Dandruff
is
Dangerous
When dandruff appears it is usually regarded as an annoyance. It should be regarded as a disease. Its presence indicates an unhealthy condition of the scalp, which, if neglected, leads to baldness. Dandruff should be cured at once. The most effective means for the cure is found in **AYER'S HAIR VIGOR.** It promotes the growth of the hair, restores it when gray or faded to its original color, and keeps the scalp clean and healthy.

Ayer's Hair Vigor
The dandruff has been entirely removed and my hair is now soft, smooth and grows fast. I feel fine and my hair is growing so fast that I have to cut it every week. T. V. VALLI, Alton, Mo.

Is Still Doing
the Duty of
\$1.00

Our cut price shoe sale last week was far above expectations. Many who have missed the opportunity of buying can still be accommodated. The goods on our counters are the same grade as displayed last week, to which we have added several new lots.

The balance of the Ladies' \$1.98 shoes have been placed on the \$1.60 counter. We still have 150 pairs.

This makes room for a display of Men's and Boy's shoes. We have 120 pair of Men's shoes, extra good quality, wide and narrow toes sold from \$3 to \$5, our price is \$1.98.

Another lot of Men's shoes, worth \$2.00 and \$2.50, numerous styles in black and tan, our price is \$1.25.

Another bargain. A lot of Boy's shoes, black and tan, sold at \$1.50 and \$2.00, are going at 98 cents.

Still another lot of Youth's shoes, black and tan, good stock. They were \$1.25 to \$1.65 and we are closing them out at 75 cents. Here is a winner for school children.

These goods were not placed on our counters last week because we did not have the necessary display space. They are positively the same grade of goods as sold last week.

EVENTS AT FORT MONROE.

An interesting letter from a Shenandoah boy located there.
EDITOR HERALD.—Being under the impression that the people of Shenandoah would be pleased to hear something concerning their soldier boys at this place I thought the best way to inform them would be by sending an article to your paper.
Next Wednesday all the men who enlisted in the Sixth Regiment of Artillery during the war will be discharged from the service of the United States. Several of the boys from Shenandoah are in the Sixth. Thomas McAllister will stay in the army, as he thinks it is better than working in the mines.
Charles McLoughlin has returned from his home and is now in the city.
John McWhorter has been detailed to attend the School of Signaling and Telegraphy, and is making rapid progress.
David Gray, of Lost Creek, is home on furlough on account of the death of his brother.
William Kaysnath, of Mahanoy City, is also detailed at the Signal and Telegraphic School.
Nearly all the boys are anxiously waiting for the Peace Treaty to be ratified, so that they can get their discharges.
The weather in this place is something awful. One day it is beautiful and the sun shines, and the next day it rains. There is always a heavy fog in the morning, and when you catch a cold it will not leave you until the warm weather comes and melts it.
Quite a number of the boys from all batteries are deserting, and some of them are continually in debt to Uncle Sam.
Tom Heston, of Ashland, is still the same old boy and is constantly on the look-out to crack some of his excellent jokes. He is a joker with you back.
John Cox is pleased with the army and is getting along nicely.
Thomas Hutton, of Wm. Penn, is growing in size and weight, and is still the same old Tom.
Fort Monroe, Va., Jan. 21, 1899.

MAY BE THE VICTIM.

Body Found at Tanamqua May Be Michael Trachtenberg's.
The Philadelphia police think that the name of the murdered man whose partly decomposed body was found in the refrigerator car at Tanamqua last Friday, is Michael Trachtenberg, who has been missing from his home in Philadelphia since Dec. 12th, last. He was 22 years old and for some years had been subject to fits of melancholia. The description of the body found at Tanamqua tallies closely with that of Trachtenberg. During melancholy spells Trachtenberg roamed on railroad tracks along the river front.

Rich has been drinking for several years and has been separated from his wife for the past three years. He finally secured it at a hardware store upon the representation that he wanted to kill his mother.

He took the poison some and mixed it in a glass with alcohol. His mother discovered what was going on when half the dose was swallowed. She took the glass away from Rich, who immediately after tried to make use of a razor and a pocket knife, both of which were taken from him by his mother before he could harm himself.

COURT HOUSE NEWS.

Four Courts Are Reopening and the Hill Offices Are Busy.

Pottsville, Jan. 24.—There was another busy scene about the court house to-day, four courts being in full operation. Judge Marr is presiding in license court. LOSSES OF THE YEAR.

Many Were Mysterious.—What the Principal Cause Has Been.

The number of sudden and mysterious deaths during the past year has been appalling—we do not refer to those who fall in the war. Thousands of prominent men and women have died suddenly or mysteriously.

Why? The doctors' certificates do not tell the reason, for too often the real cause is far back of what is given as the immediate cause of death.

Thousands are certified as having died of pneumonia. Now pneumonia is almost always the dual symptom of kidney disease. The lungs have never been known to clot the kidneys were in a healthful condition, because all the clogging matter which gets into the lungs would be thrown out of the system by another channel; viz., through the kidneys. You perhaps have never thought of this, but it is true.

Thousands of others are said to have died of heart disease or heart failure. Like the heart, are working day and night and easily get out of order, and even when they rebel they do not make any demonstration over it. They seldom give pain; they work alone and do the best they can. But they none the less undermine the life and cause disease and often death.

Look, therefore, to your kidneys and guard them if you would guard your life. You can't afford to neglect these most important organs of the body. You ought to aid them, to assist them constantly. They are grateful for any help and they respond readily.
