He Asks for Suspension of Hostillies and a Conference

Special to Eventro Herald. Washington, Feb. S .- Advices from Manila to-day are of a more encouraging nature, and indicate the utter rout of the insurgents. precautions taken by General Otis, especially against incendiarism, are admirable.

The despatches received from General Otis this morning were of an encouraging nature,

"Montin, Peb. 8.—To the Adjutant General, \$15.00 AND UPWARDS, AT Washington: The Insurgent army is distutregrated, and the natives are returning to the villages displaying white flags. Againalde's influence is destroyed, and he has asked for cessation of hostilities and for a resumed. The natives are respectful and cheerful. "CPPDL"

Further information received by the department shows that the attack by the Insurgents was not premeditated. The outposts fired and then everybody followed, in accordance terrible loss of the insurgents may be gathered from the fact that 160 of them were buried in one rice field on Menday, near out assistance from the borough, Pasas, and that 87 were interred between Paco and Santa Anna.

One of the reasons given by the officials is that the think that is right. I think the most we the 24 years to come, and comparing that coal is unsaleable. About 650 men and boys should do is to try and avoid having the compare thrown out of employment. The colliery was first operated by J. C. that it was \$228. Mr. James called attention to the fact that the company had invested \$1,065 in horses, wagon and harness and that was worth some usideration. It is two years' appropriation,

Mr. Straughn: "I don't think this appropriation is intended to be a permanent some, and I don't believe the members of the ompany will ask that it be a permanent one when they come to that stage when they can carry this chemical engine without any appropriation from this Council. exceeds their loss and I wont sole to put money into the treasury of the company."

Mr. Straughn: "This company is now paying interest on the chemical engine, which was purchased for the service of this borough; they purchased extra drop harness, and purchased an extra team for it, and all these things taken into consideration, I don't believe that the amount stipulated in

the motion is excessive.

Mr. Bell said that he figured, if the company did not pay cash for the engine, that the interest it must pay yearly is \$100, and that should come from some source, and he did not think if would be nursasonable to mak the borough to stand the interest

Mr. Magargle said he felt that way and he did not think the colorany had asked for anything the Corneil should not grant. "We are all interested in an apparatus that pro-tects our properies at times when we won't come out, and they do," he said.

Mr. Murphy: "It seems to me that this \$300 would help the company out of its trouble, and if it don't Council can donate them. I think \$300 to only the company of the co

bem. I think \$300 is sufficient at present. Mr. Harkins: "I don't believe any of th companies are getting too much, or that the Hookies are getting too much; but I believe it should be made a uniform thing for the Hookies, Phoenix and Columbias, all

President McGnire next spoke and, as he did so, the electric light went out and the Council room was left in darkness, with the exception of a small light at the rear of the room. Mr. McGnire said he was opposed to granting \$300 appropriation. He said it could not be made with justice unless the other companies, who also have heavy investments, received an increase, and if the motion prevailed he believed they would come in and ask for it. This, he said, Conneil could not afford under existing circumstances. He thought the amount stated in the motion was on much; but said he favored an increase

Mr. Coakley: "I am against giving the Hookies \$300 more than the other com I don't believe we have any right to put any money in the Hook and Ladder Company's treasury at the present time. We need money in the borough treasury as bad as they do. I am satisfied to do what is right and I agree with Mr. Lally."

Borough Solicitor Burke asked permission o speak as a citizen and he pointed out the luty of Council to lend all the encouragenent and assistance possible to anything tending to protect property in the borough, Among other things he said: "Cader the Act of Assembly of 1851, under which the horough was incorporated, every member of this Council is obliged to take care of the property in the borough. It is one of the obligations imposed upon them when they are elected members of this Council. They are expected to do it; they are duty bound to do it; they must do it, within reasonable great quantity of ammunition. Quite bounds of course, and the way to do it is to a number of Spanish soldiers in instand by the fire companies,

Mr. Straughn mid he understood the three ire companies of the town joined in asking for the appropriation and Morris Wurm, one of the Hook and Ladder Company's committee, said such was the case; that it had been decided at the Association meeting.

Mr. Lally: "It is strange to me if the fire ssociation, or, in other words, the other two companies, are combined with the Rescue company in asking for this increase of ap-A question arose as 40 whether the motion propriation. GEN. OTIS' LATEST REPORTS.

Places the Rebel Loss at Manila at Four Thousand.

AGUINALDO'S WAR DECLARATION

He Orders That "Peaceful and Friendly Relations With the Americans Be Broken can give you perfect satisfaction. and That They Be Treated as Enemies' Because Hostilities Were "Unjustly and Unexpectedly Provoked by Them"-General Otis Declares That Spanish Soldiers Aided Filipinos in Fighting Our Troops.

Washington, Feb. 8.-There is little abatement of interest in the stirring events at Mapila exhibited at the war department. The first feeling of anxiety for the safety of the American forces has given away entirely, save in the case of the personal friends and acquaintances of soldiers supposed to be injured, and there was displayed instead the greatest interest in the extent of the loss inflicted upon the insurgents by the American soldiers and sailors.

The chief news item of yesterday was the publication of dispatches from General Otis giving further reports of the recent buttle and adding some names to our death list. The first dispatch was as follows:

"The insurgent army concentrated around Manila from Luzon province, numbering 20,000, possessing several quick firing and Krupp field guns. Good portion of enemy armed with Mauser's latest pattern. Two Krupp and great surgent service, who served artillery. Insurgents constructed strong in trenchments near our lines, mostly in bamboo thickets. These our men charged, killing or capturing many of the enemy. Our casualties probably aggregate 250. Casualties of insurgents very heavy. Have buried some 500 of their dead and hold 500 prisoners. Their loss, killed, wounded and prisoners, probably 4,000. Took water works pumping station yesterday six miles out. Considerable skirmish with enemy, which made no stand. Pumps damaged, but will be working in a week. Have number of condensers set greed with the Hookies and threw out a up in city, which furnish good water,

In the list of additional casualties sent by General Otis appeared the close and the amendment offered by Mr. Bell sent by General Olis appeared the was defeated by a vote of 5 to 4, and the distribution of the men who were killed, including two Pennsylvanians. They Mr. Stranghn then moved that the Resene Jacob Landis and Private Allen B. Livery and Exchange Stables. Hook and Ladder Company be given two Rockwell; Utah light artillery, Sermonths' pro rata payment, enough to carry geant Harvey A. Young, Corporal John them to April, by which time the new G. Young and Private Wilhelm L. Goodman; First Wyoming, Sergeant George Rogers; First Nebraska, Privates Charles Ballanger and Lewis Pegier; Third artillery, Corporal Dean and Sergeant Whittaker.

Officers at the war department who know Otis well declared when the announcement came of the killing, capture or wounding of 4,000 men that he undoubtedly had underestimated the damage inflicted by him, as his wont, Instead of magnifying it, in the Spanish fushion. The officials say that nothwill sell at public saction two carloads of ing more can be expected from General Otis on this point until he has of horses, for everyone knows that when report giving in detail all the history Waldron has an auction he sells every horse had an opportunity to forward a mail of the fighting. Naturally there was a great deal of speculation as to the the sale opens. A forward movement is probable at Some of Hoito, where General Miller has been hese have been heard by the court, while a for weeks lying in front of the town few have not yet been taken up. Next Mon-day the court will again sit and hear any any doubt of his ability to take the place whenever he got the word, but there has been a restraining influence from Washington, based in part on the hope that the insurgents could be brought to a peaceful retirement from the town and an apprehension that ar was sold yesterday at auction, by order of court. The property consisted of eight lots and the Eagle from Works. The latter was Now, however, it is felt that the latter cought for \$5000 by the heirs. Six lots were are perhaps more in leopardy from a purchased by J. O. Ulrich, attorney, for continuance of the existing state of \$3,020, and two lots and frame houses by affairs than they would be through a rapid seizure of the town.

There is an unanimity of opinion Coco Argoline, the genuine article, for sale among both army and navy officers in the two departments as to the need of an immediate aggressive campaign on the part of the American forces in the Philippines. Without exception the hope is expressed that General Otis will be given a free hand to fol-low up the blow against the Filipinos who have violated the truce and give them a salutary chastisement while the memory of their Saturday defeat is still fresh in mind. One officer, who has done as much Indian campaigning as any man in the department, said in discussing the situation

"Every day that is lost in following up the blow at the insurgents means an added ten men to the American death list when the final summing up of the Philippine situation is made.
