The Coal Trade.

The anthracite coal trade is without chang in any feature, and to write about it would be only to repeat the same depressing story which week by week has been told and teld again. The demand is not increasing, prices e not maintained, neither producers, carrier or dealers are satisfied with existing conditions, and, though everybody is complaining and suggesting, there seems no effective remedy in sight. The October output is estimated at rather more than inst year, and, The disagreeable weather the companies seem to be going on about at the rate of last year's production. CONTRACT AWARDED.

The Board of Bealth Clinches the Creek Matter.

The steps to abate the mucli-talked-of First ward creek nuisance have at last assumed a definite shape. The contract for the work has been signed and the operations

will be started to morrow morning. A special meeting of the Borough Council was called for last night, with the evident intention of rescinding the motion by which the matter was turned over into the hands of the Board of Health, but it was impossible to get a sufficient number of Councilmen together at one time to make a quorum. Several of them waited in the Council room for the arrival of others and then went away. Those they had waited for then appeared and they, too, departed after waiting for the return of the others. While the Council room was vacated the
