The meeting was held in the Pinza and was attended by 3,000 persons. Energetic speeches were made against the policy of centralizing money at Havana. Most of the speakers declared that the principle which it was now preposed to put into effect again had been fought against by them for 30 years. All were exceedingly culo-gistic in their references to General

Wood, imploring him to use his influ-ence with the Washington government against the revival of one of the worst features of the Spanish regime. Colonel Valiente, the Cuban who was appointed chief of the gendarmerie, was quite outspoken on the subject. He said the Cubans had fought 30

years against this policy, and they were ready to fight 30 years more if necessary. The members of the San Carlos club

are in a fover of excitement. They say, as previously pointed out, that the main cause for complaint against Spanish rule was the continual demand for money obtained from the different provinces, which they claim should remain in the provinces and be spent

THE TREATY OF PEACE Will Be Promptly Rushed Through the National Senate.

THE NICARAGUA CANAL BILL.

It Will Command the Right of Way, and May Roach a Vote Before the Peace Treaty and the Appropriation Bills Are Taken Up.

Washington, Jan. 4 .- Congress reconvened today in accordance with the terms of the holiday adjournment reso-lution. The senate almost immediately adjourned for the day as an evidence of respect for the memory of Senator Morrill. A session of the senate will be held tomorrow, but there is a movement looking to an adjournment from that date until the following Monday, based upon the probability that there will not be a full attendance of senators so soon after the holidays. This plan will be antagonized by the friends of the Nicaraguan canal and by other senators who are championing especial measures, and it now appears quite probable that they will be able to hold the senate for at least another day of he week.

There are two months of the session left to a day, and the time will be fully occupied if half the work is to be done that is planned. None of the regular appropriation bills have passed the senate, and the river and harbor bill is to be added to the regular list this session. None regard the peace treaty of less importance than the supply bills, and it will be pressed along with them when reported, practically without re-gard to other bills.

Of other measures of magnitude which will press for consideration in the senate during the session the Nicaragua canal bill will take precedence, but it will be urgently pressed

by the Hawaiian government bill, the anti-scalping bill and the interstate commerce commission bill, to say nothing of the probabilities concerning the measures for the increase of the standing army and of the navy. Senator Eikins and other friends of that measure will also continue to urge the bill regulating the registration of foreign built vessels wrecked in American Willfers.

The Nicaragua canal bill will command the right of way at the beginning of the session and will hold its place if it is made evident that a vote can be secured upon it before the appropria-tion bills and the treaty are to be taken up. It it cannot be disposed of before these are brought in it will be temporarily displaced from time to time. The friends of the bill maintain, however, that debate is practically exhaust-ed, and they are hopeful of securing a vote at no very distant date. They profess to feel very much encouraged by the preliminary report of the Walker commission, which was made public last week. Senator Oullom has given notice of a motion to take up the antiscalping bill so soon as the canal bill may be out of the way.

There is a growing belief that the peace treaty will not be made the subject of a long debate, and what two weeks ago was a strong probability of Its ratification may be said now to be a certainty, Nothing less than some unforseen emergency can prevent the senate's favorable action upon it at the present session. There are features in the treaty which many senators sider objectionable, but the fact that it is a treaty of peace and that they, as a rule, have nothing in its stead to offer, will prevent any factious opposition. The treaty will be discussed in executive session, but the senators will continue to make speeches in the open senate on Senator Vest's anti-expansion resolution.
