The Kidneys

are the seat or the starting point of many maladies, all of them serious, all more or less painful, and all of them tending, unless cured, to a fatal end. No organs of the body are more delicate or more sensitive than the kidneys. When symptoms of disease appear in them not a moment is to be lost if health is to be restored. The best way to treat the kidneys is through the blood, cleansing it from the poisonous matter which is usually at the bottom of kidney complaints. For this purpose there is no remedy equal to

Ayer's Sarsaparilla

"For many years I have been a constant sufferer from kidney trouble, and have tried a number of largely advertised kidney cures without benefit. At last a friend advised me to try Ayer's Sarsaparilla. The cure of my kidney trouble is entirely credited to its use."—MARTY MURPHY, 1233 Hancock Street, Brooklyn, N. Y.

MR. BECHTEL'S OFFICE.

The Taxpayers' Association Ready to Prove Charges of Irregularity.

From the Miners' Journal.

There is every indication that there will be an investigation of the affairs of the District Attorney's office. It will be remembered that the Taxpayers' Association addressed a letter to B. W. Cumming in December, 1888, when it was believed that he would be the next District Attorney calling attention to alleged irregularities in the conduct of the office. Of course when this letter was written nobody dreamed that District Attorney Bechtel would succeed himself.

But by a stroke of good luck he held on to the office and one of the first things he did after he was reinstated was to call upon President W. L. Shearer, of the Taxpayers' Association, and announce that he would call for the investigation of the affairs of the office. President Shearer said yesterday that matter was in the hands of the attorney of the association and he did not know what course would be pursued. Continuing he said: "We wrote a letter to Mr. Cumming calling attention to irregularities in the office. We made no charges against any one but simply charged irregularities which we wanted corrected under Mr. Cumming's administration."

"But Mr. Bechtel has succeeded himself and he says he courts the fullest investigation at any time and the sooner the investigation is made the better it will please him. I presume an order of court will be necessary before anything can be done in this line. As soon as that is obtained we will be ready with our side of the case."

LAWTON OFF FOR MANILA.

Transport Grant Starts on Her Long Voyage From New York Harbor.

New York, Jan. 18.—Amid the waving of handkerchiefs and general farewells the United States army transport Grant, with Major General W. Lawton and staff of 1,500 troops on board, bound for Manila, pulled out from Pier 22, East river, Brooklyn, at 6:15 o'clock last night and proceeded to a point off Liberty Island, where she dropped anchor and remained until today.

Members of the house and senate military committees, Adjutant General Corbin and several other army officers reached the city early this morning, boarded the Grant and made a thorough inspection. The Grant had orders to sail at 10 a. m., but it was after the noon hour before she started on her long journey.

General Robert A. Hall, of the Fourth regiment, is in command of all the troops on board the transport. Major General Lawton and his staff going as passengers.

A few of the men on board managed to obtain leave of absence, and two of them failed to return within the time limit. They were taken in custody by the police of the Fifty-third precinct and taken to the vessel in a patrol wagon shortly before she left Brooklyn yesterday. They were given in charge of the corporal of the guard and consigned to the guard room at once.

What Did Shakespeare Mean?

Shakespeare never wrote truer words than, "Life or pleasant vices doth make whips to scourge us." This can only mean that to our misdeeds of the pleasure of life we owe most of the ills of poor health. Doubtless the words apply to men who, through ignorance, folly and indolence, have used up their strength, energy and vitality, and left themselves almost wrecks of manhood. Their condition would indeed be pitiable were it not for the fact that a scientific physician, a specialist in the cure of this class of diseases of men, has come to their relief and made it easily possible for weak and vigorous men to regain their lost vitality and vigor. We refer to Dr. Greene, of 25 West 14th St., New York City, discoverer of the world famous Dr. Greene's Nervura, as well as other marvelous, strengthening, vitalizing and invigorating remedies, who, notwithstanding his enormous practice and excessive demand upon his time, offers to consult with any sufferer from nervous and physical debility absolutely free and advice and counsel him in regard to his case without charge. This is an opportunity for weak, enervated and exhausted men, of which immediate advantage should be taken. If you cannot call on Dr. Greene about your case, your disease is certainly curable under his wonderful strengthening, vitalizing and invigorating remedies, and you can be cured at home. At least write for his advice and counsel.

WOMAN'S SENTIMENTALS.

They Are Little Understood by Men, but They Cause Her Untold Happiness or Misery.

into the body and deceives the victim before he is aware.

Bright's disease, like consumption, was formerly considered incurable. Now it is known that it can positively be cured, and it is also known that there is but one absolute cure for diseases of the kidneys and the female organs, and that is Warner's Safe Cure.

This great discovery of modern science has been before the public for more than twenty years. It is acknowledged by the medical profession and scientists generally as the only cure which has ever brought sufferers from Bright's disease back to health or checked it in its first stages. It is the only great remedy of the present day, which suffers from kidney complaint, men, women or children, can take with positive certainty that they will be relieved.

The girl of to-day is the mother of future generations. Her health is absolutely dependent for its continuance and preservation on the knowledge and stamens and health of women. Woman's lot and her relations to the world are such as to deserve a great deal more attention and consideration from a nation than she has yet received.

The American race of women in particular has questions to settle that are much more important than the extension of the suffrage to women or the enactment of a national divorce law.

Why is it that there are so many feeble and sickly women all over the land? Why is it that not an average of over one child is born to American women? Why is it that hundreds of thousands of American men will not marry at all?

Have you ever thought of these things?

It is because disease is striking at the very root of the American race. It is because most diseases can trace their cause to one source, viz., troubles of the kidneys and adjacent organs.

The kidneys are the great organs of the body, but this is little realized or understood. A healthy, happy woman with good complexion, good appetite and hopeful spirits never has diseased kidneys. The same is true of men.

But kidney disease is so deceitful, so treacherous, so strange in its approaches that it often steals

A WORD TO THE PUBLIC.

We take the liberty of informing the public that our Annual January Sacrifice Sale is now going on and we wish it understood that this sale is not a joke, humbug or Sheriff sale. Nor do we advertise that we received from somebody else's old stock to make a sale. We picked out from our own stock the balance of heavy weight Suits and Overcoats amounting to about \$7,000 or \$8,000, and will sell them at a sacrifice of 30 per cent. on the dollar. This is customary with us every year and that is the reason we never have any old styles or old stock on hand. We always carry the newest and latest styles and if you are looking for a bargain in Suits and Overcoats that were purchased this fall, you can and will get a good Suit or Overcoat worth \$10.00, during this sale for \$7.50. This will give you an idea of the immense bargains we are offering.

The Deadlock in Delaware.

Dov. Del., Jan. 15.—The legislature will meet in joint session this afternoon and vote for United States senator. It is probable that but three ballots will be taken on the first day, and that there will be no change in the total vote from that cast yesterday by each house. The ballots, which were ineffectual, totaled: Senator George Gray, Dem., 15; J. Edward Adcock, Union Rep., 15; Colonel Henry Dupont, Rep., 10; Congressman L. Irving Handy, Dem., 9; John G. Gray, Dem., 8; William B. Hilde, Rep., 2. The regular Republicans, who are not bound by any caucus action, may scatter their votes. It is stated that if a senator is chosen the election will not occur for several weeks. Meanwhile a joint session will be held daily. It is the general belief that a compromise candidate must be named before anything can be effected.

Color Blind.

Color blindness isn't a serious affliction, but is one that never can be remedied. Many more serious eye defects can be corrected by the application of proper glasses—sometimes they have to be worn continually but many abnormal conditions of the eyes may be obviated by wearing glasses for a short time only if taken in time.
