Triply
and Gray

How is this?
Perhaps sleepless nights
caused it, or grief, or sick-
ness, or perhaps it was care.
No matter what the cause,
you cannot wish to look old
at thirty.

Gray hair is starved hair.
The hair bulbs have been
deprived of proper food or
proper nerve force.

Ayer's
Hair
Vigor

Increases the circulation in
the scalp, gives more power
to the nerves, supplies miss-
ing elements to the hair-
bulbs.

Used according to direc-
tions, gray hair begins to
show color in a few days.
Soon it has all the softness
and richness of youthful
and the color of early life returns.

Would you like our book
on the Hair? We will gladly
send it to you.

Write us!
If you do not obtain all the
benefits you expected from
the Vigor, write the doctor
about it. He may be able to
suggest something of value
to you. Address, Dr. J. C.

Arkansas Miners on Strike.
Fort Smith, Ark., March 1.—The miners
at Huntington and Booneville and several
other mines went out yesterday. From
hundreds of miles away, closing all mines
at that point. At Jenny Lind the men
went out today. The fight is not against
the miners, the operators say, but
against the interference of the United
Mine Workers of America. The results
of the strike are certain to be serious.
The notices of the Western Coal and
Mining company has made a favorable
impression. The company announces that
the advance asked by the miners will
be granted.

Renewed Hope For Mr. Kipling.
New York, March 1.—Although it was
impossible to get Dr. Janeway, Dr. Dun-
ham, Mr. Doubleday or any other per-
sons from the sick room in the confidence
of the family or physicians to talk, ex-
cept in the most non-committal manner,
it was evident, both before and after the
issue of the midnight bulletin, that hopes
have been renewed for Mr. Kipling's
recovery. The statement that "the res-
piratory functions have so far improved
that the use of oxygen is no longer
necessary" is taken by the friends of Mr.
Kipling to be a most favorable indica-
tion.

A MURDER MYSTERY.
(Continued from First Page.)

trouble between Hopkins and the other boys.
He never heard Mary and Hopkins quarrel
about other fellows. Witness said he does
not keep a sporting house. Hopkins once
said to witness that he was jealous of Mary
because she went with other fellows.

Mrs. Alice Foltz called. She repeated her
story of being in the kitchen to get some-
thing to eat when the shot occurred. There

ness concluded to get somebody else to clean
it. The stove is not moved yet.

and turned up the light. She then went to

What the Post Moore Thought of Doctors.
Thomas Moore, stilted of poets, wrote:
"I find the doctors and the ages
Have differed little in aims and ages.
And two in fifty cure agree."

Doctors do disagree about your disease,
one physician telling you one thing and one
other, but the reason for his plan, it is
because you consult ordinary practitioners,
whose time is spent among their fever pa-
tients, and who have no time to give you
chronic cases like yours. If you wish to
learn exactly what your complaint is, by all
means consult a skilled specialist, a physician
who has had the most extensive experience
in chronic cases like yours. If you wish to

roof caved in, crushing the unfortunate
men beneath it. A rescuing party was
