LOCAL OFFICIALS TO REMAIN

Unless They Prove Refractory and Offer Resistance-It Is Not Anticipated There Will Be a Necessity For Any Formidable Demonstrations.

Washington, Feb. 18.-The administration has determined rapidly to en-tend the Jurisdiction of the United States over the whole of the Philippine group, acting on the theory that deanarchy and a general paralysis of such interests as the islands support will be brought about through a failure promptly to replace the Spanish sovereignty over the islands by that of the United States. This decision involves the necessity of a naval cam-paign, and this will be instituted as soon as Admiral Dewey receives the reinforcements of gunboats now on the way to Manila.

It is not anticipated that there will

be a necessity for any formidable dem-onstrations, but the very fact that the United States government is able to exhibit a sufficient force to accomplish the purpose of occupation is expected to deter the natives from profitiess resistance. Owing to the vast number of the Philippine islands a large number of gunboats would be required to visit them simultaneously, so that the program will be to have the vessels visit n order the principal towns outside of Manila, especially those where Spanish garrisons were maintained on the island of Cebu, and at Zamboango, on the Island of Mindanao, and some of the

cities on the Negros.

The naval vessels probably will be accompanied by some troop transports, and the soldiers will be landed where necessary to hoist the United States & Reading Railway will run a cheap excursion to Washington, D.
