OUR COUNTRY : First, Last and Forever.

QUAY and Stone held a conference in Philadelphia yesterday, and now we are prepared for the old battlecry, to the effect that the former owns a Governor.

SPRAKING of Governor elect Stone's cabinet, why not grave it with a Schuylkill countain? The Secretary of State plum would be a nice morsel for the wounded feelings of the Honorable Gustavus Schrink.

Our Pottsville contemporaries. under the lead of the Journal, do not realize that the election is over, and continue to prate about the merits or demerits of defeated statesmen. The subject is hardly worthy of so much contention.

THE superintendent of the public schools of Chicago is under serious charges, the accusation being made that he is trying to introduce the study of free silver among the scholars. Perhaps he hopes to re-afficted with "Kidney Complexion." vive the doctrine during the next generation.

THE fact that members of the Legispature from this county includes but one Republican does not necessarily imply that Senator Quay will receive no support from Schuylkill. We are rather inclined to the belief that he will get a majority, the Republican to the contrary notwithstanding.

Sures are about to be brought against a number of young attorneys of Luzerne county, who, it is claimed, possened blood, clear their complexion and force damage cases, and otherwise net unprofessionally. It might be said that Luzerne is not the only county afflicted with this class of Barristers.

Held for Mine Horror,

The readers of the HERALD are curred at the Exeter shuft, resulting offer in the Shenandowh Henand. in the death of nine men and causing widespread excitement in the vicinity of West Pittston; and it has now reached the courts.

David Price and Clinton Anthony. engineer and brakeman, respectively, are charged with violating the mine ventilation law, by making a flying switch, contrary to orders, thereby causing the accident. Ten men on the cage were descending the shaft. and had almost reached the bottom when three loaded mine cars fell from the surface and crushed nine of the men to death. The engineer and brakeman as usual made a flying switch, but the cars, instead of taking the track that made a detour around the shaft, took the track straight for the shaft, the switch being open, and fell down the shaft with the result above stated.

The case is an important one to both mine owners and employes. The men were arraigned in court at Wilkesbarre on Tuesday. The attorneys for the defendants offered a row has given way to General Regalado, the plea that the warrant did not specify any offense; that the making that if the men failed to discover the open switch even that did not constitute an offense.

The court, however, held that it was the men's duty to see that the the reverse view. switch was properly closed, and that they should not have made the flying switch but should have kept control of the cars about the head of the shaft. The men were held under bail for trial, and the outcome of the case

of Pension Money. Philadelphia, Dec. 1.—State Senator Perry A. Gibson, of the Eric district, yesterday met Governor Hastings at the Stratford hotel, this city, by appetition which the senator had received from inmates of the Soldiers' and Sall-Home at Erle, Pa. The petition trayed the senator to take steps to recover for them pension money which this had received from the national government and which, they allege, has been slepally taken from them by the trustees of the institution at Eric. The pointen is signed by 100 inmates of the hone, who allege that an aggre-gate of \$402 per month is taken from them, and that the amount taken from the immates of the home since 1885, in which year it was organized, aggre-gates nearly \$100,000, and is being added

at the rate of \$10,000 per year.

A DOCTOR'S HEROISM.

His Remarkable Feat Required Physical

Strength as Well as Bravery. The author of "The Malakand Field records the following deed, which The British had with great difficulty re-pulsed an enemy overwhelmingly superior in numbers and had withdrawn into their defenses. The deadly hollow some distance in front of their lines, called the Cup, was commanded from several directions by the fire of the natives and swept at intervals by their swordsmen,

"Lieutenant Ford had been seriously wounded in the shoulder. The bullet cut the artery, and he was bleeding to death when Surgeon Lieutenant V. Hugo came to his aid. The fire was too hot to allow of lights being used. There was no cover of any sort. It was at the bottom of the Cup. Nevertheless the surgeon struck a match at the peril of his life and examined the wound. The match went out amid a sputter of bullets, which kicked up the dust all around, but by its uncertain light be say the nature of the injury.

"The officer had already fainted from loss of blood. The doctor seized the artery, and as no other ligature was forthcoming he remained under fire for three hours, holding a man's life between his finger and thumb. When at length it seemed that the enemy had broken into the camp, he picked up the unconscious officer in his arms and, without relaxing his hold, here him to a place of safety."

For many hours after this feat, as re-

markable for the strength displayed as for the heroism which inspired it, the gallant surgeon's arm was paralyzed and useless from the strain. Little wonder. Not ev-ery man could carry another away, using e arm only, and with the other hand re-

There is more Catarrh in this section of the ountry than all other diseases put together, and until the last few years was supposed to be in curable. For a great many years doctors proounced it a local disease, and prescribed loca remedies, and by constantly failing to cure with toral treatment, pronounced it incurable science has proven catarrh to be a constitution al disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co , Toledo, Ohio, is the only onstitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoon Havana.
