I had been suffering from a rectal trouble accompanied by burning and itching, which was almost exasperating and prevented my sleeping, banished comfort of any kind and made me arations and was constantly buying ointments but could get no permane t relief. Doan's Ointment, which I procured from Kirlin's Pharmacy, has stopped the whole trouble and it is the first remedy I ever used that did this. # THE MARIANAO LANDING PLACE

Formally Turned Over to General Humphreys-To Build a Railroad to Guanabacoa to Facilitate Transportation of Commissary Supplies.

Havana, Nov. 18 .- As cabled yesterday, the date for the Spanish evacuation has been definitely settled as Jan. 1. All the Spanish troops remaining in the island will be quartered, under the protection of the United States, in camps especially designated, pending embarkation for Spain. The stenographic report of Wednesday's joint session of the evacuation commissioners was signed yesterday afternoon by the Spanlards, the Americans having pre-

viously attached their signatures. Nothing was definitely settled regarding the question of fixed and movable property, and it is understood that the subject will be referred to the respectabjectly miserable. I used many other prep- live governments for consideration. The Spanish troops will carry their small arms, colors, field pleces and the entire equipment of an army in the field. The landing place at Marianao was yesterday turned over officially to General Humphreys, who is the ranking chief quartermaster of the United States troops in the Island. A depot for quartermaster's stores will be erect-Yesterday the pler and ed here. wharf were inspected by General Greene, General Humphreys and Colonel Hecker, who expressed themselves as satisfied with the work.

In the course of the next fortnight work will be commenced under Colonel Hecker's directions upon a railroad from Casa Blanca, on the east side of Havana bay, to Guanabacoa, where it will connect with the tracks of the United railroad, thus facilitating the transportation of commissary supplies, Next Sunday Colonel Hecker and Captain Crawford will go to Matanzas, pushing on later to Cardenas, Sagua La Grande and Cienfuegos. Colonel Heck-er goes in his capacity of chief of transportation to make arrangements with the various railroads.

General Greene will personally lay out the camps on each side of the Vento water works, beginning work immediately upon the arrival of the first cargo of timber, which will be unloaded at Flaya De Marianao. The building of the railroad from Havana bay to Guanabacoa indicates that the Marianao landing place is to be only

mission from the Cuban assembly at Santa Cruz Del Sur, who left on Wednesday for the United States, was followed yesterday by his colleagues, who went by the Segurancia. General Cal-ixto Garcia, at Captain General Blanco's suggestion, was taken by a tug from Playa De Marianao to the Ward liner. This was to prevent any dem-onstration such as might have ensued had the Cuban special commissioner passed through Havana. Many went on board the Segurancia to say farewell and to wish the commissioners success at Washington. No Cuban flags, however, were displayed in the harbor, and there was no disorder of any kind. General Garcla said that he and his associates on the commission were very sanguine as to the outcome

CANNOT EXPLAIN EXPENDITURES Our Commissioners Must NotAsk How the Big Loans Have Been Used-Spain

Government. Paris, Nov. 18 .- When the American peace commissioners gathered for their daily sension yesterday the Spanish presentment lay before them in English, ready for consideration and accompanied by data hearing upon it. No unofficial person knows the con-tents of the last document presented by the Spanish commissioners, but it is safe to assume that, added to her insistence on the reservation of her Philippine sovereignty and her proposition to arbitrate the construction of the third article of the protocol, Spain has made two other important statements:

Would Saddle All the Debt On Our

**DILATORY SPANIARDS.** 

Two More Points Regarding the

Philippines Debt.

First-That on the high ground of financial probity she cannot allow any discussion here of the validity of her action in pledging the resources of the Philippines for the payment of the Phillppine debt.

Second-That, in connection with the American proposal to reimburse Spain for her pacific expenditures in the Philippines, she cannot admit of any inquiry as to how she has spent the proceeds of the loans based on the Philippine pledges.

If Spain has assumed this attitude, and it is believed she has done so, she practically compels the American com-missioners to consider at least the entire Philippine debt and its assumption by the United States or the Philippine Islands as a condition to Spain's amicable surrender of her sovereignty over those islands.

It is difficult to understand how the Americans can reply to this in any other manner than by strictly out-lining their position and giving the Spanlards a time limit in which to accept the propositions of the United States. But the American commis-sioners may patiently continue their endeavors to arrive at an amicable un-derstanding on the subject.

## OUR OFFICIALS CONFIDENT.

#### Administration Encouraged Over the Outlook at Paris.

Washington, Nov. 18 .- The adminis tration feels encouraged now over the outlook for a successful termination of the labors of the peace commissioners at Paris. Whether this renewed confidence is based upon an abstract of the Spanish reply which was submitted at Wednesday's meeting or is founded upon private advices indicating a weakening of the Spanish position is not known, but it is probable that both of these have had an influence in brightening the prospects. The Spanish re-ply was not a surprise to the American commissioners, who in fact had pre-pared themselves in advance with Instructions received directly from the president and Secretary Hay for complete answer. Still, it was prob-ably regarded as better policy, and more in accordance with the amenities of official exchange, that the Americans should do the Spanish commissioners the courtesy of giving deliberate consideration to their carefully prepared written argument.

But with all due intent to give proper weight to the Spanish representations it must be said that up to this point they have had very little effect in in-fluencing the American commissioners, not because of any obstinate disregard of facts on their part, but for the simple reason that almost every one of the points made by the Spanish commissioners had been anticipated in the preparation of the American case, no small tribute to the acumen and dilligence of Judge Day and Secretary
