OUR COUNTRY: First, Last and Forever!

IS SENATOR QUAY A HOAX? Not satisfied with being up the Senatorial battle, there is now a deadlocked in the trial.

Some newspapers, with "special editorial correspondence" from Harrisburg, have not yet discovered that the House is investigating bribery charges. How innocent and dull!

THE NAME OF HON. G. C. SCHRINK was yesterday sent to the Senate by the President. Those who profess to know, however, say that Schrink will not be confirmed as postmaster at Pottsville.

WHAT HAS BECOME OF HAZLETON'S NEW COUNTY BOOMERS? No bill has yet been introduced in the Legislature, nor is there likely to be one presented at this session. Even the Quay Glee Club has gone into winter quarters.

CONGRESSMAN SIBLEY, who is working on the theory to either force the election of a Democrat or else let Senator Quay be re-elected, returned from Washington with the written endorsements of his position from many leading Democratic Senators and Congressmen. Col. Guffey arrived in Washington too late to checkmate Sibley's plan. There will likely be fun at Harrisburg yet.

Charges of Bribery.

The House of Representatives has passed a resolution to investigate the charges of bribery in connection with the McCarrell bill, which were first made public in the columns of the Philadelphia Press. In these charges no names were mentioned; but our contemporary vouches for the information that it is prepared to furnish the names of the parties implicated, together with other detailed information, to a properly constituted committee.

It was on the strength of these newspaper statements that the House authorized the investigation. As a general thing we have not much faith in newspaper charges of this kind unless names, dates and particulars are given. In the present instance it looks too much like a "play to the galleries," to prejudices the public against the leading candidate for Senator, and to warn those who may incline to acts of the character charged by the Press.

If there is sufficient evidence to convict, it is to be presumed that the anti-Quay people, with a standing offer of \$30,000 reward for crimes of this nature, to say nothing of the advantage to be gained by an exposure of that kind, would not hesitate to go before the grand jury and have the parties arrested and punished as they should be. That this course is not pursued is presumptive evidence that the charges are based principally upon rumors and idle gossip.

It is true, the alleged exposure has caused much interest in this locality from the fact that a former resident of this county is said to be implicated. Commenting upon this the Hazleton Standard says:

"According to information at hand a member of the House representing one of the districts from an adjoining county, has accepted the terms of the machine, while a member from this county was about to do likewise, but balked at the last moment when he discovered the anti-Quayites were on his tracks. The story is to the effect that warrants have been issued for the arrest of a well known detective, an ex-Senator and a political huckster not a great distance from Hazleton, who is charged with making the agreement in writing, and furthermore with using the name of a well known prelate to influence certain Democrats.

The last named scheme has resulted in a well deserved rebuke at the hands of Archbishop Ryan, and will undoubtedly prove a boomerang for the knave who took the liberty to connect the church with his villainous method of making votes for the machine. Circumstances will not at present allow the use of names, but our readers will no doubt be startled by the boldness of this unscrupulous political trickster when the facts are made known."

QUAY TRIAL AGAIN POSTPONED.

This Time the Prosecution Objects to Proceeding With the Case.

Feb. 28.—The trial of the Quay conspiracy case has been postponed until April 16. The announcement was made in court before Judge Bettley by District Attorney Rothermel. No cause has the charge been made known than it was asserted that the cause for halting the case was an astounding discovery affecting the jury panel. Officials in the district attorney's office declined to disclose this secret stating that there was only reason why the trial should not go on, the prosecution being entirely in readiness to proceed. Rothermel had it that a case of impropriety had been detected, but concerning this no definite information was obtainable.

After court adjourned Mr. Rothermel said in reply to an interrogation: "While I will say nothing whatever about the cause which induced me to continue the case, except what I said in court, I can state that the entire subject was submitted to Judge Bettley and approved by him before I made the application for postponement."

Senator Quay's counsel had this to say: "The fact of the matter is that there is nothing whatever in the case. Our experts have examined the books and documents. They are mutilated, false and a fraud upon their face. We are prepared to present such facts that the court will be compelled to accept them." Six months after the alleged conspiracy had been consummated and the trials, if any, had been re-opened. The Commonwealth must admit this. Their own experts will testify to it."

Mr. Rothermel denies that the books have been mutilated.

GOVERNOR VOORHEES' NOMINATIONS

Confirmed by New Jersey's Senate.

BLAWICKY WAGES PAYMENT.

Trenton, Feb. 28.—Governor Voorhees sent to the Senate last night the names of Edward C. Harris for judge of the First district court of Newark to succeed Thomas N. McCutchen, Jr., resigned. He also nominated the present members of the state board of medical examiners and the board of managers of the Morris Plains asylum. The Senate in executive session confirmed the nominations of C. W. Blawick, as prosecutor of Essex, Charles J. Baxter as state school superintendent and Richard A. Donnelly as major general, N. G. N. J.

The Senate passed Senator Spangler's supplement to the bi-weekly payment of wages law of 1896 and Senator Stokes' bill, which is intended to make more effective the law of 1896. Senator Stokes argued that the Spangler bill would not accomplish its purpose. On the face of it Senator Spangler's bill is an unimportant amendment to the law, which Senator Stokes says does all that is required by the amendment. Senator Stokes insists that the law of 1896 is not effective, and therefore introduced his bill, which provides that employees shall be paid bi-weekly in cash.

BRAZILIANS TO BLAME.

Former French Boundary Commissioners to Act in Self Defense.

Kingston, Jamaica, Feb. 28.—Further advice from Cayenne, capital of French Guiana, say that additional French troops have been dispatched to Comani, because the governor received information that a strong body of Brazilians was proceeding up the river. It is presumed that the French troops went to meet them.

Every effort is being made to suppress official news about the situation between the hellish boundary commissioners and their forces. But advice received from fugitive settlers say the present state of affairs is due to the Brazilians, who attacked the Frenchmen and forced the latter to act in self defense, after a hot dispute between the commissioners, from which the Brazilians hastily withdrew and removed their camp, at the collision a few men were killed and some were wounded on both sides.

The camp, it appears, subsequently sustained a watchful peace, while awaiting instructions. The natives are said to be preparing to join in the fighting if hostilities are renewed, which is causing the foreign settlers to flee from the disturbed district, abandoning their property.

The importance of taking a good Spring Medicine is well known—in fact, its necessity is universally admitted. To argue this point is useless—takes up your time and wastes our space. The real question is, what to take? Of course, you want the best. For your blood you want a medicine which cures blood diseases.

For your stomach, pectoral,泄弱, weakness, dyspepsia, symptoms you want a medicine containing appetite giving, stomach-toning, dyspepsia-curing qualities. For that tired feeling, dull headache, misery, all run down.

Hood's Sarsaparilla condition, you want a true tonic to bone sinew, nerve and muscle—not a stimulant. Now we can prove, we have proved, we DO prove each and every day in the year, that Hood's Sarsaparilla IS the best; that it is unequalled as a general Spring Medicine; that it meets every requirement above named and more. We prove this by thousands of testimonials tell of people anxious to advertise themselves, but from people

Sarsaparilla in the same walk of life as you. And our testimonials tell of real, bona fide CURES. We believe when you have given it a fair trial you will agree that America's Greatest Medicine and best Spring Medicine is Hood's Sarsaparilla. Prepared by C. I. Hood & Co., Lowell, Mass.
