DR. WARD'S STRONG EVIDENCE.

Declares the Food Furnished "Unfit to Give His Pet Dog"-Sick Men Laid on the Ground All Day-Denouncing Gen. Boynton and Hospital Surgeons.

Chicago, Nov. 8 .- General Dodge, Colonel Sexton and Dr. Conner, of the war investigating commission, arrived in Chicago yesterday and immediately began the examination of witnesses at to the care and skill with which it is | the Auditorium hotel. A large number manufactured by scientific processes of witnesses are on the list, and it is known to the California Fig Syrup not likely that the three members of the commission will leave Chicago before Wednesday. They will then leave true and original remedy. As the for Detroit, where the investigation genuine Syrup of Figs is manufactured will be continued. From Detroit the commissioners will go direct to Wash-

Dr. Lewis Schooler, of Des Moines In., was the first witness to the lfy yesterday. From June 7 to July 17 Dr. Schooler was stationed at Camp Thomas as chief surgeon of the Secand division, Third corps. Questioned by Dr. Conner he said that during the time he was there the sanitary conditions in the hospitals was not very good, the sinks in the whole division were bad, owing principally to the character of the ground, and the discipline was rather lax. There was also a scarcity of medicines. The doctor thought both the nurses and officers were overworked.

Another witness was Mrs. Virginia F. Beiz, of Chicago. She entered complaint in regard to the death of her son, Frank T., who enlisted with Company L. First Illinois volunteers. He was takn sick at Santiago, and was taken to Montauk on the transport Berlin. From here he was allowed to go home on furlough, when he should have been sent to the hospital. He was sent home entirely unattended, and was compelled to ride in a day coach instead of being provided with a berth in a sleeping car. He arrived home on Sept. 1 and on Sept. 19 he died. It was the opinion of Mrs. Betz that the medical officers should have sent him to the hospital, or if he must be sent home she claimed that he should have had an at-Dr. Mile B. Ward, of Kansas City,

who was a brigade surgeon at Camp Thomas from July 12 to Sept. 10, asked as to the condition of the hospitals, said that there was a great lack of medicines, only some of the simplest of medicines being on hand. "The food which was furnished the men," said he, "I would not want to give to my pet dog." He said that the food would have been all right had it been properly cooked, but in the shape in which it was brought to the men it was enough to make anybody sick. The doctor was then questioned as to the lack of attention shown patients just coming down with disease. The doctor stated that he knew of several to lie out on the ground the whole day, and also during the night, before taken to the hospital. Seventy-five patients were on cots and the other 25 per cent were on stretchers four to six inches from the ground. Some times some of the men were put on the bare ground, but within a few hours they were al-ways put on cots or stretchers."

doctors at any time to take care of the patients without overworking the doctors and making them too ill to get out of bed. The next reason is that the nurses were never competent in any sense of the word, but they did the best they could when you consider their ignorance. Some of them could not even read. They were forced to do the work under protest, and of course did only what they were obliged to."

In reply to further questions Dr. Ward said:

The necessities were not available from the army supplies, and had it not been for the Red Cross some of the soldiers would have starved. Requisition after requisition was forwarded, and yet no relief came. The nurses as a rule were incompetent and indifferent, though some were more faithful than others. This was not remedied because we had to obey army regulations as to detailing men for nursing

THE CAPITOL FIRE.

Damage Not So Great as First Reports Indicated.

THE REPAIRS WILL COST \$20,000.

The Supreme Court Library Escaped With Little Damage, Though in the Center of the Disturbance-Priceless Historical Documents Consumed.

Washington, Nov. 8 .- A report was current yesterday that the west central wall of the Capitol was cracked as a result of Sunday's explosion. Architect Wood made a careful examination and located the crack which had aroused suspicion. It proved, however, to be in the outer or veneer wall, and not in the six foot foundation wall on the west side. This main wall has stood over a hundred years, and is still in fairly good condition. When additions were made a veneer wall about ten inches thick was added outside. The explosion blew out a heavy stone door frame in the outer wall, and this in turn loosened several stones of the veneer wall. Mr. Wood satisfied him-self that the main wall had not been Mr. Wood's attention was called to

a crack in the main wall, but this he recalled as a well known crack which has existed for years. Mr. Wood says it is not surprising that a wall which has stood a century should have some old cracks, which do not, however, impair its general security. He thinks this crack may have come from the expansion resulting from the burning of the Capitol by the British in 1814. The library of the supreme court, which, next to the congressional library, is the most valuable collection of books in Washington, escaped with and to assassinate the leading cham-The library of the supreme court, which, next to the congressional lilittle damage, although it was in the very center of the disturbance, the

Jefferson and Adams. There were in the list many opinions in manuscript written by Marshall, Story, Samuel Chase, Bushrod Washington and others of the justices of the period between 1790 and 1830, and therefore prized as relies of the early days of the court. These papers were stored under the arch of the room, and seem to have been completely consumed.

New York, Nov. 8.-The 16 Cubans who were recently released by the Spanish government from the prison at Ceuta, and who arrived in this country last week on the Kaiser Wilhelm II. were yesterday released from the barge office and allowed to go, penni-less and homeless, into the streets They applied for help at the Cuban junta, but were turned away with the reply that no funds were available for them. The situation of the men is peculiar. They were released from the prison, and as they had no money for transportation and could not service help from the Spanish government they were forwarded to this country by the United States consul there at the expense of this government. ception on this side, nor for their transportation from this port to the Island of Cuba. When they arrived Commis-sioner Fitchie sent a message to the junta informing them of the Cubans' arrival here, and asking the junta to care for them. The junta declined. After a conference on the subject if was decided that the junta would take care of the men for the night. An ef-fort will be made by Mr. Palma to get the state department to provide for the men until they can be sent to Cuba.
