Child Was Weak, Had Night Sweats and Poor Appetite.

"Our youngest child was in a bad condiston. One physician said the trouble was malaria and another thought it came from the stomach and liver. Meantime the shild kept growing weaker. He had night sweets, poor appetite and various other troubles. We worried along for two years, and then we determined to try Hood's Sarsaparilla, and from the first day we noticed a change in our little boy. We kept on until he had taken about three bottles. Today he is a strong, hearty child. We have always had to keep him indoors in winter, but last winter he was out with other children and we found no trace of the old trouble returning." Dawson's Preparations For Winter. Washington, Nov. 22.—In a report dated Dawson City, Oct. 1, United States Consul Cook presents an interesting picture of the Klondike town preparing to go into winter quarters. Large quantities of logs were being piled in front of the business and other houses to serve for fuel, and small fortunes were being made by parties who were bringing in glass and oil lamps. Butter was selling at \$2 per pound and the price of condensed milk and other products had doubled. The consul says that now is a good time for capital to step in, as there is no doubt of the country being very rich, but money is needed to develop it.
