

PECULIAR POISONS.

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of death (called by scientists Protoplasm), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakens, does not promptly and thoroughly digest the food.

The result is a heavy, so-called mass which ferments (the first process of decay) poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches, pain in the eyes.

Bad digestion weakens the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing bright disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, and the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products: the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they apply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure any form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full size package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first. A little book on stomach diseases mailed free. Address Stuart Co., Marshall, Mich.

YOUNG BOA CONSTRICTORS.

Must Shift For Themselves as Soon as They Are Hatched.

Perhaps you do not know that the real home land of the boa constrictors is in the tropical countries. Mrs. Boa seeks a sandy place. When she has found it, she curls herself into a great and almost tight coil. Then by just two or three turns of her body she digs a shallow hole in the sand. This is her nest. In this she lays about 24 eggs. The eggs are about as large as those of the chickens and are a dark cream color. They are oblong and more the shape of a pea than of a hen's egg. The shell is not hard, like a hen's egg, but yields to the pressure of your finger, something like rubber.

Having laid her eggs in the nest of sand, the mother boa winds herself into a perfectly flat coil, like a round mat. This done, she gently pushes waves of sand upon the eggs until they are covered from four to six inches deep. Then she settles herself upon the top and stays there for 16 days. At the end of this time a lot of little snakes may be seen pushing their way out from the nest and away into the world to get their own living. They don't show a bit of affection for their mother or for each other, but glide away, probably never to be together again. It is very wonderful, when they act so just after being hatched out, that boa constrictors never like anybody and never have anything to do with people if they can avoid it.

Each little snake measures from 12 to 14 inches in length and is about as big around as a lead pencil. It is said that they eat nothing at all during the first six months of their lives or until they are old enough to catch and crush to death small animals and swallow them whole. The boa constrictor never bites—it has no poison fangs and it never kills by coiling about its victim and crushing it to death. Fully grown, the boa constrictor is 50 to 60 feet long and as big around as the large part of a man's leg.

Alligators are other things that are not "born." An alligator will lay 100 eggs within the short space of three days. Much in the same way as the boa constrictor the alligator deposits its eggs in the sand and usually leaves them to their fate. The eggs are soft and about as large as duck eggs. They hatch out in 21 days. The little alligators are five or six inches long when they come from the shell. Alligator eggs cannot be kept. They wither and dry to almost nothing—Cincinnati Enquirer.

THE DEADLY GRIP.

It is said abroad in the land. The air you breathe may be the fatal germ. Don't neglect the "Grip," or you will open the door to Pneumonia and Consumption and invite death. Its sure signs are chills with fever, headache, dull heavy pain in muscles, discharges from the nose, sore throat and never-to-get-cough. Don't waste precious time treating this cough with troches, tablets, or lozenges. Buy the only cure from Dr. King's New Discovery, the infallible remedy for bronchial troubles. It kills the disease-germ, heals the lungs and prevents the dreaded after-effects from the malady. Price 50 cts. and \$1.00. Money back if not cured. A trial bottle free at A. Waseley's drug store.

Swimming Soldiers.

In the Dutch army a soldier must be able to swim as well as to fight. Moreover, if he is in the cavalry, he must have a horse which will take a river as easily as a hunter takes a fence. Swimming maneuvers are part of the regular drill there. Collapsible canvas boats, manned by a few rowers, lead the horses ashore. They do not attempt to land on stone quays and other difficult points. The men swim across with their horses and on them. They do it in swimming costume and in all the accoutrements of war. There are few nautical emergencies for which the Dutch army is not prepared. Some of the officers have even reached such a degree of proficiency that not only their horses and kits cross the river with them, but their pet dogs sit upon their shoulders and are borne over, almost without wetting.—Chicago Times-Herald.

COOK REMEDY CO.

BLOOD POISON A SPECIALTY.

Primary Secondary or Tertiary BLOOD POISON permanently CURED IN 15 TO 35 DAYS.

You can be treated at home for same price under same guarantee. If you prefer to come here we will contract to pay rail road fare and hotel bills, and no charge, if we fail to cure.

IF YOU HAVE

taken mercury, iodine, potash, and still have sores on your face, throat, or in your mouth, Sore Throat, Pimples, Copper Colored Spots, Ulcers on any part of the body, Hair or Eyebrows falling out, is the Secondary

BLOOD POISON

WE GUARANTEE TO CURE.

We solicit the most obstinate cases and challenge the world. No cure, no pay. We have the skill of the most eminent physicians. \$500,000 capital behind our unconditional guarantee. Absolute proofs sent upon application. 100 page book sent free. Address COOK REMEDY CO., 1744 Masonic Temple, Chicago.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. F. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

A Question Answered.

This is the one in which the Contralla (Kan.) Journal editor answers a question propounded by a stock raiser: "A rural subscriber asks, 'Do hogs pay?' We know that a good many don't. They take the paper several years and have the postmaster send it back marked 'Refused.' Such a hog is usually two legged and unprofitable."

Grain-O Brings Relief

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c per package.

Russian battle songs are written in minor keys, and instead of being brilliantly martial are sad, telling of the soldier's fate.

If you want to be appreciated, die or pay your debts.—Adams Freeman.

The Homeliest Man in Shenandoah

As well as the handsomest, and others are invited to call on any druggist and get free a trial bottle of Kemp's Balsam for the Throat and Lungs, a remedy that is guaranteed to cure and relieve all Chronic and Acute Coughs, Asthma, Bronchitis and Consumption. Price 25c and 50c.

Short Stories in English.

A tiresome caller who had spent the evening at the home of a friend, a young lady, and had devoted nearly all the time to a description of a trip to Europe, from which he had recently returned, said to her as he rose to go: "I beg pardon for being so talkative. I fear my long story about my adventures abroad has entertained you but little."

"On the contrary," she replied politely, "it has entertained me quite wellly."—"Youth's Companion."

You Try It.

If Shiloh's Cough and Consumption Cure, which is sold for the small price of 25 cts., 50 cts., and \$1.00, does not cure take the bottle back and we will refund your money. Sold for over fifty years on this guarantee. Price 25 cts. and 50 cts. Sold by P. D. Kirilin and a guarantee.

Don't Miss The Philadelphia Inquirer FOR 1899

Some of the special daily features include

- A SPORTING PAGE, contributed to by a staff of the best sporting authorities.
- A STATE PAGE, in which the every happening of interest in every place in Pennsylvania, New Jersey, Delaware and Maryland is told by special dispatches from our own correspondents.
- A WOMAN'S PAGE, where every morning the latest fashions and every feminine interest are cleverly dealt with in profusely illustrated articles.
- A CABLE PAGE, where the doings of our foreign cousins are reproduced in special cable dispatches.
- ALL THE NEWS, from everywhere, by the full Associated Press service and special dispatches.
- BEST OF ALL IS THE SUNDAY INQUIRER.

Included in The Sunday Inquirer each week is a colored section, with the best of pictures by well-known artists in brilliant color and softest half-tone. The colored section of The Sunday Inquirer is not equaled by any other paper.

The Sunday Inquirer Magazine

is contributed to by the very best writers, such as Conan Doyle, Rudyard Kipling, Robert Barr, Anthony Hope and Ian MacLaren. Besides the brightest of short stories and serials, there are many articles by eminent authorities on subjects religious, mechanical, literary and scientific. Then, too, there are puzzles with cash prizes amounting to \$500.00. If you want to make your wits profitable get the next Sunday Inquirer.

If you want a position in Philadelphia, an INQUIRER WANT AD will fix it for you.

THE PHILADELPHIA INQUIRER is Pennsylvania's leading newspaper in influence, enterprise and circulation.

THE PACIFIC COAST LIMITED

VIA "THE TRUE SOUTHERN ROUTE."

The "Pacific Coast Limited," the new California train will leave Chicago at 2:00 p. m., and St. Louis 10:30 p. m., every Tuesday and Saturday arriving at Los Angeles third day at 4:00 p. m. and San Francisco fourth day noon, and will run via Chicago & Alton, St. Louis, Iron Mountain & Southern, Texas & Pacific, and Southern Pacific Railways.

This luxurious train consists of a composite car containing reading, writing, smoking, room, buffet, barber-shop and bathroom; a compartment car containing seven private compartments and double drawing-rooms; twelve sleeping-cars with state and drawing-rooms, also dining-car in which all meals will be served à la carte, and traverses a region of perpetual sunshine, where snow-blockades, blizzards or high altitudes are unknown. In addition to our weekly tourist car line via the scenic route, we will operate a weekly tourist car via "The True Southern Route," leaving Chicago every Tuesday and from St. Louis every Friday morning. For illustrated and descriptive literature, timetables, and lowest rate of fare to all points west and southwest, address J. P. McCann, Travelling Passenger Agent, or W. E. Hopt, Gen'l Eastern Passenger Agent, 391 Broad way, New York.

Rheumatism Cured in a Day.

"Mytic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits, 75 cents. Sold by Shenandoah drug store, Shenandoah.

Coming Events.

Feb. 25—Grand entertainment in the school house at Turkey Run by the Harmon-Mandala and Gular Club.

April 8—Grand concert in the P. M. church, corner Jardin and Oak streets, under auspices of the church choir.

What is Shiloh? A grand old remedy for Cough, Colds and Consumption; used through the world for half a century, has cured innumerable cases of incipient consumption and relieved many in advanced stages. If you are not satisfied with the results we will refund your money. Price 25 cts., 50 cts. and \$1.00. Sold by P. D. Kirilin and a guarantee.

HOOD'S PILLS

cure Liver Ills, Bileousness, Indigestion, Headache, & clear-cut laxative. All Druggists.

Shake off Rheumatism and Neuralgia. Rub well with Red Flag Oil, 25c. At Grubler Bros., drug store.

Are You Going to Florida?

If you are, ask for tickets via the Southern Railway. It is the shortest, quickest and best route. Its service this season will surpass that of all preceding years. Write for further information to John M. Beall, District Passenger Agent, 828 Chestnut street, Philadelphia, Pa.

Young Mothers.

Croup is the terror of thousands of young mothers because its outbreak is so agonizing and frequently fatal. Shiloh's Cough and Consumption Cure acts like magic in cases of croup. It has never been known to fail. The worst cases relieved immediately. Price 25 cts., 50 cts. and \$1.00. Sold by P. D. Kirilin and a guarantee.

Will You Winter in Florida?

This will be the greatest season Florida has had for years. You ought to go and via the Southern Railway. It is the best route. If you will write John M. Beall, District Passenger Agent, 828 Chestnut street, Philadelphia, Pa., he will arrange all the details of your trip for you.

A Remarkable Cure.

Mr. Alexander Moore, a reliable business man, of 1230 S. 13th St., Philadelphia, Pa., says: "I contracted a violent cold which settled all over me. The pain in my chest and side was excruciating. The doctor gave me medicine and bled me several times, but I only grew worse. Then you gave me a bottle of Brazilian Balm. I had little or no faith in it, but decided to try it. I took 3 or 4 good doses before bed time, and rubbed it well over my bilistered side. That night I slept like a top—my first good rest for over a week—and awoke in the morning cured. Brazilian Balm is simply invaluable."

Shenandoah drug store, wholesale agents.

SR

This is the trade mark of the short line to Florida—the Southern Railway.

Two daily trains are operated all the year, and during the winter season, a third, the Florida Limited, is added. If you are going to Florida or anywhere else in the South, ask for a ticket via the Southern Railway. Write to John M. Beall, District Passenger Agent, 828 Chestnut street, Philadelphia.

Shake off Rheumatism and Neuralgia. Rub well with Red Flag Oil, 25c. At Grubler Bros., drug store.

A FREAK OF NATURE.

MONTANA'S PUZZLING AND CONTRADICTIONARY WELL.

In the Summer its Water Freezes and in the Winter the Ice Melts and the Water Becomes Warm—A Mysterious Current of Air.

Seven miles to the north and a little to the east of the Cheyenne agency inuster county, Mont., is a well filled with hot water. It excites much curiosity among the ranchmen and cattlemen of that section. Every cowboy who visits the well has much to tell and invariably advances his own explanation.

Many ingenious theories are given which tend to indicate that mankind of all degrees of scientific knowledge put forth an effort to find the origin of things. However, they all agree that the ice forms in the well during the summer, and that it melts and flows during the winter. This apparent contradiction of the natural laws that govern the outside world has carried the fame of this well for miles around and people have traveled great distances to witness the formation of icicles during the hot weather of July.

This well is within a few hundred feet of the summit of Little Wolf mountains, on the north slope, at the very beginning of Greenleaf creek, which empties into Rosebud eight miles from where the Rosebud joins the Yellowstone river. This portion of the mountain is covered with a growth of tall firs.

Fourteen years ago three men prospecting for silver, mistaking certain colors in the rocks, began sinking a shaft. At 15 feet it was disastrously cold, at 20 feet the cold had increased so rapidly that they were thoroughly frightened. They could feel currents of cold air rushing up from the crevices in the rock. They imagined they were digging into some mysterious underground cavern. They had heard just enough of wonderful adventures of digging into caves and underground lakes, and being alone in the wilderness, where the very stillness permitted the ears to hear and the mind to imagine all manner of gruesome powers hid beneath the rock, so thoroughly filled them with fear of impending danger that they abandoned the work which has since gained such renown.

The summits of Little Wolf mountains are covered with scoria, which has all the appearance and texture of a good grade of tiling. It is usually red, but varies in color through all the shades down to black. These varying colors give the beautiful tints to the thousands of buttes throughout the bad lands. In comparatively recent geological times vast beds of granite rock were formed over the eastern half of Montana, extending into western Dakota. The burning of these beds of coal was the beginning of the bad land formation. The fine deposits of clay above the coal were burned as brick and turned into a kiln and formed the scoria. Where the heat was greater and rock and sand were present it melted and mixed with the coal and coal ash, forming large clinkerlike rocks, which are sometimes mistaken for lava. As the coal burned out from beneath, the clay, which had been baked and colored into red, broke into small divisions and fell promiscuously down into the pits thus formed. Volcanic ash is found scattered over the Little Wolf mountains and the eastern portion of Montana. It must have drifted with the wind from powerful eruptions in the Rocky mountains, as there are no indications of any volcanic action in the vicinity of the ice well. The Little Wolf mountains are merely a rough range of buttes apparently of the same origin as all the bad land buttes. Their summits, which are rounded off all the other tops, have given them the name of mountains, but they are only of slightly over 4,000 feet altitude. If ice were to be put into the well during the winter, it would keep throughout the summer nearly as well as if stored away in ordinary icehouses. By chance nature has formed almost the ideal conditions that man has made use of to preserve ice throughout the hot weather. The shaft is the cavity in which to store the ice. The volcanic ash, filling into the open space between the loosely piled rock, serves the purpose of sawdust in keeping out the warm air from the ice. The scoria on the north slope are favorable to the preservation of the ice. Tall, dense forest prevents the heating of the surface rock by the direct rays of the sun. The rocks are too porous for the water to soak up, so to speak, from beneath. The fact is that in many places near the tops of the buttes on the sides where the rocks have fallen loosely together, they are perfectly dry for many feet below the surface, being moistened by the winter snow and rain as it may fall and run down from above.

During the winter the well is nearly filled with snow. Enough water from the early spring rains finds its way through between the rocks to mix with the snow and freeze into one solid mass of ice. The ice in the well is formed by the cold of the winter season, but does not begin to form sometimes till the winter is half gone.

In turn, it is melted by the heat of the summer, but does not begin to melt until the summer is half over. In the early part of the summer it is still freezing in the well, and during the first half of the winter it is still melting. The well acts as a refrigerator. It receives the heat slowly and then gives it off just as slowly. If the earth received and gave off heat readily, the hottest weather would be in June and the coldest in December—in fact, the seasons follow nearly a month behind the sun. Enough water from the ice is a fact that if on a hot day you walk rapidly into the cave to where the ice is it feels as though a strong current of cold air were blowing against your face. The sensation is so decidedly real that it requires careful demonstration to prove to the contrary, and when it is almost done as though the demonstration has been a mistake. It can be easily tested by using smoke, or better still, a rather heavy colored gas. Again, if one should stand without the entrance to the cave on a very warm day, near enough to feel any drip, but not being within range, one can feel coming from the cave. If one should stand directly above the ice well on a hot, still day, even putting the face down to the very opening into the well, no upward draft of cold air can be felt, but go down into the well and one would state positively that there was an upward draft of extremely cold air.—Boston Advertiser.

Grip's Ravages Doomed.

So much misery and death has been caused by the Grip, that every one should know what a wonderful remedy for this malady is found in Dr. King's New Discovery. That distinguished Dr. King's New Discovery, that distinguishes it from other cough, cold and croup remedies, is that it weakens your system and paves the way for Consumption is quickly stopped by this matchless cure. If you have chills and fever, pain in the back of the head, soreness in bones and muscles, sore throat and that cough that grips your throat like a vice, you need Dr. King's New Discovery to cure your Grip. It prevents Pneumonia and Consumption. Price 50 cts. and \$1.00. Money back if not cured. A trial bottle free at A. Waseley's drug store.

There Never Was a Better Cure Than Pan-Tins for Coughs, 25c.

At Grubler Bros., drug store.

Ask your grocer for the "Royal Patent" flour, and take no other brand. It is the best flour made.

Healthful Geese.

Geese are not supposed to be very sensible creatures or at all particular about the cleanliness of the food they eat. Popular Science News, however, records an instance in which they were better than their reputation.

The geese in question were on the bank of the York river, Virginia, and had discovered a good supply of the delicacy of southern geese diet—pieces of watermelon rind. Unfortunately these particular pieces were so covered with mud and sand as to be in a very uncomfortable condition for eating. But the geese—a large flock—knew how to overcome the difficulty.

As each bird picked out a piece of rind from the garbage heap it inspected it, and if it seemed too dirty for immediate consumption carried it at once to the river, dropped it into the shallow water and stood watching it until the running stream had carried away the extraneous matter and left the tempting pulp fresh and completely clean. This accomplished, the geese stepped into the shallow water by the side of its freshly washed food and gobbled off the edible pulp with much apparent appreciation.

The writer watched the geese for half an hour or more and saw that this done repeatedly, and that by several birds. It seemed as if that particular flock had acquired the habit of thus washing their food.

Effect of Water on Teeth.

Herr Eber has collected statistics in Bavaria and Herr Foerberg in Sweden which tend to prove that the water we drink has an important influence on the teeth. Caries, or decay in teeth, is less common where the water is "hard" owing to the presence of chalk and magnesium salts. The harder the water the better the teeth. Probably the presence of lime in the water benefits the bones in general.

THE HANGING SWORD.

Do you know the story of Damocles, the ancient mythological man who lived with a sword continually hanging above his head suspended only by a single hair? Many a woman of the present day is like Damocles. She is living with a constant menace of danger hanging over her head because of some weakness or disease of the special organism which makes her a woman.

It is comparatively slight and trivial at first but any instant it may develop into a serious and dangerous complaint, totally unfitting her for all the duties and responsibilities of a true womanly career.

I suffered very much with female weakness and other ailments for more than ten years when I wrote to you for advice," says Mrs. Anna White, Michigan, "and received from you a woman of the present day is like Damocles. She is living with a constant menace of danger hanging over her head because of some weakness or disease of the special organism which makes her a woman.

It is comparatively slight and trivial at first but any instant it may develop into a serious and dangerous complaint, totally unfitting her for all the duties and responsibilities of a true womanly career.

She is living with a constant menace of danger hanging over her head because of some weakness or disease of the special organism which makes her a woman.

It is comparatively slight and trivial at first but any instant it may develop into a serious and dangerous complaint, totally unfitting her for all the duties and responsibilities of a true womanly career.

I suffered very much with female weakness and other ailments for more than ten years when I wrote to you for advice," says Mrs. Anna White, Michigan, "and received from you a woman of the present day is like Damocles. She is living with a constant menace of danger hanging over her head because of some weakness or disease of the special organism which makes her a woman.
