THE POPE'S CONDITION.

Despite Cheering Reports, Grave Doubts Are still Entertained. Rome, March 3,-The latest news from the Vatican is that the pope's temperature at midnight had fallen several points. It appears that his disinclination to observe the recommendations of his physicians forms an obstacle in the way of prompt recovery. He has full confidence in his own strength, and does not readily acquiesce in their advice not to more. During the afternoon he in-sisted upon leaving his bed without as-sistance, and also read several tele-grams. The rise in his temperature, which had given some anxiety, was prob-ably caused in same to his way.

ably caused in part in this way. The pope said during the day: "It is a miracle of God that I am still alive, for he wishes to spare his church a terrible crisis at the present moment." At 5 o'clock in the afternoon the doc ors made a protomed visit, lasting more than an hour, which caused some un-ensiness, but on leaving they gave reassuring reports, Professor Manzoni sny-ing there was not the least fear that the pleura, broughial tubes or lungs would be affected. The pope's nephew also visited him in the course of the after-noon and left his chamber much pleased at his progress. Despite these optimist reports, how-

ever, very grave doubts are entertained as to the issue of the illness.

His hollness, it seems, displaying great interest in the matter, has asked the doctors as to the best way of preserving the cyst, explaining that he intended. when he should have recovered, to dis-sect it for purposes of study,

THE BEEF INVESTIGATORS.

A Private's Sensational Story Contradicted by His Superior Officer.

Washington, March 3 .- There were aeveral interesting developments in the beef court of inquiry yesterday. It was a field day for the volunteer arm of the service, the waiting room being illed all day with members of the various volunteer regiments which served in Cuba and Porto Rico. The first of these, Clarence Walters, of the First Volum-teer engineers, told a sensational story of hardship and inhumanity suffered dur ing his service, describing the canned roast beef in harsher terms than have ever before been applied to that much discussed article. Later in the day Lieu-tenant Sewell, U. S. A., who was major of the volunteer hattalion in which Walters served, contradicted his story com pletely, saying there was no canned roast beef aboard the transport which took the command to Porto Rico. Further than that, he said Walters had him after landing and asked to be discharged so as to accept a pe on as newspaper correspondent.

on being questioned said that he had en well treated while in the service and had no complaint to make. An important development was the de

nial of the story by one James Farnan and also attributed to Dr. Maxwell Christine, of Philadelphia, that they had seen beef injected with chemicals in an Oma hn packing house. Dr. Christine ex plained that what he had seen was the pickling of corned meats, the brine being injected into the must to save several weeks' time in the pickling vat.

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is said at the navigation bureau that it is the only remedy which can reach the disease.

Kokomo, Robinson, Dickey, Climax and Wheeler is worse today than for a week past.

More Polson Through the Mall. Pittsburg, March 3.-Lottie, Alma and Nettie Herman, daughters of Eimer E. Herman, an undertaker of Allegheny City, received by mail a package of powders, enclosed in a note advising them to use the powders for their complexion. Their mother, whose suspicions were aroused, took charge of the package and upon examination found, it is said, that it contained parts green. The motive for the attempt upon the lives of the young girls cannot be conjectured.

Total Abstinence in Military Camps, Washington, March 3.-The amend-ment which Scontor Hansbrough offered to the army re-organization bill, and which became a part of that measure, prohibiting officers or soldiers from selling intoxicating drinks at any post
