are the seat or the starting point of many maladies, all of them serious, all more or less painful, and all of them tending, unless cured, to a fatal end. No organs of the body are more delicate or more sensitive than the kidneys. When symptoms of disease appear in them not a moment is to be lost if health is to be restored. The best way to trent the kidneys is through the blood, cleansing it from the poisonous matter which is usually at the bottom of kidney complaints. For this purpose there is no remedy

"For many years I have been a constant sufferer from kidney trouble, and have tried a number of largely advertised kidney cures without benefit. WESTERN IMPRESSIONS.

Mr. Harry L. Whitelock, who, until a short time ago, conducted a shor store in this short time ago, conducted a show store in this turn, writes an lateresting letter to the Henalin on travels through the southwest. He is inveling for the Capital City Show blandacturing Company, of Herrisburg, Pa. His home now is in Roading. The letter was dated at Het Springs, Ark. Mr. Whitelock first speaks of Dellas, Texas. He says it is use of the less business centers in the state and in some instances, manufactory one very nis of the less bushess centers in the state and, in some instances, reminds one very much of Shenxnelouh—so far as the muddy streets are concerned. The Southern towns, he adds, are very much in need of mudscapers. The mud is a black, heavy, stoky kind, and hard to get off the shoes. It sticks like wax. Mr. Whitelook says Texas has a great father. It only requires that the state of the state farmers to preduce the best of the case farmers to preduce the best of first class farmers to produce the best of contertake to cultivate too much land and, having to depend largely on bired help, they often meet with failure. If some good north-ern farmers were to buy small farms and work them sa they do in the north they would get much better results. Our great feature of the land is that it needs no fertil izing. In fact the farmers do not use the barn yard mosnurs, but move the stables and manure, etc. Mr. Whiteleek speaks of the cotton industry and says that during his travels he saw thousands upon thousands of acres of cotton which the formers did not attempt to gather, owing to the low price it is bringing in the markets. He took a trip through Oklahoma and Indian Territory. The towns remind one of country fair grounds The places were filled with far-mers and horsemen. At Wichita, Kansas. Mr. Whitelock was laid up for a few days with the grip. It is wonderful, he writes, to hear the people of Wichita talk of the "Kan-sts boom." A few years ago Eastern capital flowed in by the bundreds of thousands. Everybody was cruzy to take mortgages at the neck.' He was shown lots in Valley
Center that sold during the boom for \$300, and many of them are now sold for taxes

Mrs. Services in the Trinity Reformed church One man offered his \$300 lot for \$7, with an observed at 1000 a. in., and 6:30 p. m. offer of \$5.
