WAR INVESTIGATORS.

A Remarkably Good Showing For the Hospital at Siboney.

THE MORTALITY VERY SMALL.

Major La Garde Testifies That of the Thirteen or Fourteen Hundred Soldiers Wounded Only Eleven Died, Being Less Than One Per Cent.

Washington, Nov. 17 .- An important point was developed by the war investigating commission yesterday through the examination of Major LaGarde, one of the surgeons in charge of the hospital at Siboney. It was that of the 1,300 or 1,400 wounded men treated in the hospital only 11 had died. This was less than 1 per cent, and Dr. La-Garde ventured the statement that no war in history showed so small a mor-

tality among wounded men.
The testimony of Colonel J. W. Jacobs, who was in charge of the trans-portation facilities at Santiago, indicated that the reason why camp equip-page and cooking utenslis had not been forwarded from the coast to the troops on the battle line in front of Santiago was to be found in an order issued by General Shafter expressly forbidding it. The order provided that only rations and forage should be sent forward. Colonel Jacobs declared the quartermaster's department was not responsible for the condition of inadequate camp supplies at the front, as the officers merely obeyed the orders of the

commanding general.

Captain M. W. Ireland, who was associated with Dr. LaGarde as a surgeon and executive officer in the Sib-oney hospital, testified that he had gone to Cuba on the Saratoga, but had not on able to land for six days, why he did not know. The hospital at Siboney had been sufficiently well supplied for about 200 patients, except in the matter of cots, of which there were not to exceed 50. Patients in excess of this number were compelled to lie on their blankets on the ground for the first week of the hospital's history. About 1,200 wounded men came to be treated within three or four days after the initiation of the hospital. There was a sufficiency of supplies except delicacies and conveniences. Speaking of the Concha, concerning which there has been considerable criticism, he said he had supervised the provisioning of that vessel, and he was sure that it had re-ceived all the supplies necessary—at least there had been no complaint before leaving.

Dr. Edward L. Munson, who for a time was on duty at Tampa and in Cuba, being for a time on the Olivette and also adjutant to General Pope, chief surgeon of the Fifth corps, said he had understood that requisitions were promptly approved and that all the difficulty there was in getting medicines and supplies was due to the lack of transportation. Each regiment had been expected to take the supplies that would be necessary. There were no orders to leave any of the medical supplies except the ambulances at Tampa. He had understood that the medical supplies in Cuba were short. They were taken on the transports, but it was impossible to get them landed. Dr. Munson said that the condition of the army before Santiago was la-mentable, owing largely to the fact that the men were without tents. For the first two or three days, also, there were practically no supplies on shore. So far as he could determine the quartermaster's department had made no effort to assist the medical department, leaving it entirely to its own devices.

Paris, Nov. 17 .- The meeting yester-Paris, Nov. 17.—The meeting yesterday was handed to the American peace commissions began at 2:15 p. m. and ended at 3 p. m. The Spanish commissioners presented a long document in answer to the American argument which was submitted last week. By mutual consent the memorandum of yesterday was handed to the Americans pendent momastic orders. But he adds.

insist that the words "shall determine the control, disposition and government of the Philippines" do not warrant any want American domination. reference to Spain's withdrawal from the Philippines, except on her own terms, and, therefore, the Spaniards propose arbitration on the construction to be placed on the words "the control," disposition and government."

ocol to a third party for construction urrency:k s Jdamotherce etaoin etache Spanish commissioners urged that, ers of Herefords in the west, shot and the Spanish commissioners urged that, as there is obviously a difference of constitution regarding the phrases "the control, disposition and government of the Philippines," possibly the result of a minunderstanding, the Spaniards should down with the bank. giew than the Americans to surrender theirs. The memorandum points out that a deadlock exists, which might be broken by arbitration on the contend-ing views, to which the Spanish commissioners are quite ready to submit. The latter declare that they have no idea of suggesting arbitration as to the main issue, which touches the national honor of both sides, but they are will-ing to accept exterior aid to clear the path of negotiation.

It is safe to say that the American commissioners will not consent to invoke exterior aid to construe the terms of their own protocol.

Another part of yesterday's Spanish memorandum flatly asserts, upon the authority of M. Cambon's reports of the protocol negotiations between Washington and Madrid through him, that President McKinley at no time objected to Spain's reservation of her sovereignty in the Philippines. This allegation is directly opposed to the American record on the same subject. Judge Day's note to M. Cambon, dated Aug. 10, and already made public, in-formed him that Spain's note of Aug. 7, accepting the terms of peace laid down by the United States, was not explicit and proposed a protocol to reduce both parties to exactitude. The American commissioners now hold that the protocol itself was born of Spain's attempt to reserve her Philippine sov-ereignty, though the Spanish mem-orandum of yesterday squarely chal-lenges the contention.

The Spanish memorandum asks also why, if the United States objected to Spain's reservation of sovereignty, they did not plainly say so in the protocol and leave no room for argument. It asks why Judge Day's note of Aug. 10 did not clearly declare that the United States would not recognize such reser-vation and that the protocol was necessary to prevent a misunderstanding on that point. It also asks why did Judge Day's note practically ascribe the inexplicit form of Spain's acceptance of the peace terms to telegraphic errors, while the exact terms of Spain's reservation of sovereignty, as had in Washing quoted in the proceedings here.

DISAPPOINTMENT IN MADRID. Better to Get Rld of the "Ungrateful London, Nov. 17 .- The Madrid corre-

spondent of The Standard says: "There ls considerable disappointment in high quarters at the failure of the Spanish peace commissioners to obtain any complete concessions, at least financial ones, from the United States. Montero Rios, Senor Carmica and Senor Abarzuza are reproached with conducting the negotiations too much like law-yers and without sufficiently attending

to the more concillatory suggestions of their colleagues on the commission. "In the same strain it is argued that Senor Montero Rios would undoubtedly earn popularity by declining to sign earn popularity by deciting to sign peace on such harsh conditions, and by patriotically throwing up his mission. But all sensible people share Senor Sa-gasta's epinon that it would be better to secure peace on any terms, while protesting against ungenerous treat-

There is a widespread feeling in Spain that it would be better to get rid of the ungrateful colonies and of everything calculated to lead to fresh American aggression. The bitterness of the feeling against the United States is now greater than ever among all classes. Certainly the government's principal preoccupation is the ques-tion of a Carliet rising, but it is believed that any attempt could be speedily

suppressed. The Times, commenting edito. ally this morning upon the Spanish suggestion of arbitration, refers to it as "ob-viously futile and absurd." "The Spanish cabinet." says The Times, "has no real intention of breaking off the negotiations, it is only prolonging them in order to familiarize the public mind In Spain with the inevitable conces-sions. Certainly there is no need for the United States to send a fleet to Spain, as they could easily enforce sub-mission without that. Spain would be foolish to sulk and thus lose the money compensation America is now willing

to pay."

The Paris correspondent of the Daily Telegraph says: "I understand that Senor Sagasta desires to protract the Paris negotiations to the utmost, because he fears, first, that the signature of a peace treaty will be the end of his public life, and, in the second place, because he desires to stave off, if pos-sible, the fall of the demants."
