It is with great pleasure that I take this means to announce to my customers in Shenandoah and vicinity that for the past three weeks, I have visited all the leading cities in search of new stylish and well-made clothing for spring, and it is with pride that I announce that my search was very successful. First, because I have selected for my spring stock only new and up to date patterns; second, because they are the best that the market offers; third, because by buying direct and for cash, I will not only have the most complete line, but at the same time I will have the cheapest and best well-made clothing for men, boys and children that has ever been shown in this part of the country. But we don't want to tell you all about our spring stock, we extend you an invitation to call and examine them when they arrive, which will be on or about March 1st, then we know you will be convinced.

Now we have another good thing to tell you. You are probably aware that we have an immense stock of clothing on hand. We guess you are also aware that we must have room for our spring stock. Now in order to get that room we must sell off the stock on hand, and from now until March 1st will positively refuse no reasonable offer, so if you are looking for a real good thing in men's, boys' and children's suits or overcoats, and in fact anything in the clothing line, you can save money by buying where you have thousands of
