The result was so beneficial that she kept on taking it till she was cured."

"My little daughter was taken with a distressing cough, which for three years defied all the remedies I tried. At length, on the urgent recommendation of a friend, I began to give her Ayer's Cherry Pectoral. After using one bottle I found to my great surprise that she was improving. **\$1.00**

Our cut price shoe sale last week was far above expectations. Many who have missed the opportunity of buying can still be accommodated. The goods on our counters are the same grade as displayed last week, to which we have added several new lots.

The balance of the Ladies' \$1.98 shoes have been placed on the \$1.60 counter. We still have 150 pairs.

This makes room for a display of Men's and Boy's shoes. We have 120 pair of Men's shoes, extra good quality, wide and narrow toes sold from \$3 to \$5, our price is \$1.98.

Another lot of Men's shoes, worth \$2.00 and \$2.50, numerous styles in black and tan, our price is \$1.25.

Another bargain. A lot of Boy's shoes, black and tan, sold at \$1.50 and \$2.00, are going at 98 cents.

Still another lot of Youth's shoes, black and tan, good stock. They were \$1.25 to \$1.65 and we are closing them out at 75 cents. Here is a winner for school children.

These goods were not placed on our counters last week because we did not have the necessary display space. They are positively the same grade of goods as sold last week.

**SPANISH ISLANDS ON SALE.**

But Great Britain, the United States and Japan Debarred as Purchasers.  
London, Jan. 25.—The Madrid correspondent of The Standard, telegraphing with reference to the bill to authorize the sale of the Caroline and other islands, says: "The government, it is understood, will give the cortex an assurance that the islands will not be ceded to the United States, Great Britain or Japan. It is expected that other nations besides Germany will bid for naval stations in the Marianne Islands, and perhaps also in the Caroline Islands." "A report is in circulation that a serious anarchist plot has been frustrated, two foreign anarchists having been arrested, but the rigor of censorship prevents the giving of details." "A distinguished general, who was formerly governor of the Philippines, was being dined in the course of an interview, upon the difficulties the Americans must expect there. He admitted that Spain would have required an army of 100,000 men and the expenditure of \$4,000,000 to reconquer the Philippines, but the American commanders, he insisted, had committed an irreparable mistake from the beginning in humbling and paralyzing with the rebels, thus seriously damaging the prestige of the whites by teaching the natives that they could dispute and despise a supremacy which had never heretofore been challenged."

**NO BRIGANDAGE IN CUBA.**

**Our Cavalrymen Prepared to Suppress Any Disorderly Bands.**  
Havana, Jan. 25.—Should Cuban soldiers take to the woods and turn bandits the United States military administration will have to do. They will be followed by a force of cavalry and persistently pursued. The same general method will be observed as has been followed in dealing with the Indians on the plains and mountains of the west. The subject has been carefully considered by the Cuban army, who are confident they could catch the bandits, notwithstanding the climatic conditions.  
The Seventh cavalry regiment is stationed in the province of Pinar del Rio, the Second cavalry in the province of Santa Clara and Matanzas and the Eighth cavalry regiment in the province of Puerto Principe. The department governors and the commanders of the various garrisons have received instructions to keep on the alert and to take the first opportunity which brigandage may afford to show what the United States soldiery can do to suppress it.  
A number of Cuban generals and prominent Cuban civilians, who have been discussing the Cuban army question during the last day or two with the American commanders, intimate that the United States ought quickly to arrange a settlement of the claims of the Cuban soldiery for pay, "as otherwise the privates will become uncontrollable and commit acts of violence."  
The Secret of Napoleon's Success.  
Napoleon once said: "The time to conquer is never—never wait," and he always conquered because he always struck at once for victory. The person who is sick or out of health should seek at once the right physician and treatment for immediate cure. The right physician to consult is an eminent specialist of world-wide fame, largest experience in curing nervous, chronic or lingering complaints, like Dr. Greene, of 35 West 14th St., New York City, who in his vast experience cures thousands of cases just like yours. And the right treatment to take is that which surely cures and at the same time is purely vegetable and perfectly harmless, like Dr. Greene's wonderful treatment by harmless vegetable remedies. One of his great discoveries, known as Dr. Greene's Nervous Blood and Nerve Remedy, is known and used all over the world, but has discovered equally valuable cures for all phases of disease. Notwithstanding the fact that Dr. Greene has the largest practice and a greater success in curing disease than any other physician, he can be consulted by the people absolutely without charge, whether you call or write. If you want to be cured, if you want to know what your trouble is, do not wait but write about your case at once to this most successful of physicians and get his advice and counsel free. Follow the maxim of Napoleon and conquer your disease now—do not wait until it may be too late.

**Profitable Home Dyeing.**

Diamond Dyes Make Handsome, Unfading Colors.  
**A Few Dimes Will Save Many Dollars.**  
In nearly every home there are faded and unfashionable dresses and coats that can be dyed with Diamond Dyes so they will look as good as new. Suits for the boys can be made from the father's partly worn clothes, and then colored with Diamond Dyes to look like new, while dresses and jackets can be made for the girls with little work or expense.  
Many women dress their families in handsome, fashionable clothing at a comparatively small expense, thanks to Diamond Dyes.  
Diamond Dyes are put up specially for home use, and the directions on each package are so plain that even the inexperienced can get beautiful and unfading colors by using these dyes. They color anything from ribbons, feathers, and waists to the heaviest coats and dresses.  
There are some fifty colors in the list of Diamond Dyes, making all the fashionable shades. Be sure to use only the Diamond, as they are the only dyes that have stood the test of years and that can be depended upon for successful home dyeing.

**POLITICAL POINTS.**

Some men adopt peculiar methods of showing their patriotism. There is our friend Daniel E. Bowman, a hale fellow well met, a candidate for Council in the Third ward. Dan, however, knows what he has got to go up against, and hence the drop will not be fatal after election. And there are others in the borough.  
A New York man stole a red hot stove, and the dinner table cooking was in it as well. We wonder what Tammany district he hailed from?  
Mark D. Bowman, of Mahanoy City, is said to be a candidate for the Republican nomination for County Commissioner.  
D. P. Derr announces the withdrawal of his name as a candidate for the nomination of School Director in the Fifth ward, in the interest of ex-School Director John T. Lee, who is again a candidate for the position. Mr. Derr takes this course in the interest of the party's success, and for no other motive.  
The Democratic candidates in the Second ward will serve one good purpose—bring out the Citizens vote for the borough ticket. Their election is beyond the possibilities.  
T. J. Mullahey, of town, the popular Democrat of the Fourth ward, is a candidate for County Recorder.  
Those having business with the County Commissioners office speak very highly of these officials, and their obliging corps of clerks. The present Board of Commissioners is the most efficient and economical the county has had for many years.  
Very little is now heard of the many newspaper schemes inaugurated some time ago at the county seat. Talk is cheap, but it takes money to conduct a legitimate newspaper.  
The Citizens primaries will be held tomorrow afternoon, between the hours of 4 and 5 p. m.  
Capital sport—what the legislators are enjoying at Harrisburg.  
Factory Inspector Campbell has been re-appointed by Governor Stone.  
Editor Charles E. Steele, who publishes the Democratic Free Press, at Minersville, is running as a Republican candidate for Council in that town.  
For ten days Klondike Cough Cure, 15 cts. City Drug Store, 107 S. Main St. 1-18-104.

**TEN CENTS FOR A BLOCK.**

What Chief Bonner Offered For a Burning Building—A Man Whose Life was Not Worth a Dollar.

"I would not give ten cents for that block."  
So said Chief Bonner of the New York Fire Department during the great conflagration in that city on Sunday night, December 4th, 1898.  
In the midst of the howling gale and falling rain the men fought like the Old Guard at Waterloo and in the end with far better success. Yet there were moments of intense doubt and anxiety. But before daylight broke on the wild scene, the Commander of the little army of rescue drew a deep breath of relief—he had the situation in the palm of his hand.  
So far as we know, men have always been fighting disease—which is a worse affliction than fire—have been trying to understand it and suppress it. What have we learned? We have not learned anything, but we have learned much. We can help all ailments; some we can cure. Sufferers from disease want help, no matter what it is or where it comes from.  
That is why people are continually writing such letters as these: Dear Sir—"You will remember my describing in a former letter how terribly I suffered from chronic kidney trouble and how hopeless my condition was at that time. I had consulted doctor after doctor, from general practitioners to eminent specialists, with one uniform result. They looked wise and talked well, but they did not help me. But I wanted what all sufferers want—relief, not reason."  
"In my other letter I said I would not take one hundred thousand dollars for what your great discovery had done for me. To-day I say I would not take a million dollars for what Warner's Safe Cure did for me. When I took the first dose, I was so full of despair of my future, that I would not have given a dollar for my chances in this world. Yet because of this medicine only, life is as sweet and precious to me as to any other man."  
January 31st, 1898.  
Reader, do not give yourself up for drowned until there is no spar to cling to. If in the big New York Fire Chief Bonner had been able to buy the threatened block for ten cents, he would now be the luckiest real estate holder in the country. If Mr. Collins had sold himself for a dollar at the time of his despair, he would have been a very foolish man. Take no counsel with doubt and despair. The greatest conflagrations are put out with perseverance and water, and dangerous diseases yield to Warner's Safe Cure.

(Signed) J. O. COLLINS, Farmville, Va.
