WHEN Hobson meets Dewey, what a swapping of experiences will there take place !

It is interesting to note some of the changes which are gradually taking place around the mines here and elsewhere in the anthracite region. In years past the coal operators seemed Judge Bradford Refuses the Admisto take advantage of every opportunity to increase the number of their breakers, but of late years it has been noticed that the inclination is in the other direction, every endeavor seeming to be exerted to centralize the work of preparing coal for market in | work of preparing coal for market in Counset book up the argument rela-mammoth breakers. Some of the open mining fans are being replaced by fans which promise a higher percentage of efficiency, and underground haulage has been revolutionized of late years on the same lines.

Those who have been close to Mr. Penrose know that Senatorial life is anything but congenial to him, and for us." that if he consulted his own desires he would retire, quit politics and de vote his future to business. He had no desire in the first place, beyond the satisfaction of repaying those who so treacherously betrayed him in the mayoralty fight in Philadelphia. of entering public life and he would only be too glad to retire. But when Senator Penrose considers what might happen to the state organiza tion, of which he is now a very important part, if he were to resign at portant part. If he were to resign at States on board the Ward line steamer this particular time, he hesit ites. If Santingo to bring back his father's rehe should decide to leave the Senate it is Senator Penrose's intention to join his brothers in the development of valuable mining property in New Mexico, which they own.

It can be said, therefore, that Sena tor Penrose's future depends upon the result of the Quay trial and the organization of the coming legislature. His many personal and political friends throughout the state, and especially those in Schuylkill, would regret to see the junior Senator retire from public life. His rise has been rapid, and a bright future is before him as one of the brilliant political leaders of the party in the state. Elected to the State Senate for three consecutive terms, presiding over that body with marked distinction and subsequently elected to the United States Senate over John Wanamaker, by a vote of 210 to 39, was an evidence of his wide-spread popularity.

As a debater and public speaker Mr. Penrose has few equals, and his advancement in the Senate has been rapid. The people will be reluctant to part with his services, and it is to be hoped that the influence of his friends will be sufficient to cause him to abandon his intended retirement.

Denver, Dec. 13 .- A mutiny occurred In the state penilentiary at Canon City yesterday and three men were injured, one seriously. They are: E. E. Van Gohren, guard, cut about the face and neck with a razor, wounds may prove fatal: H. O. Fitznetrick, guard, slightly cut in the same manner: George Miller, convict, shot in the leg, small flesh wound. As the prisoners were being seated for breakfast Miller, doing five years for robbery, drew a razor from underneath his blouse and made a dash at R. B. Lamoreaux, a guard, Guard Van Gohren grabbed the prisoner before he reached Lamoreaux, but Miller turned on him and slashed him unmercifully. Van Gohren fell to the floor, bleeding prefusely. Miller then attacked Fitzpatrick, and had began to use his rager on him with deadly fect when Guard McPherson shot him bladder, inflammation, causing stoppage, and in the leg. He dropped his bloody razor and fell to the floor. He was then placed in irons, and the excitement subsided, It is supposed Miller slipped the razor into his pocket when being shaved in the harber shop on Sunday,
