Never Fading Black Dyes
Diamond Dyes Makes Colors
That Never Croak.

**Clothing of All Kinds
Easily Dyed at Home.**

There are three kinds of fast black Diamond Dyes, one for wool, one for cotton and mixed goods, and a third for silk and feathers. All of these dyes are specially prepared for home use and are guaranteed to make colors that will never fade or croak and that cannot be washed out in strong soaps.

The reliability of the fast black Diamond Dyes has given them the largest sale of all dyes. Be sure to get the Diamond if you wish to color black, for no other dyes equal them in simplicity of use and fastness of color.

SCALES OF JUSTICE.
Squires Shoemaker and Toomey Disposed of Several Cases Yesterday.

Hymus Lubinsky appeared before Justice Toomey last evening as prosecutor on a charge of distributing the poison against George Nanyukas. The latter called his wife names on the public street. Nanyukas was committed to the lockup pending trial.

John Fowles, alias Frank Sarapin, was committed to jail by Justice Toomey on a charge of assault and battery preferred by Peter Drick.

The following cases were heard before Justice Shoemaker.

Matthew Yankaitis, a saloon keeper on West Centre street, was arrested on a charge of selling liquor on Sunday. The prosecutor is Hyman Lubinsky. The accused furnished \$300 bail.

Klement Stewerka was placed under \$300 bail for beating his wife.

Mrs. Mary McAndrew and her son, John, each furnished \$300 bail on a charge of assault and battery. The prosecutor is the first ward.

John Lukowicz furnished \$300 bail for beating Adam Muskawicz in a fight last night.

A prosecutor, suffering much pain, was Andre Gmizis. He was assaulted by Simon Budimsky and Joe Gmizis. Both assaults were held in \$300 bail each.

THE NICHOLAS MURDER.
A Coroner's Jury Believes Herrack Committed the Deed.

The inquest in the case of Michael Nicholas, who died at the Miners' hospital from the effects of a beating received in a shanty at the Bear Ridge colliery, Mahanoy Plane, has been concluded and the coroner's jury believes that Michael Herrack, who worked with Nicholas as a helper on the night of the assault, and who has been a prisoner in the Pottsville jail since that time, committed the deed.

The verdict rendered was as follows: "That Michael Nicholas came to his death by being beaten with a piece of gasoline or monkey wrench, and, from the evidence presented, we believe that Michael Herrack committed the crime."

The jury consisted of M. J. Reynolds, foreman; W. C. Schutt, W. F. Wascher, Dennis Sheehan, T. J. Fitzpatrick and George Bolinski, all residents of Mahanoy Plane, where the inquest was held.

Among the witnesses examined before the jury were C. & L. Holloman, Wynne and Stark, and damaging evidence against the man in custody was produced. The case is just a shape that the District Attorney will feel justified in arraigning Herrack at the next term of court for trial on a charge of murder.

FOUND IN A DRIFT.
James Hurst, of Ashland, Will Probably Die From Exposure.

While a gang of hooligans were engaged in clearing the tracks of the P. & E. Railroad near Preston No. 3 colliery at about two o'clock this morning they came upon the unconscious form of James Hurst, of Ashland. He was enveloped in a drift. The man was removed and sent to his home. At noon he was still alive, but it is believed he will die. Hurst could not have been in the drift very long, as he was seen at Grimville at about one o'clock this morning. The victim is a brother of "Tim" Hurst, one of the employees of the National base ball league, and who was referred to at recent Starkey-Kid McQuay fight.

Not a Victim.
Fred Speer, a truckwalker at East Mahanoy Junction, was found frozen to death Tuesday morning. He was found by his son in a standing position in a snow drift on the track. The unfortunate man lost his way, and made two or three attempts to reach his home in Locust Valley, after being engaged in removing the snow drifts. Tannqua Courier.

The Herald learned this afternoon that the above report was not correct. Speer left the function for his home at 4 o'clock Monday afternoon. There was a fearful blizzard at the time. He was found wandering aimlessly on Kunkle's farm by a farmer named Washington Schwenk and his son. When the searching party went out for Speer they found him at the Schwenk farm house. He suffered severely from the exposure, but will recover.

Marrriages.
W. P. Michael, son of M. Michael, the Pottsville restaurateur, and Miss Minnie Heller, of St. Clair, were married last evening.

Dr. John Seebing, of Bellefonte, and Miss Fredericka Woltjen, of Pottsville, were quietly married at the latter place at noon yesterday.

Miss Anna Moran and Thomas Mende, two popular young people of Polo Alto, were joined in matrimony yesterday.

Supreme Court This Week.
The appeal of the Taxpayers' Association against the decision of former Judge R. H. Koel, who decided that the Commissioners had the right to issue bonds to the amount of \$200,000, for the purpose of refunding \$178,000 of temporary loans which were outstanding last year, together with other debts, aggregating \$31,000, will come up before the Supreme Court at Philadelphia this week. The Commissioners will be represented by County Solicitor H. O. Bechtel. The accused interest on the temporary loans now amount to \$6,150. A number of other cases on appeal from the lower court will be argued before the Supreme Court this week.

A Woman's Suicide.
"Strange what a little thing will turn the whole current of a man's life!"
"What's the matter now, Jones?"
"Up to 30 days ago the young lady of my choice was taking my attentions seriously and our marriage seemed a foregone conclusion. Then I met her on the avenue, lifted my hat, made my best bow and dropped through a coal hole. Now she can't keep her face straight a minute while we're together."—Detroit Free Press.

The Post Oliver Wendell Holmes' Writings.
The great poet, Oliver Wendell Holmes, once said: "If all drug stores were run on the basis of the better for mankind, and all the worse for the fishes." Of course the genial poet referred only to poisonous drugs as used by most physicians. He certainly could not have meant all medicines. For Nature, in her words and deeds, has been most prolific in yielding her treasures of harmless, vegetable remedies for every disease. The wonderful discoveries of the famous Dr. Greene of 35 West 14th St., New York City, amply prove the fact. Indeed, this skilled specialist in the treatment of nervous, chronic and lingering complaints, uses in his enormous practice, absolutely no poisonous drugs, but confines his treatment solely to the use of harmless vegetable remedies. His world-wide known medicine, Dr. Greene's Nervura blood and nerve remedy, is only one of his many remarkable discoveries. His extraordinary success in curing diseases of whatever nature, the innumerable restorations to health under the use of these marvelous curative medicines as prescribed by Dr. Greene, establish beyond doubt that Nature has provided remedies for each and every phase of disease, and that Dr. Greene, by his deep investigations and his enormous large experience, has discovered and prepared remedies which surely and certainly cure these complicated cases of chronic disease. Any sufferer can demonstrate this fact, as Dr. Greene gives all the privilege of consulting him, personally or by letter, absolutely free of charge. If you are out of health and have failed to be cured, see Dr. Greene at once, or write to him freely and fully about your case. You can do so in perfect and absolute confidence. He will explain your complaint and advise you what to do to be cured.

NO QUORUM TO-DAY.

Only About Half a Hundred Legislators at Harrisburg.

Harrisburg, Feb. 15.—The belated Legislators are slowly coming into Harrisburg, and by this evening there will probably be sufficient statements here to transact business at the evening session of the House. Trains came through from Philadelphia this morning. Representative Gonsolo, of Schuylkill, was one of those who were snow bound in Philadelphia. He left his home on Sunday at noon to-day, it was again found there was no quorum present. The result of the vote gives Quay 50, Jenks 4, and Delzell 1, total, 55. This is an increase over the previous ballots this week. It is expected there will be a much larger attendance at to-morrow's session, as trains are beginning to move with more frequency.

There are more rumors of a star break to be played by the Quakers this week. Senator Meredith returned here from Washington, where he consulted the senior Senator. He is confident of Quay's election this week, as is also Chairman Elkin.

The absent members have been telegraphing here for pairs to avoid a coupe on the part of their enemies on the McCarrill bill. A motion to reconsider, according to the rules, must be made not later than five days. That time will expire with to-night's session of the House. A motion to reconsider cannot be made after to-night.

Mr. Hoskins, of Erie, introduced a bill prohibiting the taking of pension money from the inmates of the Soldiers or Sailors Home at Erie. The bill provides further that all pension money taken from the inmates of the home or from those who at any time have been inmates and placed in a pension fund by virtue of any rule adopted by the trustees of the home at any time shall immediately be paid back to the soldier or sailor if he is living or if he be dead to the wife, or in case of her death then to his children if living; if there be no wife or issue living then and in that case it shall be paid to the State Treasurer for the use and maintenance of the home. Violators of the act shall be deemed guilty of a misdemeanor and upon conviction shall be fined or imprisoned or both at the discretion of the court.

FROZEN TO DEATH.

A Mine Laborer Succumbs to the Blizzard While Homebound.

The first fatality of the storm reported in this section of the coal region was the death of Louis Karofski, a Russian Pole 26 years old, who had been in the country but a short time, and lived at Mahanoy City. His lifeless remains were found on the mountain side north of Cole's patch at 5 o'clock last night, after a search of two hours for them.

Karofski worked as a laborer at the Ellangowan colliery. On quitting work Monday afternoon he started homeward in company with John Vitok. The latter was warmly clad. Karofski was less fortunate. It was 4:30 o'clock when they started from the colliery. They had not gone far when Karofski complained of feeling cold. A gale was blowing and the falling snow made it impossible for the travelers to see but a few feet in advance of them. They reached the valley between Ellangowan colliery and the cut west of the Elmwood colliery. The men lost the path and floundered about for some time when Karofski complained that his feet were tired, evidently meaning that they were numb. Vitok urged him on and kept walking in advance of him for a hundred yards, when he turned and looked behind. He was surprised to see his companion standing where he stopped and complained of his feet. Vitok called to Karofski to hurry up, and then walked ahead. He stopped again and could not see Karofski. Vitok went back and found the unfortunate man sitting on a rock behind a big snow drift. The man was in a semi-conscious condition. Vitok tried to persuade him to get up and walk, but failed. He then concluded that Karofski would recover after a rest, and continued his journey to Mahanoy City.

Yesterday morning Vitok went to the victim's boarding house to ascertain if Karofski had reached home. When answered in the negative he told the story as above. The boarding boss told Vitok to take someone on the mountain to look for the victim. But Vitok insisted that the boarding boss ought look after his boarders. In the afternoon he changed his mind, however, and guided several men to the place where the corpse was found. It was in a sitting position with the back braced against a rock. The features were terribly distorted, showing that the victim had suffered agony before death. The body was almost completely covered by snow. It was removed to Mahanoy City and an autopsy was held this morning.

THE LENTEN SEASON.
Indications point to a more general observance of Lent, which begins to-day, than ever before. The special feature of the observance will be the extent to which all Protestant bodies will take part. In this connection, Baptists and Congregationalists will lead.

A very large proportion of churches of these denominations will take some notice of the season. A good many will keep Holy Week by having services every evening, and on Good Friday, and practically all will have elaborate services at Easter. Methodists and Presbyterians will observe the season to some extent, but less widely than others.

Marked changes are taking place in the form of service, and also in the extent to which the traditional church year, beginning at Advent and continuing to Trinity, is taught to Sunday school children. The opening week of the year in January was this year observed as a Week of Prayer by so few churches as to make it almost true to say that, as an institution in the religious world, the Evangelical Alliance's Week of Prayer has passed away.

In its place the week immediately preceding Easter Sunday will be observed very generally, and this in churches in Western as well as in Eastern cities.

A BLIZZARD VICTIM.

To Undergo Amputation and Will Probably Die From Shock.

Felix Goodwin, aged 18 years, and a mine laborer by occupation, was removed from his home at Turkey Run to the Miners' hospital today. Both hands and feet of the young man were frozen on Monday morning while he was on his way home from the Furman colliery.

Dr. Biddle, of the hospital staff, says it will be necessary to amputate both hands, the right foot and several toes of the left foot. Blood poisoning has set in. He does not believe the patient will survive the shock.

A Coal Famine.
Pittsburg, Feb. 15.—A coal famine is threatened here. The total coal supply now in the Alleghenies and Monongahela rivers at Pittsburg does not exceed one million bushels. The daily consumption is 200,000 bushels and there are orders for instant delivery of at least 400,000 bushels. The rivers are frozen up tight and the railroad freights are not moving. Coal has advanced.
