NERVOUS DYSPEPSIA

To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean.

MARE & TE-T OF STUART'S DYSPEP-SIA TABLETS.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think their nerves are to blame and are surprised that they are not cured by nerve medicines. The real seut of the mischief is lost sight of. The should be the organ to be looked after.

Nervous dyspeptics often do not have any p in whatever in the stanmach, nor perhaps any of the usual symptoms of stomach weak ness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every organ. In some cases the heart palpitates and is irregular; in others the kidneys are affected: in others the bowels are constipated. with headaches; still others are troubled with

The Congressman-General Explains Why He Does Not Resign.

MILITARY POSITION TEMPORARY.

The Southern Leader Thinks the Pres-Ident Should Not Be Prohibited From Selecting Members of Congress For special Missions.

Washington, Jan. 25 .- The inquiry ordered by the house of representatives as to what members were holding outside affices-originally intended to de-Wheeler and other members in the army-was begun yesterday by the committee on judiciary. The main in-General Wheeler, which was formally prepared, and was in part as follows: "If the extreme view is taken that the clause in the constitution is man-

datory and that it applies to all memers of congress who accept offices of a temporary character, which may terminated at any moment, then the government will frequently find itself mbarrassed in selecting men for certain duties. For instance, it would have been unfortunate if the president had been inhibited from appointing Senators Davis, Frye and Gray on the peace commission, Senators Morgan, Cuilom and Representative Hitt on the Hawaiian commission, and Mr. Dingley and Senators Fairbanks and Faulkner on the Canadian commission. It would also have been unfortunate had he been inhibited from appointing such a dis-tinguished and able man as Senator Morgan on the arbitration court in Parts

"The committee will readily understand my embarrassment in a matter of this character. There are three other members of this house who have accepted military commissions, and some 28 others who have accepted civil positions. It would be very unjust to them for me to have assumed to decide this question by attempting to resign, as it has been urged that such action on my part would be used as an argument against their right to retain their seats in congress. Again, I have reeived continued and urgent appeals from my constituents not to resign

"In deference to the views of the distinguished members of congress who are insisting upon my seat being va-cated. I have studiously refrained from taking an active part in the proceed-ings of congress. I have not drawn any congressional pay, mileage or clerk hire since May 4, notwithstanding that I have been compelled to employ clerks at my own expense to perform routine duties."

Aguinaldo's Agent Again Urges the Filipinos' Claims.

BROUGHT TO THE VERGE OF WAR.

Agonetilla Urges Necessity of Prompt Action on the Part of Our Government in Assuring the Fiftpinos That-We Are Not Bent on Conquest.

Washington, Jan. 25 .- To a communication to the secretary of state Senor Don Feilps Agonellio, the Filipino agent, calls attention to the fact that on Jan, 11 he addressed a letter to him upon the question of recognition, forvarding with It a memorandum dem onstrating that according to all Ameri can precedents the Philippine republic was entitled to recognition, and is the same letter he invited the attention of the secretary to the present strained conditions at Manila, where over real on either side might create a condition resulting in grievous loss of life, and urging the necessity of an early and frank communication between the rep-resentative of the two countries. He further calls attention to the fact that since his letter was written the very circumstances he feared have brought the two countries to the edge of war. and says that the language used by him was so prophatic that subsequent facts have amply justified its employment.

He now desires to call the attention of the secretary to certain conditions which in his opinion require immedi-ate alleviation. There are, he says, at the present time 29,600 American troops at Manila, controlling a population of about 300,000. "A number of war ves-sels are stationed in the harbor and many other American men-of-war and transports are to be found within the archipelago, although the actual pos-session of the American troops extends over not to exceed 143 square miles out of more than 200,000." Despite the enormous forces now in this extremely dreumseribed area "we are informed through the public prints that other vessels of war have been ordered from distant parts of the globe to reinforce these now among the islands in question, while a few days ago a transport sailed from New York city carrying about 2,000 soldiers and having Manlia as its destination, and as we are further informed, regiments of troops are under orders to proceed by way of San Francisco to the Philippines. The pub-lic prints inform us also that an altack is contemplated upon the Philippine Islands; the islands to be taken in detail, the smaller ones first, the larger ones blockaded so that they may not assist those first attacked." He mys that it is naturally the impressio of his government and people that these warlike preparations indicate existing or immediate military operations

ceive that it must be contemplated that such operations are to be leveled at the existing government of the Philippine Islands "As the representative of the Philippine government," he continues, "I hesitate to give adhesion to this idea. for I cannot believe that there is any present or future difficulty between the American and Philippine governmen fustifying warlike activities, and as a seliever in the humanity of the Amer ican people refuse to acquiesce in the idea that America designs war upon the Philippines Island."

It is true, he continues, that Spain has undertaken to convey to the Uni ted States its alleged claim against the Philippines, a claim which Spain was not capable of enforcing, and which never found its origin in the consent of the people of these islands. WAGE QUESTION SETTLED.

Happy Ending of the Conference Brtween Miners and Operators.

Pittsburg, Jan. 25 .- Carnegie Hall, 19 Allegheny, rang with the hymn of 'America" lust night in ratification of the settlement of the wage difference which was effected between the coa operators and miners of the states of Ohio, Indiana, Illinois and Pennsylvania. The settlement means peace for more than 100,000 men and their employers as far as the general lasues are concerned.

The settlement was reached after one of the most notable gatherings in the history of the industry. The leaders of both sides made a bitter fight, and at times it looked as if there would be a split and chaos prevail in the great industry. Last night every operator and miner was in the best of humor. and all left for their homes feeling glad. The only surview is with the block coal intervats of Indiana. Yes-terday William Hisher, block coal operator, announced that he desired to change his vote, which had been in favor of adopting the scale. He was a member of the scale committee. His announcement caused no surprise, and the remainder of the delegates decided that the settlement should stand, in spite of the protest.
