"Bad backs" are numerous.
So few understand the cruse.
Many Shenandoah people are learning.
And better still they're being cured.
Lame backs are lame no more.
Weak ones regain their strength.
This is the every day labor in Shenando Of Dean's Kidney Pills.
Our citizens are making it public.
Mr. Thomas Harkin, of 1870 West C.

Mr. Thomas Harkin, of 629 West Coal street, breaker boss in the West Shenandoah colliery, says: "I have been troubled with my kidneys more than in any other way, though I have also suffered a great deal of lameness right over my hips and sching in my back especially when on my feet. I was told by an acquaintance, a farmer living up the valley, that he had been cured by using Donn's Kidney Pills, although he had been in the worst possible shape, and I know that he was worse than I over was. Well, I procured them at Kirliu's drug store and though I had paid a lot for doctor's prescriptions, nothing I ever had helped me like they did. Doan's Kidney Pills removed all irregularities of the kidney secretions and did away with the dead tired feeling that had so bothered me. I can warmly recommend Doan's Kidney Pills for kidney difficulty."

APPEALS FROM SPAIN.

Special Trade Privileges Asked in the Conquered Provinces

FOR A PERIOD OF FIVE YEARS.

Spanish Peace Commissioners Assert That Spain Cannot Immediately Sever Business Relations So Long Maintained With the West Indies.

Paris, Dec. 2 .- Anxious as both are to conclude their work, the United States and Spanish peace commissions did not hold a joint session yesterday. Their next meeting will be held at 2 o'clock this afternoon.

This delay arose from the fact that

the Spanish commissioners at Wed-nesday's session offered several urgent propositions which called for special deliberation upon the part of the Amer-Spain asks the United States to grant for a term of five years to Spanish ships carrying Spanish goods or products to Porto Rico and Cuba the same privilege as American vessels engaged in the same trade may have, and she qualifies this request by a proviso that trade privileges be ex-tended to Cuba so long as the United States government is dominant over that island.

In support of this request the Span-ish commissioners assert that Spain cannot, without vital harm, immediately abandon or cut the business relations so long maintained between the nother country and the West Indian territories. They declare that family ties and social relations, added to affairs of trade maintained through centuries, require gradual dissolution. They invoke the terms of the treaty of 1819, by which the United States took over Florida from Spain, and the 15th article of which granted Spain for 12 years the right to send her goods and products to Florida in Spanish ships, on the same terms as the ships carrying thither goods and products of the

The Spanish commissioners cite further the fact that the treaty of 1863 with France for the cession of Louisiana granted French and Spanish goods and products the same terms as Americans in New Orleans and other ports in the ceded territory.

Finally Spain points to the American proposed "onen door" policy in the Philippines, and asks a guarantee of the same advantages in her late West Indian colonies until trade relations can by degrees accustom themselves to the change of sovereignty.

This proposition, and the arguments by which it was supported, are considered strongly stated, and the American commissioners desired time for deliberation. Thus, though busy until nearly 2 o'clock yesterday afternoon, they were not fully prepared, and Judge Day sent a message to Senor Montero Rios requesting that the joint session fixed for yesterday afternoon be post-

poned until today.

Meanwhile the Spanish commissioners had been preparing a list of sub-jects for negotiation, supplemented by suggestions counter to and amendatory of the subjects the Americans submitted on Wednesday. This came to the American commissioners yesterday in Spanish, rendering it even more desirable to postpone the joint session in order to give time for translation

and consideration.

It seems unlikely that the commisstoners will finish their work as soon as had been expected. It is probable that the negotiations will last considerably longer. Madrid has instructed the Spanish commissioners on three points to which the Americans attach much importance. These are the ces-sion of an island in the Carolines, the granting of religious freedom over the whole of the Carolines and the cession

of a cable and coaling station at Ceuta The Spanish government has in-structed Senor Montero Rios to grant none of these, and while Spain may ultimately yield to them all, it is admitted that the American commis-sioners have no power to enforce their demands on points not covered by the protocol. Before Spain does yield the negotiations are likely to be prolonged and the United States may have to give a substantial quid pro quo.

TWENTY-ONE BODIES

Have Been Recovered From the Wreck of the Portland.

TOTAL LOSS OF LIFE UNKNOWN.

It Now Seems Likely That a Hundred and Fifty Souls Went Down With the Doomed Steamer, and That Some Bodies Are Still in the Hull.

Provincetown, Mass., Dec. I.—Another day has passed and the mystery of the steamer Portland wreck has not been given up by the sea. It was a day of constant watching of more than 30 miles of coast line, and the sea gradgingly held its victims, yielding only five. Twenty-one bodies have been recovered out of the entire passenger and crew list, the exact number of which is still unknown. The number of people who went to their death on the Portland will never be known, but almost hourly persons are reported missing from the different places in New England, until now it seems probable that the number was over 150. Of the bodies recovered hereabouts 13 have been identified and eight remain to be

There is no break in the Incessant patrol of the coast from Race Point to Chatham, which has been kept up since the storm began Saturday even-ing. Of the five bodies recovered yesterday one was found at Nauset, some 25 miles from the place near which it is believed the wreck occurred, another came ashore at Orleans, some four or five miles further south, and three at Chatham. Old seamen say that the majority of the bodies which will be found in this section have al-ready come ashore. The rest, it is belleved by the experienced, have been carried far south and lost in Nantucker ound or scattered so widely that there little hope that they ever will be recovered. Moreover, the belief that many bodies are still within the hull of the steamer seems to be growing sons that it is likely that tugs will be sent out to patrol the section of sea which has been fixed upon as the probable scene of the wreck, in an endeavor to locate the hull, as well as to secure anything that may be found affoatfrom her, including bodies, baggage, cargo

Shipwrecked Seamen Rescued. Baltimore, Dec. 2.-Captain Henry O. Appleby and the crew of the American bark St. Lucie, which is now supposes to be at the bottom of the Atlantic vere rescued by the British steamship Orthia, of and from Glasgow, and were landed here yesterday. Seaman Henry Heymeyer was convened by the cap-sizing of the bark's lifeboat. Sunday was a day of terror for all on board. At noon the bowsprit, jibboom, fore and main topmasts went by the board and the vessel began leaking badly. The night was one of sleeplessness and dread. Monday morning the deck load of lumber and rosin washed overboard. and in the afternoon a big sea broke over her, stove in her cabin doors and flooded everything. At 8 o'clock on Tuesday morning the men were res-cued by the Orthia. The last seen of the bark she was sinking fast.

Port Jefferson's Storm Damage. New York, Dec. 2.—Port Jefferson, L. I., has just emerged from the snow embargo. The story of the havor done in Port Jefferson bay by the storm came with the first train. Wrecks of pleasure yachts and commercial craft are strewn about the shores or He on the bottom, broken wrecks. During the height of the storm the fishing schooner Hard Chance was driven on the rocks at Oldfield Point, where she lies broken in two. It was impossible to aid the vessel, and her crew of four men perished. The damage to ship-ping in Port Jefferson is estimated at more than \$100,000.

the heralds of old, to proclaim so that all may hear, the vital importance of health. The average man of to-day thinks it beneath his dignity to bother about his health until it is gone. Even then he only takes measures to restore it in an indifferent, contemptious sort of way.

Men caunot learn too soon that health Men caunot learn too soon that health is the most import-ant thing in life—in fact is life. Without it the most brilliant man will be a failure, and the most robust man will rapidly be-reck. The man who

appetite and sleep, nervousness, hot flushings, cold chills, heavy head, lax muscles, and the multitude of bad feelings that are the heralds of approaching sickness and disease, must pay a tremendous penalty. For men who suffer in this way there is no medicine equal to Dr. Pierce's Golden Medical Discovery. It sharpens the appetite, corrects all disorders of the digestion, invigorates the liver, makes the assimilation of the food perfect, purifies the blood and enriches it with the life-giving elements that build new, healthy flesh. It is the great blood-maker and flesh-builder. It cures of per cent. of all cases of consumption and is the best of all known remedies for nervous troubles. Thousands have told, over their own signatures, the stories of the wonders it has performed. Honest dealers will not urge a substitute for the sake of a little extra profit.
