

Headache for Forty Years.

For forty years I suffered from sick head-nobe. A year ago I began using Gelery King. ache. A year ago I began using federy kling. The result was gratifying and surprising, my beadaches leaving at once. The headaches used to return every seventh day, but thanks to Celery King. I have had but one headache in the host cloven months. I know that what cured me will help others.—Mrs. John D. Van Keuren, Saugerties, N. Y.

Celery King cusin diseases of the Nerves, Stomach, liver and kidneys. Sold by druggists, 25 and 50c.

Cuban' Tartif Modified.

Washington, Jan. 31. -Convinced that the privilege extended to the post exchanges in Cuba of importing goods and supplies free of duty has created an unjust discrimination against in-dividual traders. Assistant Secretary Melkeljohn yesterday issued an order modifying paragraph 27 of the Cuban customs tariff so as to revoke that privilege. The post exchanges have been selling their goods to private citizens, and in this way have sold the goods upon which they pay no duty at prices far below the figure that would yield a living profit to the private

Has turned with disgust from an otherwise lovable girl with an offensive breath. Karl's Clover Root Tea purifies the breath by its action on the bowels, etc., as nothing else will. Sold for years on absolute guarantee. Price 25 ets, and 50 ets. Sold by P. D. Kirlin and a guarantee.

Zero Weather in Kansas.

Kansas City, Jan. 31 .- Unusually cold weather prevails throughout Kansas and western Missouri. In Kansas City the mercury registered from four degrees below zero at 1 o'clock, the lowest 1890. Reports from many points in Kansas indicate that cattle on the ranges are suffering severely from the cold and that there may be

POWDER SUPPLY AMPLE.

Secretary Long Corrects a Statement of Ex-Minister Woodford.

WERE READY FOR SPANISH WAR.

At No Time Were the Vessels of Our Navy Short of Ammunition, and the Government Bad a Liberal Supply

Washington, Jan. 31,-Secretary Long has addressed a letter to General Stew-art L. Woodford in which he says: "I find the papers attribute to you cer-tain statements with regard to the supply of ammunition in the navy during the war which are so erroneous that I cannot believe you have been correctly quoted. I have asked the bureau of ordnance to give me the exact facts and inclose you a copy of the statement. I am sure you will be glad to read it." Then follows the report from the ordnance bureau, signed by Charles O'Nelli, chief of the bureau. It s as follows:

'Referring to the reported speech of General Woodford at the Army and Navy club at New York on Saturday evening last, in which he is quoted as saying "that on Feb. 18, 1898, three days after the Maine was blown up in Havana harbor, he received information by telegraph that this government did not possess powder enough to provide the warships and forts with two rounds for each gun," so far as relates to the navy, is an error, as every vesel was practically filled up with her allowance of ammunition

The regulations of the department prescribe that 'the reserve ammunicept on monitors and coast defense vessels, shall not be allowed to fail below 40 rounds per gun for six inch caliber and above, nor below 50 rounds per gun for the rapid fire guns,' and no essel of the navy was reduced so low as this.

"In addition to the supply of ammunition affoat the navy had a fair amount in reserve, especially of profectiles. There were less rounds of powder per gun than of shell, and for this reason, by direction of the secre-tary, an emergency order was placed for powder on Jan. 15, 1898, just one month before the destruction of the Maine, and by the 15th of February, the date of that catastrophe, the navy department had about 750,000 pounds of powder in reserve, and it was being

"So far as relates to the supply of ammunition on Dewey's ship, the fact is they never were reduced below the limit prescribed by the department, and could have safely gone into ac tion without receiving further supply The vessels engaged expended only about one-third of their allowance.

"As further showing the state of the ammunition supply of this fleet, it is remarked that on Nov. 2, 1897, orders were issued by the bureau of ordnance to the Mare Island navy yard to prepare for the Olympia, Boston and Petrel a quantity of ammunition which would completely fill their allowance and give them one-quarter target prac-tice in addition. This ammunition was forwarded as rapidly as possible, thus filling up all the vessels of the Asiatic but without this they were in condition to go into battle.

"As soon as the department learned that a battle had been fought steps were taken to make a further ship-ment to the East Indies, and on May 2 and 3 a shipment was made by express from New York to San Francisco of 2,000 five inch cartridge cases and 3,800 six pounder cartridges, these be-3,800 six pounder cartridges, these beling the only articles sent by express,
and they were sent to go by the
Charleston, which was to sail on May
21, 1898, or by the City of Pekin, to
sail on May 25. The Charleston took
81 rounds of assorted ammunition.
The City of Pekin carried 22,445 rounds
and 40 gun cotton mines and miscel-You can be treated at home for same price under same guarantee. If you prefer to come here we will contract to pay rai road fare and hotel bills, and no charge, if we fall to cure These shipments were made in antici-pation of possible further need of the squadron, and, it will be observed, were sent after the battle of Manila bay.

PEACE CORRESPONDENCE

Sent to the Senate by President McKinley.

PRESIDENT DEMANDED LUZON

Our Subsequent Demana For Control of the Whote Islands Was Made by the Commission, After a Protest From Senator Gray.

Washington, Jan. 31.—The president yesterday went to the Senate the correspondence on file in the state depart ment bearing upon the peace treaty. and it was read in the executive ses sion. The correspondence was sent in response to the resolution introduced by Senator Hoar, and includes most of the letters and cablegrams from the commissioners to the president and from the president to the commission ers in the way of instructions in return. The documents are numerous as there were telegrams, letters and reports for almost every day the com-missioners were in Paris. One of the first cablegrams from the president in-structed them to demand the cession of Luzon Island only of the Philippines, and he told them that full sovereignty

should come with it.

The principal interest among the senators attached to the president's in-structions to insist upon the cession of the Island of Luzen, and after that in the decision to take the entire group of islands. This latter development appears from the correspondence to be a growth, and the suggestion was made by the commissioners to the president as the result of occurences at Paris after the arrival there of the commissioners. In his dispatch concerning Luzon he said there was but one al-sovereignty or return it to Spain, and of the two courses he preferred the former.

Luzon alone. The commissioners, with that to take Luzon and leave the other islands of the archipelago in the hands of the Spaniards would be to invite innumerable complications with other nations, and especially with Spain. Much stress was laid upon the probability of future trouble with Spain. With Luzon under American administration there would soon be such a supposed to be the sole possessor of the late inventor's secret, of breach of faith, yesterday made a reply to Mr. Rinraid, in which he stated that the knowledge of the fraud was imparted to him without solicitation or request, and that he made no promise of secrecy and was under no obligation to keep silent. Mr. Bridge says:

"In addition to the evidences of fraud tering, and we should find ourselves spending millions to preserve a state of seutrality, just as we did in the case of Cuba prior to our declaration of war on account of that wisnd General "I have been besieged by people who n account of that island. General such of the argument in favor of taking the entire group.

at any time given explicit instructions. to consummate the bargain by taking all the Philippines, but rather, after hearing a full explanation, to have left the matter to the discretion of the com-

The entire controversy was practically over the Philippines and the ques-tion of assuming responsibility for the payment of the Spanish bonds for which the Cuban revenues were pledged. The Spaniards from the first in-sisted upon an indemnity for the Philippines, and the correspondence shows that after the proposition to pay \$20,-000,000 was made the negotiations proseeded much more smoothly and were

soon brought to a close. The American commissioners appear to have been of one mind as to the wisdom of taking over all the Philippines with the exception of Senator Gray, who, notwithstanding he signed the treaty, held out to the last against the policy of acquiring these islands. In ne notable dispatch he pleaded a ously against the policy as unpatriotic, un-American and inconsistent with probity and good statesmanship.

After a brief debate the senate refused to print the correspondence. New Jersey's Lawmakers. Trenton, Jan. 31.—The two houses of the legislature had short sessions again

last night, and little business was transacted outside of the introduction of bills. Among the measures in o-duced or advanced to third reading were the following: Prohibiting the employment on public works of mechanics or laborers who are not cititens of the United States; providing that more than one bar may be maintained on a licensed property (intended for Washington Park); making the salary of freeholders \$300 in counties of from 75,000 to 200,000 population; requiring payment of employes every two weeks; prohibiting non-residents from shad or herring fishing in the waters of the state; authorizing the payment of an annual pension to the families of policemen who die in the discharge of

Bucklen's Arnica Salve. SENATOR CARTER'S THREAT.

We Will "Whip Filipines to Death" to Maintain Our Authority. Washington, Jan. 21.—An effort on the part of Mr. Allison to obtain condetailon in the senate yesterday for the Indian appropriation bill precipitated a running debate, which occupied all the time until the senate at 2 o'clock went into executive session on the peace treaty. Mr. Jones, of Arkansas leading the opponents of the treaty opened the debate by insisting that me should be taken for the discussion of pending resolutions having a lateral bearing upon the treaty before the treaty itself was disposed of, and Mr. Hason's resolutions finally were laid before the senate. Mr. Carter, of Montana, in an impassioned speech, de-clared that the adoption of the resolutions would be a pledge to those who were defying the authority of this country in the Philippines, and that when the treaty had been ratified this government would inquire who in those islands were in rebellion against our authority, and if necessary to main-

The house put in a hard day's work on the army bill. The committee amendments giving the president dis-cretionary power to reduce the size of the infantry companies and cavalry troops to 60 men each were adopted, and also a series of amendments to reduce the officers of the staff. A subviding for promotions, which is designed to equalize promotions. A fight was made to reduce the age limit for offi-cers to be appointed to the various staff departments from 50 to 20, but it failed. An amendment was, however adopted to require a mental and moral as well as a physical examination for
