COMPRESSED AIR.

Miss Bertha Lord, of Pottsville, is a guest Being Used in Mining at the Richards

Colliery. The work of building foundation walls for the crection of an air compressor has begun at the Richards colliery near Mt. Carnel. The power thus stored will be applied to an engine located inside which in turn will hoist the wagons used in the removal of the mined coal coming from the sinking of the new slope on the No. 9 vein. A depth of about 60 feet has already been attained and the solid bed of coal through which it is be-

ing driven has been removed by platforms.

This new departure will greatly increase the work and h, so far as known, the only time compressed air has figured in work of this character. The compressor has been on the grounds for some time. It will likely be used at two other slopes that are proposed to
