GOVERNOR VOORHEES' PLURALITY Jersey Republicans Won.

Probably 5,000 Votes. Trenton, Nov. 16.-The New Jerse legislature will stand exactly as it dilast year. In Tuesday's election the Republicans lost the assemblyman from Salem, but gained one in Passale county, where a year ago one of the four Democrats was elected. This year four Democrats was elected. This year Passale returned four Republicans. The house will stand 37 Republicans and 25 Democrats. This was as it stood in the present year. The senate will again stand 14 Republicans and 7 Democrats. Thus on joint ballot the Republicans will have 51 votes, against a total Dem-ocratic vote of 30. ocratic vote of 30.

Seven of the senators elected Tues-day will hold office until 1901, and have a vote for the successor of United States Senator William J. Sewell. Of the seven six are Republicans. The Democrat is Al'an McDermott, of Hudson. The election of the six Republi-can senators on Tuesday makes it almost impossible that the Republicans should lose control of that help for at least two years, and makes it reasonably sure that the Republicans will have a majority in the senate for the next four years, unless in the elections next November strong Republican counties should fail. Thus tovernoreject Voorhees is reasonably sure of having the schate Republican throughout his term. Regarding the plurality of Governor-

elect Voorbess there is considerable dir-ference of option, some Republicans claiming that it will reach 12,000, while Mr. Voorbees binned telleves that it will come up 10,000 at least, A conervative -stimule, however, would in-licate that it will be fittle over 5,000.

Yawning.

There can be little doubt that one of the objects of yawning is the exercise of mus cles which have been for a long time and lymph flow which has in consequence of this quiescence become sluggish. Hence its frequency after one has remained for some time in the same position—e.g. when waking in the morning. Co-operat ing with this cause is sleepiness and the shallow breathing which it entails. This factor, as well as muscle quiescence, is apt to attend the sense of boredom which one experiences in distening to a dull sermon. Hence it is that the bored individual is apt to yawn. As in the case of sighing, the deep breath which accompanies the act of yawning compensates for the shallow breathing which is so apt to excite it -"Therapeutic Aspects of Talking," by Dr. H.
