GENERATED IN THE HUMAN BODY. The Result of Imperfect Digestion of

Food. Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Ptomaines), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food, The resul is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin, weak and lacking in red corpuse! ... , poisoning the brain causing headaches and pain in the eyes,

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and wesk digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy

complexion. The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy because they supply in a pleasant, harmless form all the elements that weak stomachs lack. A DEADLY EXPLOSION.

Partially Wrecks a River Steamer on the Pacific Coast.

SIX DEAD AND MANY WOUNDED.

Men of the Crew Confined in the Hold and Terribly Scalded by the Escaping Steam-Eight of Them Nearly Roasted Alive.

Stockton, Cal., Nov. 28,-The most disastrous river accident in the history of Stockton occurred yesterday near Fourteen Mile Slough, when a part of one of the bollers of the river steamer T. C. Walker, which left San Francisco about 6 o'clock Saturday night, was blown out, killing six and dangerously wounding 11 persons, while probably 15 or 20 were more or less badly hurt. The T. C. Walker is owned by the California Navigation and Im-provement company, and ran between San Francisco and Stockton.

The dead are: John Tulan, captain of the T. C. Walker; T. C. Blunt, the agent in charge of the shipping of sugar beets from the Moss tract to the Crockett factory; Watson Henry, engineer of the T. C. Walker; Mrs. Henry, wife of the chief engineer; Jerry Daily, fireman; Ferdinand Law, of Seattle. Of the wounded James Cor-coran, deckhand, will probably die.

The majority of the passengers were bed when the explosion occurred, and were awakened by the report. which was as loud as a cannon's doar. peptogenic products; the most sensible remedy People rushed from their rooms in all cases of indigestion, is to take after each their night clothes. The electric lights had been put out and the escaping steam enveloped the front portion of the boat till it was impossible to see how much of the boat had been carried nway.

The screams of the men who were locked in their rooms near the pilot house were heartrending. Captain John Tulan had been blown from his bed against the door of the state room and so seriously injured that he could not move. Watson Henry, the chief engineer and his wife were in their room near the pilot house when the explosion oc-curred. Mrs. Henry was blown a distance of 20 feet to the bow of the boat. She was badly crushed and so badly scalded with escaping steam that her injuries proved fatal at 12:30 yesterday afternoon. Mr. Henry was badly scalded. He was thrown some distance, but not as far as his wife. He died shortly after being brought to the city. Mr. Blunt was instantly killed. He was standing on the lower deck, as he intended making a landing a short distance above the place where the ex-

plosion occurred. Jerry Dally, the fireman, was in the fire hold of the boat when the accident occurred. The escaping steam com pletely enveloped him, scarcely a portion of his body escaping the scorch ing vapor. He died at the receiving

Underneath the lower deck, where the deckhands slept, groans and screams were terrible, for the unfortunate imprisoned men were receiving the full force of the steam as it came from the boilers. Eight of them were almost roasted alive. Those who were able made their way to the deck as best they could, while the more seriously injured were unable to get out. Arms and faces of those near the main en-trance were frightfully scalded. Dominici, who was on the lower deck, was blown into the water and had to swim

ashore after his back was scalded.

On the lower deck the injured em-ployes of the boat were located. Moans and screams, which could not be re-pressed, were uttered by the injured men. Everything possible was done

taken aboard.

One of the remarkable escapes is that of Harry Polyene, who was at the wheel when the explosion occurred. The pilothouse was torn away, but he was not dangerously injured, though mewhat scalded about the lower

What caused the explosion will probably never be known. The steam drum burst with terrible violence. It had split completely across the upper por-tion and the whole sheet turned outward. The four walls of the engine room were demolished by the force of the explosion. The lower deck, hur-ricane deck and Texas deck were wrecked in the portion directly over the engine room. The direction of the flying debris was upward and outward. toward the bow. If it had been the other way the loss of life would have been much greater. The forward doors and stairway were destroyed.

THE SPANIARDS WILL PROTEST,

But Will Accept the American Offer of Twenty Million Dollars For the Philippine Islands-Sagasta's Trials With His Colleagues.

Paris, Nov. 28.-Senor Montero Rios, president of the Spanish peace commis-sion, was last evening waiting for the reply from the Spanish government. and unless there is some change in the situation before the commissions meet today the reply will be an acceptance, under protest, of the American offer of \$20,000,000 for the Philippines. Even up to a late hour last evening telegrams had been exchanged between

the Spanish commissioners and Madrid, but all the Americans in a position to speak with authorityy are convinced that the foregoing outlines the con-tents of the Spanish reply, Senor Aburguza expressed the opinion that there would be no break in the work of the Marquis de Comillas, who is the largest individual creditor of Spain and has been here from the outset in behalf

of the numerous important enterprises of which he is the head, also indicated that Spain had made up her mind to yield. He is in very close touch with the Spanish commissioners. "Nothing that we have done here," said the marquis. "has made any impression upon the minds of the Ameri-

can commissioners. From the very first their intention was to take the Philippines, and they have never

ritory within lines longitudinally and latitudinally defined. It embraced the so-called Sulu group. There has been no change since the first demand, and, according to the statement of one of the American commissioners, there will be no modification of it.

JUDGE DAY'S CONFIDENCE.

Assured That the Spanlards Will Sign

the Peace Treaty.
Washington, Nov. 28.—Throughout
the peace negotiations which are still pending at Paris the president has expressed confidence that a treaty satis-factory to the United States would be drafted and signed. From time to time assurances of substantial progress toward that end have been received the American commissioners. Yesterday advices were received by the president from Mr. Day, president of the Paris commission, relierating the assurances he had previously given the president of the early and successful conclusion of the work of the commis-

Judge Day, it is understood, states positively that the Spanish commissioners formally will accept, perhaps today, the terms of the United States, and that a treaty drawn along the lines of the agreement reached drawn and signed in a few days.

The dispatch from Judge Day was the first absolutely definite statement as to the conclusion of the labors of the commission that has been received. It is probable that the president will liscuss in his message to congress. which will be delivered one week from today, the successful efforts of the administration in the negotiation of a peace treaty, although there is a pos-sibility that the treaty itself may not have been signed at the time

IF THE AMERICANS PERMIT.

Spaniards Will Lodge a "Protest"

London, Nov. 28,-The Madrid correabinet has concluded that the wises policy is to accept the American terms leaving to the Spanish commissioners full power to secure the best possible indemnity, and to place on record, if the American commissioners will permit, a protest against the American in-terpretation of the protocol as affecting the Philippines and against the

ace conditions generally.
"The decision of the cabinet is approved in political and financial circles. I understand, however, that the deliberations of the ministers was very protracted. Senor Sagasta, Duke Alm dovar de Rio and Senor Pulgcerver had great difficulty in inducing some of their colleagues to accept the small indemnity Undoubtedly the situation is hard and critical but ministers say Senor Sagasta is determined to confront all opposition until the cortes i convoiced, probably at the end of De-cember, when he will demand a vote of confidence, virtually implying ap-proval of the treaty and the conservation of his party."
