OUR COUNTRY: First, Last and Forever.

SARAH BERNHARDT is going to India to shoot tigers. Col. Roosevelt can give Sarah points on tigers and grizzlies, too.

PORTO RICO is behind Rhode Island in density of population, but ahead of Delaware. These midsets are all exceptionally well supplied with inhabitants.

COMPLAINT is made that the law is frequently violated by "expert" hunters from this town in shooting game on Sunday. Why not make an example of some of these sports?

SPAIN asks damages of the Clyde shipbuilders because the torpedo destroyers did not come up to expectations. The defense will be that men to run them were not in the contract.

PRIVATE advices from Paris are to the effect that the American peace commissioners have greatly strengthened their hand by a very fortunate draw immediately following the shuffle here on the 8th inst.

AN effort should be made to save all the Cervera wrecks near Santiago. The Spanish ships are historic objects, and ought to be handed down to future generations of Americans, who will have patriotic duties of their own.

THE appointment of Dr. P. F. Burke as deputy coroner for Shenandoah and vicinity, meets with general satisfaction, without regard to political considerations. The appointee is one of the rising young physicians of the town, and is deservedly popular.

THE first week of criminal court was a busy one, and many cases were disposed of. In this connection it might not be out of place to compliment the grand jury for its work, especially the placing of the costs on prosecutors in petty cases where bills were ignored.

AFTER being elected District Attorney by the handsome majority of 5,000 and over, it is now said that B. W. Cummings, Jr., is considering the acceptance of an offer to locate in New York city. The Miners' Journal is authority for the statement that Mr. Cummings will leave next week for the metropolis with that end in view.

THE Pennsylvania Bailot Referee Association, which has been organized in its protest against the intricacies of the present ballot system, is now preparing a plan to be presented at the next Legislature, under which the candidates' names are printed in groups under the caption of the office for which they contest. Governor-elect Stone, it is said, favors a simplified ballot, and will recommend a change from the present system in his first message to the Assembly.

This is a generation of keen competition. Margins are not large in any line, and to prosper a marked increase in sales is necessary. To get this increase resort must be had to the newspapers. They will tell the intelligent buyer what you have to offer, and in a way introduce the buyer to the seller. This is a favorable season to begin advertising, and to increase it if you have already begun. The holidays are not far off. There is no better medium than the HERALD, as the leading merchants of Shenandoah use its columns.

DESPERATE CONVICTS Kill a Guard. Shenandoah, O., Nov. 18.—Convicts O'Neil and Atkinson, who are serving 15 year terms in the penitentiary for burglary in Cleveland, in some manner secured a revolver yesterday and made a bold attempt to escape. Startlingly Guard Jones took from him his revolver and then went into the broom shed. There both opened fire on Guard Lauterbach, and he fell dead. The shooting attracted other prison officials, who rushed to the scene, and a fusillade ensued until all the convicts were taken and sent to the penitentiary. O'Neil was beaten almost to death before he would surrender. Both are in the prison hospital.

FIRST SPANISH WAR Pensioner. Washington, Nov. 18.—Commissioner Evans, of the pension office, notified Secretary Alger yesterday that Jesse T. Gates, of the Second United States Artillery, who lost part of his upper lip in the West Indian campaign, has been awarded the first pension on account of the Spanish war. Gates will receive \$11 per month, and this being inadequate a private pension bill insuring the pension probably will be introduced to congress. Claims on account of the Spanish war are now coming in rapidly. The total on file up to date is 1,947 for war service and 178 for naval service, exclusive of the claims of the battleship Maine victims.

RAILROAD MAN Receives Good Advice from Fellow Workmen. The Whole Story Told by His Wife. It May Help You.

"When my little boy was six years old he had an attack of the measles, and after recovering he was restless at night, had no appetite, and was cross and fretful. Later on, large blotches and sores broke out on his face and limbs. We were told that these would heal in a few days; but these few days grew into months. One day my husband, who is a well-known railroad man, was advised by some of his fellow workmen to give the boy Hood's Sarsaparilla. We concluded to do so, and after he had taken the first bottle we noticed some improvement. We kept on giving him this medicine until he had taken three bottles, when he was completely cured, and he has been well ever since." Mrs. E. J. MILLER, Bennett, Pa.

DEATH IN DENSE FOG.

Gang of Railroad Laborers Run Down by a Train.

ELEVEN KILLED, FIVE INJURED.

The Men, Jumping From One Track to Escape a Train, Leaped in Front of a Local Rushing Along at Forty Miles an Hour.

Jersey City, Nov. 18.—In the gloom of smoke, storm and fog that thickened the rails of the Pennsylvania railroad yesterday morning between Jersey City and Harrison a belated suburban train dived into a dense fog, striking and killing 11 and injuring four. Five others had remarkable escapes. All the victims lived in Jersey City.

The dead are: Frank Bodoick, 48; Giuseppe Calabrese, 31; Thomas Doherty, 31; Thomas Flanagan, 31; Joseph Fargue, 48; Michael Lawless, 34; Nicola Luceri, 31; Frank Ludowski, 21; Angelo Pugno, 37; Frank Stumsky, 30; Giuseppe Stanzano, 22. Bodoick and Stumsky leave families. Frank Ludowski is dying at St. Francis hospital.

The accident happened about two and one-half miles west of Jersey City, just beyond the Hackensack river bridge. At that point there are four tracks, two devoted to passenger and two to freight traffic. At the north are the shops and the tracks of the Delaware, Lackawanna and Western railroad. Foreman Quirk took out a gang of 19 men at 8 a. m. to repair track No. 1, the westbound freight track—that place. Quirk saw that the fog might mean danger, so he sent ahead two men, Lawless and Doherty, to give warning of approaching trains. Lawless was to go west and Doherty east, and cover all the tracks. They were to shout warnings at the approach of trains. The passenger train were kept busy with incoming suburban trains, and the dense smoke and steam from these trains helped to make the atmosphere more dense.

Suddenly, about 8:30, there was a shout from Lawless, who was the advance guard of the gang. "Train on No. 3," he cried. It was an eastbound freight train that came along slowly, leaving behind it a heavy pall of smoke. The men, who were scattered along the track, ran out on the other side. At most all of them jumped over to track No. 1, the eastbound passenger track. The heavy smoke enveloped them, and the men, many of them new hands on the road, shivered with fright, for they could not see and could scarcely hear the approaching train that followed the freight.

Lawless, too, had jumped across to track No. 1, keeping all the time a sharp lookout. Suddenly there was a rumble of wheels, and the shriek of the train. The Milwaukee local, delayed by fog, was coming along at the rate of 40 miles an hour. Lawless was struck and thrown 30 feet away, mangled and bleeding. On went the train. Engineer Van Nostrand had scarcely noticed the man's body flying through the air when the engine struck Doherty; then it ploughed into the mass of cowering men, who stood huddled together on the track.

"It was an awful sight," said the engineer later. "There was a mass of legs and arms flying through the air. I was drenched with blood. I knew that something terrible had happened, and put on the air brakes as hard as possible." The train came to a standstill and the passengers rushed out. The track was drenched with blood. The meadows and the track looked like a battlefield covered with bodies. The shrieks of the dying drowned the cries of the hurried passengers. Women fainting and men turned away in horror. Of the 19 men there were dead and six wounded.

Someone telephoned quickly to Jersey City. Many of the bodies, still lying in mortal agony, were picked up or the train and borne to the city. Two of the wounded died on the way. A relief train brought back the others.

A Clever Trick. It certainly looks like it, but there is really nothing about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bile.

How Insomnia Kills

If You Can't Eat or Sleep Well You are in a Dangerous Condition.

Sleeplessness is simply a rapid road to the insane asylum. No greater calamity can befall a person than to become sleepless.

The extreme weakness, the tired, utterly exhausted and prostrated feelings, the wretched, disturbed and unrefreshing nights are terrible. What wonder that there are so many shattered nerves, tired brains and debilitated bodies, when we consider the thousands upon thousands who pass sleepless or disturbed nights, and rise mornings feeling indescribably miserable, dragged out, scarcely able to face the day's work?

What wonder that so many rise mornings in ill-health, feeling heavy, haggard, dull and heavy, ringed eyes, and go about their daily employment with tired limbs, exhausted energies, nervous aches and pains?

There is one sure way to cure sleeplessness, and that is by the use of Dr. Greene's Nervura, the great brain and nerve invigorator. This wonderful remedy is derived from a natural product, and is perfectly harmless, being made from pure vegetable medicines free from the lap of nature. It may be given to infants, children or the most delicate invalids without fear. It soothes, calms and quiets the weakened, irritable and over-worked nerves, producing perfect repose and refreshing, natural sleep, at the same time it builds up and tones up the shattered nerves and gives renewed life, strength, vitality and vigor to the system.

Mr. F. M. Myers, Alliance, Ohio, says: "I suffered with general disability and nervousness. I could not sleep at night nor in the day time. I suffered almost everything and had a severe pain in my side. I was depressed in spirits and discouraged in every way. One day I read of Dr. Greene's Nervura and decided to try it. I have now taken six or eight bottles and I feel like a new man. I had only taken it a short time when it began to build me up. I can sleep now and have a good appetite and feel that I have a new lease of life. I consider Dr. Greene's Nervura blood and nerve remedy the best of medicines. I have consulted free, personally or by letter, at his office, 35 West 14th St., New York City. A free letter of advice from the distinguished specialist has placed many an unhealthy man and woman on the road to recovery."

FINANCE AND TRADE. Improvement in Business Expected After Election Has Begun. New York, Nov. 18.—R. G. Dun & Co.'s weekly review of trade says: The situation is clearer, and the improvement in business which was expected after the election has begun. Payments through clearing houses are far the largest ever known, for the week 37 per cent larger than last year, and 33 per cent larger than in 1912. The glass workers have resumed, the anthracite coal output is heavy and much beyond the present capacity of markets, the troubles in both coal and mines have been settled, and the new strike of shoe workers in Marlboro, Mass., is now the only labor hindrance of consequence. It is noteworthy that in spite of all changes the price of spot wheat has but slightly advanced.

JOHN W. KEELY DEAD.

Inventor of the Famous "Motor" That Bore His Name.

Philadelphia, Nov. 18.—John W. Keely, the inventor of the Keely motor, died yesterday at his home in this city of pneumonia. He was taken ill on Saturday last and continued to grow steadily worse until his death. Mr. Keely was 61 years of age, and leaves a widow.

Mr. Keely was a native of this city. His education was meager, and at an early age he became a carpenter, following that trade until 1872. It was in that year that he announced his discovery of a new force by which motive power would be revolutionized. Following this he constructed what has become known as the Keely motor. On Nov. 10, 1874, he gave its first public exhibition.

Between 1874 and 1891 Keely constructed and discarded 129 different models. In his first models he employed water as a motor, but later the experiments were made with what he called a "liberator," a machine equipped with a large number of tuning forks, which, he claimed, disintegrated the air and released a powerful etheric force.

In 1888 he was for a time confined in jail for contempt of court in refusing to disclose the secret by which he produced many remarkable effects in the presence of experts, but until his death the secret was known only to himself.

Americans Regard in Havana. Havana, Nov. 18.—Of late Havana has been almost overrun with Americans, who have arrived here quite without means of support, but in hopes of getting lucrative employment. Scores of them are now bogging in the streets of the city. There is really no inducement whatever in Havana for outsiders at present, and begging will be the almost inevitable fate of nine-tenths of those who come here in search of work.

Her Health Restored. THE misery of sleeplessness can only be realized by those who have experienced it. Nervousness, sleeplessness, headaches, neuritis and that miserable feeling of unrest, can quickly be cured by Dr. Miles' Restorative Nervine. So certain is Dr. Miles of this fact that all druggists are authorized to refund paid for the first bottle tried, providing it does not benefit.

Mrs. Henry Evans, wife of the well known blacksmith at Grand Junction, Iowa, says: "I was troubled with sleeplessness, nervousness, headache and irregular menstruation; suffering untold misery for years. I used various advertised remedies for female complaints besides being under the care of local physicians, without help. I noticed in Dr. Miles' advertisement the testimonial of a lady cured of ailments similar to mine, and I shall never cease to thank that lady. Her testimonial induced me to use Dr. Miles' Nervine and Nerve and Liver Pills, which restored me to health. I cannot say enough for Dr. Miles' Remedies."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle refunded if it does not cure. A free book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

Terrible in Pain. Pana, Ills., Nov. 18.—The town is kept in a state of terror every night by numerous encounters between negroes and striking miners. Both are heavily armed and use their ammunition freely. About 7 o'clock last night Deputy Sheriff Sid Watts, who was returning from the Springdale mine, where he had been on duty, was shot from ambush. The bullet took effect in his right arm, which had to be amputated. A number of residences have been pierced by bullets, and those who are able to do so have sent their families to the country. The principal streets are patrolled by soldiers.

A Woman's Burden.

This is a story of a woman addressed to women. It is a plain statement of facts too strong in themselves to require embellishment, too true to be doubted, too instructive to be passed over by any woman who appreciates the value of good health.

The women of to-day are not as strong as their grandmothers. They are bearing a burden in silence that grows heavier day by day; that is sapping their vitality, clouding their happiness, weighing them down with the woe of ill health.

Mrs. Alexander B. Clark, of 417 Michigan Avenue, Detroit, is a typical woman of to-day. A wife with such an ambition as only a loving wife can have. But the joys of her life were snared by the existence of disease.

Suffering as thousands of her sisters have suffered, she almost despaired of life and yet she was cured. To-day she is well! She wants others to profit by her experience; to grow well! to enjoy health; to be as happy as she is!

"For five years I suffered with ovarian trouble," is Mrs. Clark's own version of the story. "I was not free one single day from headache and intense twitching pains in my neck and shoulders. For months at a time I would be confined to my bed. At times black spots would appear before my eyes and I would become blind. My nerves were in such a state that a step on the floor unsettled me."

One Week Cures Another. Wilton, Pa., Nov. 18.—Twenty-two men were mired or less injured in two railway wrecks near here yesterday during a heavy fog. In a head-on freight collision on the Rock Island, at Moscow, brakeman John Donahue was fatally hurt. Brakeman Marshall Miller had a leg broken and other men and women were seriously injured. Donahue did not long survive. Just after the Moscow accident a construction train which left here to clear the wreck was struck by the fast mail train. Seventeen were more or less seriously injured, but none killed.
