Recently an eminent physician gave ut-terance to the opinion that appendicitis is more common in this country than in othmen have—and men are more frequently sufferers from the disease than women—of habitually sitting with one leg thrown over the other. This habit, the physician was quoted as saying, restricts the action of the digestive apparatus, and especially of the lower intestine and causes stagmation of the contents and the stretching of the opening of the vermiform appendix, making it possible for obstructions to reach the latter and thus giving rise to ap ers because of the Yankee custom that

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also

to the care and skill with which it is Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other par-ties. The high standing of the Cali-PORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrus of Figs has given to millions of familles, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauscate. prove the Trade.

Comprehensive plans for the readjustment of the entire authorseite coal trade have been alrawn up and are about to be put into operation. The New York Herald of yesterday gave the facts which have thus far been carefully concealed. The anthracite railroad managers for some time have been at work on a scheme that is far reaching, and the public will see its first fruits about February lat, or soon after, says the Herald, when an advance of twenty-live cents a ton in all varieties will be made. This is probably the only advance that will be made this season. The controlling interests of the anthracite trade having agreed among themselves as to clock he was awakened by a peculiar garging sound from his wife's throat. He shook the woman and the garging cased He supposed that his wife had again relayed into peaceful slamber and went to sleep. At about 7 o'clock he was awakened by the bell ringing the percentages that each of the anthracite at St. Fidelis church. The individual operators for some time tood out for a percentage of sixty-five per cent of the tidewater price of anthracite roal as their proportion of the selling price. The railreads refused to save sixty-five per cent, but as an offset to making the basis sixty per cent, to the individual producers they have reached an understanding with eventy five per cent, of all the operators to allow them a larger part of the tonnage than they have been getting, on the understand-ing that prices are to be maintained.

By this arrangement the operators will benefit as greatly as the railroads and will be able to keep their mines running every day, where they used to run full time only perhapa two or three days a week.

While the mining companies controlled by the railroads may not turn out quite so much cal themselves, still it is calculated that highly esteemed members by his death. They will get just as much tonuage as before, and they will receive better tolls.

The settlement with the individual opera tors solves the hardest problem in connection with the trade, since the accomulation of the control of the anthracite railroads in a few hands has put an end to reckless competition, and there is no longer any trouble about per-
