THE BEEF INVESTIGATION.

General Eagan Again on the Stand and Defends the Canned Beef. Washington, Feb. 25.-After a session of

little more than two hours, the court of inquiry investigating the beef charges adjourned until Monday, pending the arrival of witnesses who have been summoned. Former Commissary General Eagan concluded his testimony, explaining the provisions of contracts for supplies to the armies in Porto Rico, Cuba and the Philippines. He very vig-orously denied knowledge of any chemical treatment of beef to preserve it and disavowed any connection whatever of the government with any such treatment. He further defended the canned

roast beef.

When Colonel Davis, the recorder, asked him if any food had been used as an experiment or pretense of experiment, suggesting General Miles' famous allegation that precipitated the Eagan court martial, the former commissary general, with great dignity and emphasis, replied sweepingly in the negative.

Next week probably 15 witnesses will be heard, among them, perhaps, Governor Roosevelt, of New York, and it is ex-pected that Dr. W. H. Daly will be examined later to the week, when the beef concerns will have their representatives here to hear the witness repeat charges that the refrigerated beef was treated chemically. The beef concerns had not been notified yesterday when to appear, Colonel Davis saying it had not devel-oped fully from the evidence who fur nished the beef at Jacksonville. Tampa, Chickamanga and Porto Rico which was attacked, and until the origin of the beef was ascertained notification to the beef concerns would be impossible. Next week, according to present expectations, th not a stimulant but a health builder, and chil- concerns that furnished beef during the War.

> Adams Poisoning Inquest. New York, Feb. 2.—The inquest in the Adams case was continued sesterday and proved of less interest than any of the previous hearings. Practically nothing tending to throw light upon the murder of Mrs. Adams, or the attempted murder of Cornish was revealed. The any was almost entirely devoted to direct or implied denials of testimony effored by Coraish. Molineux was the principal in this respect, denying many of idlegations that Cornish has made. Colonel Austin also made rather an important point in denying that Barnet ever, in the dightest implicated Mo-lineux, as inferred by Cornish. On the whole the testimony may be said to have been favorable to Molineux.

She Arrives in Port at Ponta Delgada, Azores Islands.

SHE HAD BEEN GIVEN UP AS LOST.

All of Board Are Reported Well, but Details of Her Terrible Experience Indicate That Injuries Were Sustained by Passengers and Crew.

Ponta Delgada, Feb. 25.-The Hamburg-American line steamer Bulgaria, Captain Schmidt, from New York on Jan. 28 for Hamburg, previously reported in great distress, by the British tank steamer Woehawken, 800 miles from the Azore islands, entered this port resterday morning under her own steam and reported all well on board.

The following additional details regarding her experiences at sea have been obtained by a press correspondent here: Subsequent to the departure of Second Mate G. Scharges, Quartermasters Carl Ludtke and John Schueir and Seaman William Starke, who were picked up from an open boat of the Bulgaria, on Feb. 5, by the British steamship Vit-toria, Captain Wetherall, bound from Hull for Baltimore, where she arrived on Feb. 22 with the rescued men, the weather became worse and salvage operations had to be stundoned. All day and night the crew and passengers of the Bulgaria jettisoned cargo until Feb. 7. During the afternoon of Feb. 7 William Keenig, a sailor, jumped overboard and was never seen again.

The weather on the morning of Feb. 8

continued fearful and there were six or seven feet of water in the holds. On the morning of Feb. 9 the weather became calmer and 107 dead horses were thrown overboard from the steamer. The swell was very high until Feb. 10. By that time No. 4 hold, which was full of grain had 14 feet of water in it, and the pumps

were foul and unable to work. Stormy weather recommenced on the afternoon of Feb. 11 and lasted until Feb. 14, when the British steamer Anrillian, Captain Fost, from Liverpool on Feb. 4 for New York, appeared. The commander of the Bulgaria asked the captain of the Antillian to take the disabled steamer in tow. This the command hawser was made fast between the two proportionate rates from other points, insteamers between 7 and 8 o'clock that clude all necessary expenses during the enmorning, but at noon the hawser carried away. The Antillian succeeded in or disturbed last night. There was not a sgain taking the Bulgaria in tow, but Chaperon will also accompany the party. morning of Feb. 15, when she proceeded on her yoyage.

during Feb. 17 the Bulgaria leys from bunches of the enemy at vari-sighted the Norwegian bark Helga and Boyd, Assistant General Passenger Agent, asked her to report the Bulgaria all well.
On Feb. 18 and 19 the severe weather proved, and husiness generally has been resumed. Excellent order is maintained by General Hughes' police force, which is universally commended. with the Twentieth infantry on board, has arrived here from San Francisco, which port she left on Jan 201 Feb. 23, 24 miles more had been covered. The balance of the distance here, 194 miles, was covered by 7.30 in the morn-

During the storms and in working the cargo, etc., the passengers and crew of the Bulgaria sustained many injuries, a number of arms and legs being broken.

THE BULGARIA IS SAFE. How to be Healthy in Winter.

Winter is a trying time for delicate people. Coughs colds and pneumonia find them easy victims Do you catch cold easily? It shows that your system is not in a condition to resist disease. You will be fortunate if you escape pneu-

Nature is always fighting against disease. The right kind of medicine is the kind that of medicine is the kind that helps Nature by toning up the system and enabling it to resist disease. Such a tonic is found in Dr. Williams' Pink Pills

for Pale People. By building up the blood and strengthening the nerves these pills reach the root of many serious diseases, such as sciatica, neuralgia, rheum atism and all forms of weakness, either in men or women.

Miss Peerl Wood, a popular young log of Artington, Ind., says: "It had fairly good health until two years app, when too in neuralgia developed. The pain was fearful. Frequently I would have avere attacks during the night, making it impossible to ever get a night's rest. I suffered severally from this disease for many weeks. Our physician was unable to help me, and we tried another doctor, but with the same result. I used different remedies, but with no benefit. Happening to read in the newspaper concerning the merits of Dr. Williams Finks Fills I concluded to try the pills. When I finished the second box I was better. I was never more happy in my life than over the fact that I was grifing well. After taking the third box the pain left me, and when I had finished the fifth box I was well.
