A Justice Decides Against a Coal Com pany's Lien.

An interesting point was decided by Justice As interesting point was the Ketner, at Mahanoy City, last night in the suit of Edward, John and Thomas Horosby, minor children of James Hornsby, of Park Place, against Lentz & Co. The suit was instituted to recover wages held by the company to sati-fy a debt in its store contracted by the father of the plaintiffs.

The father testified at the bearing that he never drew the pay of the boys, that they always drew the pay themselves. He also testified that he never made any contract which gave the company power to stop the carnings of the boys for bills contracted by

him at the company's store.

Counsel for the plaintiffs cited Acts of Assumbly and argued that the company had no right to withhold wages for debt without first obtaining the consent of the debtor. The J. stice took this view of the case and gave judgment against the company for \$65.89, \$23.23 and \$4.03, besides the costs,

The hold will centain machinery by which the clothing of 1,000 persons can be fumigated in one day. Arrived there, they remained in consultation with the authorities for about an hour. Captain McCluskey said after the women were taken home that he had learned nothing from them. Ho said it was deemed host to get the versions of the poisoning directly from

Mrs. Rogers and Mrs. Hovey, "But they told us nothing we did not know," he said. "The case is as much a mystery as ever. Nothing has de-veloped. I have no theory. I have o person under suspicion." Captain McCluskey denied that he

had placed or contemplated placing Mr. Cornish under suvelliance. He sent word to the Knickerbocker Athletic club however, asking if Cornish were able to come to headquarters. Dr. Cof-fin, who is attending Mr. Cornish, replied that his patient would not be able to leave his bed for two days. He said he is undoubtedly out of danger, but he did not want him to take any chances. Dr. Coffin gave an interesting statement of how Cornish escaped death, while Mrs. Adams, drinking from the same glass, was killed by the deadly poison.

"Cornish mixed the poison," said Dr. Coffin, "and gave it to Mrs. Adams. She drank but a little, complaining that it was bitter. Cornish then took the remainder and drained the glass to the dregs. I think that the reason Cornish was not killed is that he drank the dregs and Mrs. Adams took the A Carpet Sweeper or a pretty Rug poison in the solution. The quantity of powdered matter acted as an emetic and cleared his stomach."

When they found he was unable to ome to them Captain McCluskey and Mr. McIntyre, accompanied by a sten-ographer, went to the Knickerbocker Athletic club and were in conference with Cornish for more than an hour, Late vesterday afternoon an autops was held. When the process was com-pleted and the parts of the body destred for analysis were scaled in fars, Coronor's Physician Weston issued a report, in which he reiterated his opin-ion that death was due to the use of cyanide of potassium.

Cornish's Divorced Wife, Boston, Dec. 30.-Mrs. Addle J. Cor-nish, the divorced wife of Harry Cornish, the Knickerbocker Athletic club manager, stated today that her knowledge of Mr. Cornish of late has come to her through the newspapers or letters written to her 9-year-old daugh-ter Edith. Mrs. Cornish declares that the was not acquainted with Mrs. Adams. Little Edith went to New York some time ago, and on her return told of having been to the house of Mrs. Adams, but beyond this Mrs Cornish has no knowledge of the woman.
