

The sympathetic tenderness of a loving husband is everything to an expec-tant mother, especially during her first ordeal. George Layton, Esq., a promi-nent druggist of Dayton, O., gives the following case:

A customer of m ne, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was \$100 per bottle, she would have them.

" Mother's Friend" is a scientifically compounded liniment which affords cer-tain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles inwolved in the final ordeal.

GENERAL LEE'S PROPOSITION.

He Will Recommend the Formation of a Regiment of One Thousand Picked Cuban Soldiers to Be Used as a Provincial Constabulary.

Havana, Jan. 28 .- The chiefs of the Cuban army will learn in a day or two from the members of the returning Cuban commission of the impossibility of obtaining from the United States government the sum of \$40,000,000, or any amount approaching that, to pay the Cuban army. Consequently it will rest with the army to disband or to continue to hold together until the sum of \$3,000,006, which has heretofore been regarded as trivial, is received.

a position to learn quickly the purposes of any considerable portion of the army. The expectation is that the Cubans will accept the situation, after complaining a little or a good deal, and then disintegrate.

Generals Wilson, Davis, Bates and Lee, department governors, having been in communication with the gov ernor general regarding the possibility of the discontented taking to brigandage, they will know what to do in such an event. That a few small groups will take to the woods is quite probable, but that the numerous large bands will follow this course is quite unlikely. Outlaws would not have the friendship of the country people, and would be unable to exist long, while the United States would have 40,000 ex-volunteers from among whom to choose auxiliaries and guides.

Major General Lee proposes to rec ominend to Washington, as one step in hustening pacification and the restoration of order in the province, the for-mation of a regiment of 1,000 picked Cuban soldiers to be used as a provin-cial constabulary. As a second step he will recommend the establishment by the military government of banks that would loan at a moderate rate of in-terest on land security, so as to enable land owners, for themselves or their tenants, to get a yoke of oxen, 20 chickens, a couple of pigs and about 50 cents a day until a crop could be raised.

It is reported that a quantity of dressed beef brought here by the Uni-ted States transport Michigan and hung up on the docks Thursday night was found in a slimy condition yester day morning. It is also reported that s quantity of canned beef which had been issued to Cuban sufferers was canned for the Japanese army in the Japan-China war.

Colonel S. S. Dunwoodie, chief signal officer on the staff of the governor gen-eral, is expected to complete the overeral, is expected to complete the over-land telegraph to Santiago before the end of March. Holguin is practically end of March. Holguin is practically connected with Santiago and Sancti Spiritus is connected with Hayana. Lieutenant Mitchell, of the signal corps, is engaged in stringing wires over the intervening 250 miles of rough country. The lines in the province of Santa Clara are operating well. The proper establishment of land lines has hitherto not been attained, and the new system will probably mean a loss of a good deal of business to the submarine line. Colonel Dunwoodle has been expecting the active opposition of the latter, but thus far his fears have not been realized.

The commemorative tablet that is to mark the house in which Marti, the famous Cuban patriot and first president of the revolutionary government was born, has arrived and will be put in place tomorrow, with an elaborate ceremonial. All the Cuban civic and political clubs will participate in the

and, in fact, nearly all women who undergo a nervous strain, are compelled to regretfully watch the growing pallor of their cheeks, the coming wrinkles and thinness that become more

distressing every day. Every woman knows that ill-health is a fatal enemy to beauty and that good health gives to the plainest face an enduring attractiveness. Pure blood and strong nerves - these are the secret of health and beauty.

Dr. Williams' Pink Pills for Pale People build up and purify the blood and strengthen the nerves. To the young girl they are invaluable, to the mother they are a necessity, to the woman approaching fifty they are the best remedy that science has devised for this crisis of her life.

sharged with conduct unbecoming an

order and military discipline, is now in the bands of the court martial ap-pointed to try him. Yesterday the taking of testimony was closed and arguments of counsel submitted. The trial had lasted three days, and consumed less than eight hours of actual sitting. The attendance at the court martial was much larger yesterday than at any other time since the trial began, and among the spectators was a score of ladies. Several of them were friends of General Eagan's daughter, who was called as a witness, while others were attracted by curiosity. The testimony at the closing session of the court was directed largely to establishing the fact that the general had lost his men tal balance as a result of the charges made against him by General Miles His daughter and her husband told of the general's changed condition, and

intimated that they had great fears

A dramatic incident of the trial was the testimony of the general's daugh- feet of belated steamers. ter, Mrs. Hopkins, in which she de scribed her father's appearance on the day he first read General Miles' state ment. Standing in the door of his house with the newspaper containing the evi-dence in his hand he exclaimed wild- of a United States sonator to succe was from that time in an alarming condition, and when witness was compelled to go to New York she had returned almost at once to help care for her father. The witness spoke with much feeling in regard to her father's changed condition. Dr. W. E. Hopkins, of California and New York, corroborated his wife's testimony, and

vulgar language, and that he had al-ways been mild before the publication of General Miles' charges.

Secretary Alger was among the witnesses called. He said he recalled conversation he had with General Eagan shortly after General Miles had given his testimony. General Eagan came into his office in an excited state of mind and said it was his wish to prefer charges against General Miles for what he had said. "I told him," testified Secretary Alger, "that under the president's order granting immunity to officers who testified before the commission he could not do so." Q .- Mr. Secretary, did you receive

any instructions from the president on this point? A .- He said to me immunity had been

granted to witnesses. General Alger was then excused. Immediately upon the case being closed the room was ordered cleared and the court went into executive session to deliberate upon their findings. The court was in executive ses-sion for a little over an hour, and in this brief space of time reached its conclusions, for it soon became known when the doors were reopened that the court martial had made its findings The fact was confirmed by the announcement from the judge advocate that the court had adjourned without day. It can be recalled only to correct a fault in the proceedings, which is a

rare occurrence. Of the nature of the verdict or findings nothing is known positively outside of the members of the court, who are all under oath to keep the proceedings secret. This secrecy is maintained for all time by the court, but there is nothing to prevent a reviewing of-ficer from making the matter public. though it is also the custom for them to refrain until the last chapter is

ready to be officially promulgated.

In the regular order the findings and proceedings must now be carefully gone over by Judge Advocate Davis. He thought it was possible to conclude his task today or Monday. He will place the papers in the hands of Judge Advo-cate Leiber, whose duty it will be to make a most careful examination of every part of the record and findings, with a view to the detection of any ir-regularities in the forms. Presuming that he finds all of these things regular. he will forward the papers to the secretary of war with his endorsement, if he sees fit to add one, and the latter will act finally "by direction of the president." It is proper to state that it is possible for the papers to pass through the hands of General Miles at some stage of the proceedings, he act ing also in the capacity of a reviewing authority, but this is not a uniform practice
