Recognizing Its Possibilities.

The recent sessions of the general convention of the Protestant Episcopal church, held in Washington, were notable not so much for action as broad-mindedness. A notable comparison is found in the fact that while the Church of England is going through a painful experience of internal dissensions, the Episcopul church of this country presents a more united front than for many years past; and, so far as the action of the recent annual convention affords ground for judgment, is moving along more progressive and generous lines. The debates were often sharp, the speeches incisive, but the laws of Christian courtesy were never violated. In fact, the session was notable for dignity, kindliness and elevation of tone.

The drift of the Episcopal senti-ment was indicated by the action of the convention on four points. On the question of the proposed change of the canon on marriage and divorce. the New Testament ground of the present canon was, for the time being at least, maintained; and the position held by the Roman Catholic church, that marriage is a sacrament, and cannot, therefore, be dissolved on any ground, did not win the support of the convention. The matter has not been finally decided, but has been referred to a large and representative committee, which will report at the next convention, to be held in San Francisco three years hence

All the propositions, in various forms, to change the name of the church were defeated by decisive majorities; and while it is not impossible that the time may come when the present rather awkward designation of the church may be modified, the extreme High church programme does not appear to be making any progress. The determin ation to establish missions in Roman Catholic countries was another step which was freely discussed.

Heretofore the ground has been taken that, as the Roman church is a true church, no matter what its errors of doctrine may be, any attempt to establish missions within countries under its control would be an act of schism. On this ground the establishment of Episcopal missions in Brazil and Mexico has been vigorously opposed. Episoopal sentiment has now gone so far, however, that at Washington a Bishop of Brazil was elected. and measures have been taken to lay the foundations for church activity in Porto Rico and Cuba. This is a decisive step.

Dr. Huntington, one of the broadest-minded and most influential men in the Episcopal church, finally succeeded in securing the adoption of a resolution providing that provision may be made by a canon for the temporary use of other forms and directories of worship by congregations not already in union with the Episcopal church, but who are willing Isin store for all who use Kemp's Balsam to accept the oversight of the bishop for the Throat and Lungs. ROW AMONG DEMOCRATS.

Gordonites Seek to Overthrow Colone Guffey's Leadership.

(Special Correspondence.) Hardsburg, Nov. 28.-There is a pretty row on in the Democratic party in Pennsylvania. It is all over the opposition of the Gordonlies to the continuance of the leadership of Colonel James M. Guffey and to the desire of the friends of Judge Gordon to help out the Wenamaker combination in their plans to advance the political in-Hniment terests of the Philadelphia millionaire and his Republican associates.

That Wanamaker has given up all hope of being elected to the United States senate is now apparent. managers, while still in touch with the Democrats, are trotting out C. W. Stone and John Dalzell for United States senator, to divide the Republican vote. Meanwhile Mr. Guffey is getting in his fine work lining up the Democrats. Mr. Guffey has never been takes away all known to enter into any business or danger and nearly all sufferpolitical deal without expecting a full return for any expenditures that might ing. Best results follow if the be made. It is well known to outsiders that in the last three weeks of remedy is used the whole the state campaign the Demogratic period of preg-nancy. It is the only remedy of the kind in the world managers made up a pool and put up individual collaterals upon which \$100,-000 was raised to be spent in certain countles to elect Democratic members of the legislature. The present United \$1 per bottlent all States senate stands 44 to 46 against drug stores, or sent by mail on receipt the Republican party, and with visions of Democratic control of the senate before them the Guffeyltes were very liberal in their expenditures. The Democratic machine had never handled such great rolls of cash, and with their allies in the Wanamaker organization dress upon application to they succeeded in unexpected quarters. The Bradfield Regulator Co.,

Guffey, now having engineered and financed the Democratic campaign, be-Heves that he is entitled to the honor of the Democratic caucus nomination for United States senator. The Gordon-Mutchler combine has, however, trotted out Chauncey F. Black as a candidate. and are fighting Guffey at every point. Guffey believes the Democratic party should stand by its colors and place a strong man, a good Democrat, in the field for the speakership of the house of representatives.

IN FAVOR OF GUFFEY. The officers of the Democratic state organization are of the same mind, as was evidenced by an address to the Democratic members-elect issued by Secretary Van Dyke, of the Democratic state committee, who indignantly resents the idea that the Democratic members shall be used to pull the chestnuts out of the fire for the Wanamaker Republicans. He comes out squarely in favor of Colonel Guffey for United States senator, calls attention ours, but belongs to us no more, be-cause even if we should not lose it by to his record as a valiant fighter for his party and the self denying manner in which he has always given his time.

right in the war, we have lost it in fact, and with it all wealth and an money and services to the party.

The most conspicuous advocate of lms of the climate and bullets in the coalition with the Wanamakerites in defense of what is now no more than the legislature by the Democrats is Representative John H. Fow, author we that this opinion of mine should of the "Fow bill," and other iniquitous measures that have brought denunciase known to the queen and by the tions upon his head from almost every county in the commonwealth. It is safe to predict that Colonel Guf

fey will win out his fight.

Meanwhile the Republicans are V was a fallure because of lack of power, and how the Cataluna begun more than eight years before, was still incomplete. And then he predicts that quietly canvassing among their number in the interest of the several Re-publican aspirants for the speakership, Voorhees of Philadelphia, Bliss of Delaware, McClain of Lancaster, Marshall and Hosack of Allegheny, and the others.
