation by the United States troops ould be Nov. 1, then December was fixed upon, and later we were informed that the date of occupation would be eft indefinite. So far as evacuation concerned Jan. 1 was named as an ultimate date, but now it is rumored that Feb. 1 has been agreed upon. "Unless the Washington government

forces its lethargic commissioners into greater activity Cuba will be an immense graveyard and its fields barren before the United States takes posses sion. The daily records of mortality show that the population in all parts of the island is dwindling steadily. Entire villages are dying of starvation. On all sides the Spaniards continue robbing and plundering. In the mean time these sage, gossiping commissioners from the United States sit sipping cool drinks by day and seeking shelter by night with mortal dread of fever, yet absolutely impervious to the demands of humanity.

"The situation created by this uncertainty is still further aggravated by the fact that no one dares sow crops or cultivate lands until the present chaotic conditions show some rays of light to guide agricultural efforts. There is no work for idle hands. The number of beggars, thieves and pros-titutes increases, while the number of those able to relieve distress shrinks in the same proportion. Thus far the United States has sent in the name of humanity a mere pittance of a million rations and the Red Cross society has sent two cargoes of supplies, as to whose distribution and disposal there have been many unfavorable comments. How far can such relief be expected to go?

"The present conditions cannot be much longer protracted without subjecting the United States to well deserved criticism. More than this, the elements most in sympathy with the United States are slowly, but surely, failing off and joining the ranks of the opposition. As you are aware, Senor De Castro, the civil governor, only yesterday issued orders for the arrest of 263 criminals, recently released from julls and the penal colonies at Ceuta and on the Isle of Pines. This step was rendered necessary by the alarming increase in burglaries, robberies and assaults. "While the blockade was on the city was ruled with an iron hand, and cases of assault and robbery were almost unknown. Today, with the release of criminals and the increase of poverty. the list of murders and holduns is a very grave matter. In addition to the already numerous paupers and unem-ployed, driven to beg from sheer necessity, there are many discharged Spanish soldiers without means of support. Their number reaches into the thousand. Boys and young girls of genteel extraction have been thrown on the streets to begin their fives as beggars or thieves, and to bring up in Jalls and houses of ill fame. Do the people of the United States realize these things? Does the government of the United States, morally responsible before the world for the future of Cuba, intend to tolerate indefinitely a delay which day by day makes these had conditions WOTHU?"
