Then again, there is There Are 635,000 Pension Claims many an unhappy fellow creature in your midst. 'Tis not surprising that this should be the case, when one thinks of the burdens some backs are forced to bear. If yours is not the back that bears the burden still we think you would be glad to lend a helping hand to lighten another. Let us show you how it can be done and at the same time tell a story of Shenandoah life, that will prove this aid can be easily given.

Mrs. Mary Randenbush, of 213 Emerick street, says: "I was very miserable from pains in my back, accompanied by headaches and a terrible lameness over my kidneys. If I stooped there was sharp twinges of pain when I attempted to straighten up. suffered from irregular action of the kidney secretions and had a sensition of weariness hanging about me all the time; I had become debilitated waiting on my busband during his last illness and as kidney disease caused the death of one of my parents I was very auxious to get cured. I became interested in Doan's Kidney Pills from reading the positive cures they had performed and I procured a box from Kirlin's drug store. I can now praise them as highly as others whose statements I read. On using them as directed they removed all the troubles and left me free from any annoyance from my kidneys. I conscientiously mmend Doan's Kidney Pills to others."

Pending, and the Secretary Urges Reforms For Alaska.

Washington, Nov. 25 .- The annual report of Secretary of the Interior Bliss reviews in detail the progress of pension, Indian, land, patent, educational and territorial affairs. Reviewing the gradual dimunition of public land area Secretary Bliss says that of three hundred and odd million acres of desert land requiring irrigation to render them valuable farming lands the available water supply is sufficient for only 71,-500,000 acres, leaving 260,676,000 acres suitable only for grazing purposes. There are 30 forest reservations, embracing an estimated area of 40,719,474

The Indians are declared to have made substantial progress, and the Chippewa outbreak was the only seri-ous disturbance of the year. As to logging operations there, which figured so conspicuously in the discussion of the outbreak, Secretary Bliss says:

pine and agricultural lands to be sold originally was 2,984,297, exclusive of the land allotted to the Indians. There have been disposed of to date 86,545 acres of pine lands and 320,634 acres of agricultural lands, aggregating 407,179 acres. The total amount received from the sale of pine and agricultural lands is approximately \$659,912, which has been deposited in the treasury to the credit of the Indians, as required by law. Of the agricultural lands sold 320,634 acres were embraced in homestead entries, on which there are due

Reviewing pension matters Secretary Bliss reports 635,000 claims of all classes pending, and says a separate division has been organized for the ajudication of claims growing out of the war with Spain. These soldiers will receive their pension under the general law for permanent disabilities contracted in the service. He also concurs in the recom-

I have been troubled with heart disease 15 years or more. Most of the time I was so bad j. was not safe for me to go out alone. If overtaken by one of my dizzy species, I would fall, helpless. I had severe palpitation, shortness of breath, and sudden painful attacks that prostrated me. The advance employ-only thing physicians did for me was to advise keeping quiet.

In August last I commenced taking Dr. Miles' New Heart Cure, and before I had finished the first bottle, I found the medicine was a God-send. I have now used four bottles in all and am feeling entirely well. I have not had an attack of the trouble for some months.

I am 73 years of age, and have held a grudge against patent medicines all my life, but I will not allow this feeling to prevent me from giving my testimony to the great cure your valuable remedy has wrought in me, I do this to show my appreciation of the great merits possessed by Dr. Miles' New Heart Cure.

FOOTBALL IN THE SNOW.

PENNSYLVANIA DOWNS CORNELL

By a Score of Twelve to Six, While Twenty Thousand Enthusiasts Cheer Their Favorites While Laying the Foundation For Sickness and Death.

Philadelphia, Nov. 25,-On a field knee deep with mud the University of Pennsylvania football team yesterday by the score of 12 to 6. It is doubtful if ever a game has been played under more unfavorable conditions, both as to the field and the weather. The wind, which had been blowing strong from the northeast nearly all day, suddenly shifted to the west a few minutes be fore play started, and instead of the persistent drizzling rain a snow storm of almost blizzard proportions set in and continued without a let up until the game had been concluded.

When the Cornell team trotted on the

When the Cornell ream trotted on the field at 2:04 it was seen that Charlie Young, who played such a brilliant game with the Carnellan and White last year, was in his football togs, and was down on the card as one of the halfbacks for the Ithaca boys. This was a big surprise to the red and blue no intimation had been given that this star player would participate in the proceedings. And it may be added that while Mr. C. Young continued in the game he was a tower of strength to Cornell. He broke up the interfer-ence and tackled like a flend.

From a spectacular point of view the game was a weary one to look at. The wretched condition of the field made it almost an impossibility to execute any long runs, and Coach Woodruff's famous "guards back" formation was rendered almost useless, simply be-cause the men could not get enough solid foothold to get under way and would full with their own efforts. Then, too, it was absolutely impossible to prevent fumbling and do accurate kick-ing. Cornell's only touchdown was due to bad kicking, made possible by the slippery ball, and the same can be said

of Pennsylvania's second touchdown.

The first half closed with the score 6 to 8 in favor of Cornell. During the last 15 minutes of the first half the ball had been kept in Pennsylvania's territory, because of Hare's failure to punt more than 15 or 20 yards. C foung, who did the punting for the visitors, gained from 10 to 20 yards in this half on each exchange of punts. Then, too, the Pennsylvania backs would fumble nearly one-half of Young's kicks, while the Cornell players were always at hand to drop on the ball.

In the second half things were different. When the Pennsylvania players went into their dressing room they exchanged the wet heavy suits they had been wearing for new, dry ones and when they reappeared on the grid-iron with their dry clothes and the wind in their favor everybody expected that they would redeem themselves for the wretched play in the first half. This they did in a measure, carrying the ball down the field by steady plunges, varied with an occasional end run to Cornell's 25 yard line, from where Outland carried it over for a touchdown on a delayed pass. The play during the second half was almest entirely in Corne, 's territory,

The rough weather had no apparent effect on the attendance at the game. As early as I o'clock the enthusiastic football cranks began to arrive, and by 2 o'clock there were about 20,000 persons in the huge ampitheater. Neither did the severe storm dampen their ander, for there was an incessant yelling kept up from the time the ball was kicked off at 2:03 until time was called for the end of the game, weather conditions prevailed at other
