MAKE A TEST OF STUARTS DYSPEP-SIA TABLETS.

No trouble is more common or more misunderstood than nervous despepsia. People having it think their nerves are to blame and are surprised that they are not enred by nerve medicines. The real sext of the mischief is lost sight of. The stomach is the organ to be looked after.

Nervous dyspepties often do not have any pin whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every organ. In some cases the heart pulpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are troubled with

Singuar and Fatal Accident to the British Ship Andelina.

SEVENTEEN SAILORS DROWNED.

The Vessel, While Walting to Be Loaded, Was Upset in a Squall White Those on Board Were Steeping-Not a Soul Resened.

Tacoma, Wash., Jan. 16.—The British ship Andelina, 2,345 tons, of Nova Sco-tia, Captain G. W. Stalling, sank in 22 fathoms of water in front of the St. Paul mill wharf, and the captain, mate and 15 of the crew were drowned. The accident occurred during the night. The vessel came here in ballast from Shanghai. The ballast had been dis-charged, and the ship was lying at anchor waiting to be towed into the

A terrific gale raged on the bay, the wind blowing 36 miles an hour. Two great boom logs were placed beside the Andelina, one on each side. During the gale between 2 and 4 in the morning one of the logs went adrift, causing the ship to careen and to cap-size with very little warning to the crew. The vessel was entirely without ballast and the hatches were open. All on board were caught like rats in a trup and had no chance to escape. The ship simply turned over, the water flowed in the open hatches and she

The full list of those lost by the capsizing of the vessels is as follows: Captain G. W. Stalling, of Annapolis N. S.; E. H. Crowe, aged 39, London-N. S.; E. H. Crowe, aged 39, London-derry, N. S., first mate; E. G. Doe, aged 23, Blackpool, Eng.; Memey Jos-saim, Victoria, B. C.; Joseph M. A. D'Hollyere, Ostend, apprentice; Richard Reginald Hanze, Ostend, Belgium, apprentice; Charles Smith, United States, boatswain; James Daly, New York, boatswain; J. R. Brown, Barbadoes, cook; H. Hansen, Sweden, able seaman; John Jensen, Denmark, seaman. John Nielson, Norway, seaman; F. Ostrum, Finland, seaman; Edward Letz, Regia, Russia, seaman; Fred Hindstrom, Norway, seaman; August Simonson, Holland, seaman; Pat Wilson, St. John's, N. F., seaman.

The ship, which was of English build and worth probably \$150,000, entered this port several days ago. She was to have loaded wheat for Europe. Friday the Andelina was taken to the Euroka dock and all her ballast removed and the hold cleared prepara tory to receiving cargo. She was then towed to anchorage several hundred yards northeast of the St. Paul and Tacoma Lumber company's dock, at which point the disaster overtook her. She had out, according to the best in-formation obtainable, the starboard anchor, weighing at least two tons, while to either side of the vessel were attached the ballast logs used to keep a ship upright during the absence of

cargo or ballast. The ship was riding easily when the skippers of other vessels anchored in the bay retired for the night. When daylight dawned no signs of the Andelina were visible. Over the spot where the ship rode at anchor the night before only a danger signal buoy lamp was visible. When the absence of the ship was discovered Captain Doty and Captain Burley took the tug Fairfield and made an investigation, and it was soon determined beyond possibility of doubt that the ship had gone to the bottom. One of the ballast logs was To this dangled part of the chain by which it was originally fastened to the ill fated ship. In addition one of the lifeboats, a mattress with the name of the ship on it and several

ars were found. Late yesterday afternoon the vesse was located. She lies on her broadside under 23 fathoms of water, close to the spot where she had been anchored. The vessel will probably be raised and the bodies of the dead sailors recovered When the Andelina entered this port she was manned by a crew of nearly 30 men. Some deserted and others were discharged until only 18 were left. The only list of victims obtainable is that given by Percy B. Buck, an apprentice, who was injured two days prior to the disaster and taken to one of the Tacoma hospitals.

THE WEEK IN CONGRESS

Nicaragua Canal Bill May Pass the Senate This Week.

DISCUSSING THE PEACE TREATY.

The Philippines Question Will Probably Be Debated in Open Session-Oppoments of the Document Sa; They Have Veter Enough to Befeat it.

Washington, Jan. 16.-It is the pur Washington, Jan. 16.—It is the pur-ose of Senator Davis, in charge of the these cooles from Hong Kong. peace treaty, to again call it up as placing other measures which take preedence under the existing orders of the senate. These questions are the In-dian appropriation bill and the Nicaraguan canal bill.

Under the agreement made last week the canal bill will be taken up at 3 s'clock tomorrow for discussion in speeches not to exceed 15 minutes in furation. There is no agreement for a vote on the bill, but the belief is gen that the understanding already eached will lead to an early vote. The enators opposed to the pending bil express no intention of trying to pre ent a vote, and the friends of the bil are very confident that this culmina tion will not be postponed beyond Wednesday. Senator Morgan, who has ed the contest for the measure, today expressed the opinion that the fina vote would be reached before adjourn-ment tomorrow, and he predicts that the bill will go through without being amended in any essential particular The acceptance by the committee of the Berry amendments has had the ef fect of removing much of the opposi-tion to the bill, and there is believed o be little doubt of its passage when the vote is taken.

The senators attended the funeral of Representative Dingley at noon today, but after the ceremony they returned to their desks and resumed consideration of the ladian bill. This bill may ontinue to hold attention until tomor row evening, and if such should prov o be the case the further consideration of the treaty would be postponed untiafter action upon the Nicaragua n the meantime the pension and dip omatic appropriation bills will have been reported from the committee on appropriations, but it is not the purose at present to give them prece ence over the treaty.

Senator Bacon has given notice of a peech on the general question of exddress will be based upon the resions regarding the status of the Fill pinos introduced by himself sometim-since, and its delivery may lead to considerable debate, practically on the peace treaty, in open session. It is also probable that there will be more or less discussion of the resolution of Senator Hoar for the recognition of the independence of the Filipines, introduced

great confidence in being able to de-feat it, upon a vote, and to believe that the friends of the argrement will seek to postpone a vote until next session. The Democratic opponents of the agreement have held several meetings during the past week, and those who have attended profess to be very hopeul concerning the outlook. They claim is votes in opposition, or three more than necessary to defeat. They say hey will be satisfied to have the treaty ratified providing an amendment is ngrafted upon it declaring against th naintenance of sovereignty in the Philippines, but the supporters of the treaty decline so far to grant any such

In the house the main interest attaches to the time when the important bill for the increase of the regular army can be taken up. It is awaiting the re-covery of Chairman Hull, of the mill tary committee, and should be be about by the and of the week this measure will be brought forward. But there i little prospect that his convalences will permit this. He was sitting yesterday, but his strength is hardly qual to leading in this contest.

The house held no business session
