AN OLD STORY NOW. GENERAL WOOD'S WOES.

Another Experience With "The Little Conqueror" in Shenandoah,

Nothing in modern medicine has created the sensation that has followed the introduction of the "Little enemies to backache," In Shenandoah it has been just the same a in other towns, and the march of the "Little Conqueror" continues Everywhere the con fidence increases, as case after case of kidney disorder disappears as if by magic, and how people do rejoice and talk about it. You know it is so much easier to endorse the statement of some one you know nothing about in a far away town. Well, home testimony is what we have here, and 'is a dose to cure the skeptic.

Says It Is High Time the Americans Left, and Declares That the Cubans Can Wipe Out the Navles of the World, as They Did That of Spain.

Guantanamo, Cuba, Nov. 11.-General Leonard Wood, governor of the mili-tary department of Santiago, reached statement of some one you know than the Guantanamo shortly before Wednesday midnight on the Hist. Shortly after leaving Santiago on Wednesday the Hist struck a flerce gale, which caused considerable delay and made matters

lively for a time on board. On landing yesterday General Wood was received by the Cuban General Perez and a delegation of Cubans. After inspecting Colonel Ray's regiment visiting the local hospitals and public buildings he had a long inter view with Perez.

As usual, Perez claimed that he wanted to disband his men in a day trouble was in my back. I read about Doan's that supplies be sent to the followers

Ultimately Perez accepted all the conditions laid down by General Wood, who appointed him mayor and reduced several civil officers.

A Cuban paper at Malagua says: "It is high time the Americans left. The Cubans have fought three years for liberty and have finally obtained it. They can hold it against the world. As they have wiped out the Spanish navy, so, if necessary, they can wipe out the navy of the United States, or, for that matter, the navies of the entire world." News has been received here that the Spanish are rapidly evacuating the province of Puerto Principe. The Cubans are occupying the towns as the Spaniards retire, and considerable friction has occurred in various places, though details are lacking as yet. The

In the meantime the town was in a tate of excitement. The whites rushed o the scene from every direction, the local military company was ordered out and a battallon of United States naval reserves proceeded to the vicin-ity of the trouble with a rapid fire gun. About I o'clock some negroes in a use fired upon a passing party of white men. The house was surrounded and four negroes were captured and taken to the jall. One negro broke away and ran, but was shot down and killed before he had proceeded half a block. During the afternoon there were ther affairs of this kind, and eight negroes were killed during the day in the disturbed sections.

Another negro was killed last night at Tenth and Mulberry streets. He was halled by a guard, but refused to halt and continuing to advance was shot. As the news of the riot spread through the neighboring state cities they offered to send help. All such offers were declined, except in the case of Fayette ville, from which town came about 150 men. As night fell the town was completely patrolled and guarded. Very few negroes were on the streets, and they were not allowed to congregate anywhere. It developed later in the day that the

tegro committee summoned Wednesday night had agreed to use their of-fices to have the press removed, al-though the editor had disappeared, and they had no authority on the premises. This letter, instead of being delivered to the chairman of the committee of 25 in person, was put in the mail, and did not reach him till three hours after the expiration of the time limit which had been fixed for the reception of an anewer.
