citizen.

Mr. J. S. Williams, of 113 East Coal street, shoemaker, says : "I can give Doan's Ointment a high recommendation. I had been suffering from a rectal trouble accompanied by burning and itching, which was almost exasperating and prevented my sleeping, banished comfort of any kind and made me abjectly miserable. I used many other preparations and was constantly buying ointments but could get no permane t relief, Doan's Ointment, which I procured from Kirlin's Pharmacy, has stopped the whole trouble and it is the first remedy I ever used that did this. I have used several ointments that looked and smelled like it, but they had no effect like Doan's Ointment. I am glad to mmend it to others at all times."

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an in flamed condition of the mineous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hear-ing, and when it is entirely closed deafness is the result, and unless the inflammation can be aken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of

the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Segd for circulars, free.

## Emperor William Assures Our Government of His Neutrality.

THE PROPOSED VISIT TO CADIZ.

Stops at Spanish Ports Are to Be Made Wholly in the Interest of the Empress' Health, and Have No Political Significance.

Washington, Nov. 14 .- It is understood that assurances have been given by the German government that the visit of Emperor William of Germany to Spain is entirely devoid of official character or significance, that the of-ficial trip of the imperial party ended when they left Palestine, and that the proposed stop at Cadiz and Carthagena is largely a health precaution in he-half of the empress, as the sea trip would be long and arduous if unbroken by these stops at the Spanish ports. The assurances appear to be voluntary on the part of the Berlin officials, and to be in line with the care taken in that quarter of late to minimize and remove the bad impression caused by several incidents occurring during the recent war. The state department had not, so far as is known, taken cogniz-

ance of the emperor's movements, and certainly there was no purpose of inquiring as to the stop at Spain, al-though this action by the emperor was looked upon as rather inopportune, to say the least, when the peace negotiations with Spain are at a critical juncture and when, technically, the war

is still in progress. At the same time Germany has constantly reiterated her neutral and friendly attitude, and the emperor himself took occasion in his last address to the reichstag to give strong expression to the German purpose to maintain the strictest impartiality between this government and Spain. At the same time the officials here and in Berlin have recognized that a strong public sentiment of animosity was being de-veloped between the people of the two countries, and steps have been taken to offset this as far as possible. The last move in that direction was at a recent dinner given by Chancellor Von

Bulow at Berlin to Andrew D. White, the United States ambassador, and Dr. Von Holleben, the German ambassador to the United States, now visiting in Germany. It was intended that the new assistant secretary of state, Mr. Hill, should be one of the guests, but he was detained in Holland. Private advices received here by officials state that the meeting was Important as furnishing an opportunity for a free and full discussion of all the subjects which have threatened to estrange the two governments and for the establishment of a much more friendly un-

derstanding. It is recognized, however, among officials, state and diplomatic, that while official sentiment is satisfactory there continues to be an undercurrent of ill feeling with the public and press of the two countries. For this reason the present movement of the emperor in stopping at the Spanish ports causes something of a shock in diplomatic quarters, as it is felt to be one more obstacle in the way of the happy rapproachment which was being executed by the authorities here and at Berlin With a view of minimizing the visit assurances are now communicated as to its non-official character.

suggestion that the emperor may be asked by Spain to act as arbitrator between the United States and Spain in case the Philippine issue becomes acute is dismissed as absurd, on the ground that no such plan would be considered for a moment unless both coun-tries joined in a request for it. The arrival of the emperor at Cadiz and Carthagena is awaited with considerable apprehension by the German authorities, as it may give rise to a Span-

Our Commissioners Have Not Been Given a Time Limit in Which to Conclude the Negotiations-Spain's Creditors Watching the Negotiations.

Paris, Nov. 14 .- Among onlookers here the impression exists-though it is not the result of any official state-ment-that the Spanish peace commisdoners will not sign a treaty which the American commissioners could sign. b submit. Ever since Oct. 1 it has been within the range of possibility that at any meeting an open rupture might occur, and on one or two occusions it might have been easily a fact, even before the taking up of the Philippines question. The boundaries of the field in which that question is being worked out are secoming more apparent and the angle of final settlement cannot be far off. If a treaty is to result here it may fairly be expected within three weeks, although it is not true, as reported from the United States, that the Amer leans have instructions embodying a time limit for the conclusion of the

conference. The acquisition of the Philippines for 25 years by an international syndicate is a rumor based on facts of which The Gaulois and other papers give details.

This is the alleged scheme: A syndicate representing \$400,000,000 capital proposes to take over the com-mercial resources and advantages of the Philippines for a term of 25 years, paying to the dominant power therein \$125,000,000 for the privilege.

minister the political and military government of the islands at its own expense, under the apportionment named. while the syndicate would collect all customs and other revenues for the term specified.

The scheme involves giving Spain \$175,000,000 to satisfy any real or imaginary claims she may make as to the territory. This feature is said to be based on the assumption that the Uni-ted States will be the dominant power. The remaining \$100,000,000 of this reputed syndicate would be reserved as ts working capital.
