GOT THE Spanish Cabinet Attacked by the Republican Leader. THE REPLY OF THE PREMIER.

SENOR SAGASTA'S WOES

"We Have Lost the Coloules, But Have Avoided Civil War-The Republicans Alone Endanger Liberty "-General Linares Challenges Count d'Almenas Madrid, Feb. 23 .- The meeting of the bureaux last evening to repoint a com-mission to examine the bill for the ces-sion of the Philippines resulted only in a nominal ministerial success. Although the ministerial candidates chosen were four and the opposition candidates only three, yet on a division the opposition will muster 92 votes as against 87 min-

of uncertainties if laterialists. The opposition will, therefore, submit a counter measure. The Republican motion in favor of

summoning the constituent assembly led to a stormy debate in the chamber of deputies. Professor Salmeron, the Re-publican leader, in the course of a viotent speech, said the Republicans had resumed their seats in parliament in order to force the government to ac-cept its responsibilities. In his opinion being the responsionlines. In his opinion not only these governing, but present in-stitutions themselves, would fail vic-tims to the present disasters. He se-verely censured the ministers for endeavoring to save the monarchy rather

than the country. "Your colonial policy," he said, "was disastrons because you joined sword and cassock in order to restore a feudal theocracy, with all sorts of privileges. The government has surrendered to the United States Spain's whole colonial empire and the peace that has been signed is the most shameful recorded in history."

Sonor Sagasta in replying said: "We lost the colonies, but we have avoided civil war. When you were in power greater calamities occurred. The Uni-ted States drove us to war, for which to regime is bluttenble, and no regim so regime is binmable, and no regime could make a nation weakened by two colonial rebellions strong. I will oppose reaction with all my force. I am in-capable of destroying the nation's liber-ties. It is the Republicans alone who ordering the libertics of the sector that

endanger the liberties of the country by breaking the law." Professor Salmeron, after being called to order for a veiled reference to the crown, declared that the Conservative party was primarily responsible for the country's disasters, since it had failed to apply in Cuba reforms voted by all parties, and that the present government must also be held responsible for making

a dishonorable peace. He advocated calling the constituent assembly, which, he said, would "kill forever both Carlism and any attempt at dictatorship." He appealed to the Liberal and Democratic forces to co-operate and so "prevent the triumph of the Vatican and the Reaction-

The result of the debate in the chamber upon the motion of Senor Silvela, leader of the Conservatives, censuring the government for "indifference to the country's troubles," was the withdrawal of the resolution.

of the Spanish troops at Santiago at the time of the capitulation, has challenged Count d'Almenns to a duel on account of the attacks which the count made upon him Monday and Tuesday in the senate in connection with his arraignment of the conduct of the Spanish generals ongaged in the war with Cuba.

THE GRIP?

The second Officer of the Doomed Vess sel, Who With Three Others Was Resened by the Vittoria, Bolloves That a b Hundred Persons Have Been Lost.

Bultimore, Fub. 23. - British steamship Vittoria, Captain Wetherell, arrived yestorday from Hall, via Hampton Roads, with four or the erew of the foundered Hamburg-American liner Bulgeria. The reacted marinets are Second Mate O. Schurges, Quartermasters Carl Lodtke and John Schulk and Seaman William Starke. They were picked up by the Vittoria from an open boat of the Bulgaria three and a half hours after they had been cast advirt in latitude 40 N., longitude 53 W., on Peb. 5. These, with the 25 women and chil-

dren who were picked up by the tank steamer Weehawken and landed in Ponta Delgada, Azore Islands, a week ago, are all that have been heard from of the crew of 80 men and 41 passenger which the Bulgaria had aboard when als sailed from New York for Bremen on Jan 28. Captain Wetherell said that he sighted the Buigaria in a disabled con-dition at 7 a. m. Feb. 5, flags flying, and the tank steamer Weehawken standing by and communicating with her. There was a heavy seaton, and his vessel drift-ed away from the disabled craft, but he steamed toward her and again steamed toward her and again located her. He saw the men abound the crippled vessel  $^{1}$  physicians came to the conclusion that attempt to lower a boat, and just as | Mr. Kipling was suffering from inflamfour of them got into it it broke losse from the steamer and drifted away. The four men mude an effort to row back to the Bulgaria, but could not approach her on account of the high seas. The Vittoria was preparing to lower a boat The to go to the assistance of those on the Bulgaria when the four men came along-

side. After considerable difficulty they were taken aboard.

During a built the second officer of the Bulgaria, accompanied by six of the crew of the Vittoria, manned the boat just variated and started for the sinking steamer. They were scarcely away from the side of the Vittoria, however, before another gale began, and the brave fel-lows, not being able to reach the Bul-garia, found it impossible to return to the Victoria until several hours had passed. Captain Wetherell would not abau don hope of being of assistance to those on board the illfuted vessel, and remain ed in sight of her until nightfall, when a perfect harricane arose and carled the waiting ship miles away. In the morning the Bulgaria was not to be seen. The story of the experiences of the Bulgaria and her passengers and crew, as told by Second Officer Scharges is a

thrilling one. He said: "On Feb. 1, at about 8 p. m., a hurricane of so severe a nature was en-countered that it was found impossible to make any headway, and at 2 a. m. the following day we were forced to heave to. The flying bridges, both fore and aft, were carried away, and seamer and passengers were afraid to venture lock for fear of being swept into the About 7 a. m. the spring in the udder, which is used to break the strain of heavy seas, collapsed, and soon after wards the entire steering gear was washed away.

"Sea after sea swept over us, smash ing in the doors of the cabin and deckhouses, flooding the main deck, washing in the awning deck, and creating havon and disorder all over the ship. To make matters worse a hundred horses that were stabled on the upper forward deck stampeded, and in their fright made a wild dash, trampling each other to death. This state of affairs lasted until all but 20 had been killed or drowned in the wash of the waves. Then the butcher of the vessel, with a number of seamen. ant into the pen and tried to quiet the beasts that remained. This failing, as did also the attempt to force the frenzied
