The close relation between heart trouble and poor digestion is because both organs are controlled by the same great perves, the Sympathetic and Pnenmogastric,

In another way, also the heart is affected by the form of poor digestion, which causes gas and fermentation from half digested food; There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and the distended stomach on the heart and department commander having the privilings, interfering with their action; hower lilege of using the balance, subject to obarises palpitation and short breath.

Poor digestion also poisons the blood, tem it is impossible to run the govern-making it thin and watery, which in that the many that the month of March all and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsla Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular persistent use of Stuart's Dyspepsia Tablem at meal denly thrown out of work, a circumtime will core any form of stomach trouble stance generally recognized as a dangerexcept eancer of the stomach. *

Affairs in Santiago de Cuba Have THE CESSATION OF PUBLIC WORK

Reached a Climax.

Adds Seven Hundred Idlers to the Discontented Masses, and There Are Disappointed Cuban Politicians Who Are

Trying to Provoke Deeds of Violence Santiago de Cuba, March 3.-A climax has been reached in the affairs of San-tiago. The estimates for February have been reduced from \$70,000 to and amounts aggregating \$80,000 expended last month have been disallowed by the authorities at Havana.

General Leonard Wood, military governor, says it is impossible to estimate exactly a month ahead, and thinks the best plan would be to forward a certain percentage to Havana every month, the jection later, as under the present syskept within \$10,000.

Even those Cubans who are most friendly to the United States authori-ties say that this amount is less than what was allowed at any time under the Spanish regime. In the opinion of others the object of the restriction is to discredit the work already done here by throwing out of employment a large and disturbance. This is, of course, an altogether erroneous assumption, but the fact is that more than 700 men are sudous menace to public safetly at just this juncture and involving a large additional police force. Some merchants say it will necessitate the presence of additional regiments, even if an insurrection does not finally result.

OUR NATION'S FUTURE

As Foreshadowed by Cecil Rhodes, the Eminent Briton.

THE GREAT NATION MUST EXPAND

He Decinces That in Less Than a Century the United States Will Govern All of the American Continent Excepting Canada.

Alexandria, Egypt, March 3.-Cecil Rhodes, who in the eyes of most Englishmen is the incarnation of the imperiulistic policy, holds views concern-ing the future of the United States even more far reaching than most American importalists have broached. Mr. Rhodes in conversation with a press representa-tive on board the steamer Hapburg, on the Mediterraneau, by which he came to Egypt in the interests of the Cap-Cairo railroad and telegraph, predicted most confidently that within a century the United States would have advanced the work begun in the acquisition Cuba until it controlled all of the American hemisphere except Canada.

Mr. Rhodes expressed admiration for the work aiready done in Cuba and predicted that it would be carried on in the Philippines. The United States he con-sidered one of the nations best equipped for colonization, and repeatedly exclaimed: "You are taking to it like mother's milk," apparently with the greatest de-He inquired with great interest what

"It is the dary of civilized nations to take charge of the barbarians and give them a white man's government." he said. "The United States is one of the great powers, and cannot escape this duty.

He did not believe that the United States would ever withdraw its authority from Cuba, and thought the manner in which Spain had been existed from colonies and the United States had taken possession most businesslike. America's action in compensating Spain for the Philippines surprised him. "I would have bundled the Spaniards out and made them pay a war indemnity," was his comment.
He declared that the United States

could never withdraw from the Philip-pines, because it was their duty to give these people a strong and good govern-ment, nor didahe believe that when they had begun to realize the results of their work there Americans would desire to abandon the policy. They might grumble for a time over the expense, but that would be "a mere flea bite" to a nation so rich. Why not abandon some expenses of the pension list, which seem Even if a large navy ford one. So far as the fear of provok ing fereign entanglements and wars went, while England and the United States stood together and maintained their present understanding, which was practically an alliance, no combination of powers dare menace them.

To the suggestion of the anti-imperialists that the Philippines would be only the beginning of colonization, he said:
"There are no more islands of the sea to be acquired. They are all taken up. The territory of savages races is practically all pre-empted by the civilized. The ultimate work of the United States will be to govern South America. You will probably begin with Mexico, ac quire the Central American states, then those on the continent of South America. until you hold all the country to the south of you. These states have incompotent governments-practically barbar ian governments-and it will be duty to give them the white man's government. Mexico is well governed, but a nation cannot depend on one man, and better than before his time. is the logical direction of the expansion of the United States.

"The Philippines came to you by ac-cident; these neighboring peoples it will wide for, You people of the United States cannot alpeople of the United States cannot always remain within yourselves. You cannot always go on making money. You must get out into the world and take up your share of the world's burdens. Already you are outgrowing your own country. You will absorb other countries and give them good government. Why shouldn't you? You have it is your blood."

REGULARS FOR MANILA.

Six Regiments Ordered to Beinfore

the Army of General Otis, Washington, March 3.—The secretary of war has just ordered the reinforce-ment of General Otla by six regiments. These are the Sath infantry, now at San Autonio; the Sixth artillery, scat-tered along the Atlantic coast stations; the Ninth infantry, at Madison barracks Thirteenth infantry, in New York state: Twenty-first, at Plattsburg, N. Y., and the Stateenth infantry, at Fort Crook and neighboring posts, in the middle These regiments have been or dered to make ready to proceed to Say Francisco and thence to Manila. The reinforcements are made up of troops who are not only regulars in the full sense of the term, but who have been through the Cuban or Porto Rican cam-

paigns. They know what it is to be under fire, how to hunt Indians and also how to fight in the tropical jungles. In answer to the direct question as to whether or not these regular troops are whether or not these regular troops are intended to relieve a corresponding num-ber of volunteer soldiers at Manila, it was said at the war department that, while this probably would be the case, it was not possible yet to make a positive statement. This means that if when the reinforcements arrive at Manila the conditions are satisfactory the volunteer

His Two Little Daughters Stelcken. But Not Seriously III. New York, March 3.—That Rudyard Kipling's condition has improved very greatly during the past 24 hours is evilenged by the fact that but one bulleting was posted yesterday. That was of a very satisfactory nature, and it was an nounced that no further bulletins would be forthcoming until this afternoon. An other indication that the patient is get ting along well is that last night he asked to be shown some newspapers, and seemed to be greatly pleased and af-fected at the interest in his illness shown

by the American people.

According to the latest reports Mr. Kipling's two little daughters are not so seriously ill as was first thought. elder, Josephine, a child of 6, is being cared for at the home of Miss Deforest, a friend of Mrs. Kipling, and Miss Deforest said today that the little one doing "very nicely indeed," She is suffering from pneumonia, and it is not known yet whether she is abso lutely out of danger.
