THE FRENCH REPUBLIC

Strengthened by the First Message of President Loubet.

HIS : PATRIOTIC UTTERANCES.

"Fresh Proof of Fidelity to the Republic While Some Misguided Men Seek to Shake the Confidence of the Country In Its Institutions,"

Paris, Feb. 22,-All opposition to the Faris, Feb. 22.—All opposition to the administration of President Lomber seems to have disappeared, and there is not the slightest auxiety as to the safety of the republic, despite the sourmarings of the monarchists. The president's particle message to the senate and patriotic message to the senate and chamber of deputies has greatly strength-ened the republic. The chamber of depu-ties was crowded when the message was read. It was greeted with salves of braves. The senate received the message with similar approval and passed the credits demanded to defray the penses of the funeral of the late President Faure.

The following is the text of President

Loubet's message: "Summoned to the first magistrature subdiced the inflamation. My ankle used to itch and burn so that I could not sleep and this added to my other suffering. I am very glad that I learned about Doan's Ointment and used it for it is the best remedy for eczema.

"Summoned to the first magistrature of the country, I need for the accomplishment of the great duties devolving upon me the co-operation of the senate and chamber of deputies. I ask this of you, and I am sure it will not be withheld. You may count upon my firm held. You may count upon my firm desire to dedicate all my efforts to the defense of the constitution. You have as a pledge thereof my unchanging de-

votion to the republic.
"The regular transmission of power, accomplished in a few hours after the most sudden death of our beloved and regretted president. Felix Faure, has afforded in the eyes of the whole world Remember the name Doan's and take no fresh proof of the fidelity of France to the republic at a time when some misguided men are seeking to shake the confidence of the country in its institutions. The national assembly plainly signified on Saturday its desire to bring about the pacification of men's minds

union of all Republicans.

"Passionately devoted to the principles of the French revolution and the regime of liberty, it will be my constant anxiety to assist parliament in this necessary work of tolerance and concord During the course of the temporary dif-ficulties through which we have passed France, by her sangfroid and dignity and the patriotism of her parliament, has grown in the esteem of the world

"Why, then, may we not hope for similar understanding in internal at fairs? Does not this understanding ex-ist in the country? Is there the lease doubt of the necessity for paying equa respect to the essential organs of society the chamber which deliberates freely or the laws, the magistracy which applie them, the government which ensure their execution and the national arm which safeguards the independence anintegrity of the motherland-that arm which the country loves and which it right in loving, because the whole natio fulfills in it the same duty of self deam and discipline and knows it will fine therein a faithful guardian of its honor and laws? France, sure of herself, will know how to set calmly about the task of solving the problems which disturb he moral and material well being of he citizens and continue her peaceful and fruitful work in the field of thought, science and art, as well as in all forms omic labor, agriculture, commerce

and industry, "Let us be more just toward our selves and not allow it to be forgotten that our France has always professed the same love for progress, justice and humanity. Her glorious past constitutes a patrimony which we must preserve and increase. The republic has given France free constitutions, assured her the price less benefits of uninterrupted peace, has bound up her wounds, reconstituted he army and navy, founded a great colonia empire, organized every grade of edu-cation, concluded alliances and precious friendships, and has given a wonderful impulse to all labors of charity, cooperation and thrift, the aim being to fering.'

depict the hopelessness and dejection that hover about the home where the wife is incapable of becoming a mother Barrenness proceeds from some derangement of the distinctly feminine organs. Many of the common ailments known as "female troubles" cause it. Dr. Pierce's Favorite Prescription overcomes barren-ness by stamping out diseases of women and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticity to the overstrained parts concerned, makes the hour of baby's coming short and almost painless, and gives wonderful and almost paintess, and gives wonderful recuperative power to the patient. By making the mother strong and cheerful, it makes the little one healthy, vigorous and good natured. Insist upon the medicine dealer giving you Dr. Pierce's Pavorite Prescription when you ask for it. Substitutes are often dangerous.
