#### Northern Democrats,

The next Congress begins March 4. and in this convention the St. Louis Democrat directs attention to the fact that not one straight Democrat from the Northern states will be a the Companymember of the Senate.

Thirty Senators end their period of service on that date, and in filling the seats the Democrats of the North will be entirely unrepresented. It is truly an extraordinary fact in American politics.

The Senators from Utah and Mon-tana will be elected by fusion Legis-th legislature held short sessions yes-The Senators from Utah and Monlatures and are as much Populist as Democratic. A close estimate of the next Senate is fifty-four Republicans, twenty-six Democrats and ten Populists and Silverites, a Republican majority over all of eighteen. The twenty-six Democratic Senators are from the South, but that section is no longer solid. It sends ten Republicans to the next Senate. In five years the Republicans have gained eighteen scats in the Senate. They bave been strengthened most in the branch where stability is the greatest, a matter of unusual political significance.

The Democrats in the next Senate will number less than one-third of the whole body, while the Republicans will lack but six votes of two thirds. A remarkable change has occurred in the Senate, but it has been spread over several years and its full Importance has hardly been realized.

There is still, in a technical sense, a Democratic party in the North. It claims the name and is in possession of the machinery. But the Demoeratic party as it was has passed away. The situation in the next Senate proves it. Gorman, of Mary iand, is among the missing. Murphy of New York, Smith of New Jersey, Gray of Delaware, Mitchell of Wisconsin. White of California, Turple of Indiana and Faulkner of West Virginia are in his company. There are Republican gains over the Populists in the transmississippi region. he passing of the Demogratic party occurred there some time ago. All that remains of it is a minor element available for nothing except fusion combinations.

Here is the remnant of the fusion Democracy and Populism in the to be patient as in due time they will next Senais; One member from get at the facts regarding the Maine Colorado, one from Idaho, one from explosion. He describes his proof as Kansas, one from Montana, two from Nevada, two from South Dakota, two from Utah and one from Washington. To this total of eleven Senators, of an shades of opinion, is the opposition reduced in the North. As far as the Senate is concerned, the Northern Democrats are virtually extinguished. So much for the Chicago platform

Looking over the whole field, there is no encouragement whatever for another debased money campaign. The Senate blocks the way for a long Marrell's death, transacted no business period. Sound money legislation was then impossible. For the next two years it will be easy.

The fusionists two years ago had a program which they could have enforced the moment they came into Dec. 2, 1893, a defaulter to the extent and were scriously scalded about the power. All that is changed. Their of about \$80,000. He was convicted and face and body. The engine was owned chance to upset the currency of the country has petered out.
