SATURDAY, MARCH 4, 1899

OUR COUNTRY: First, Last and Forever.

It is worth noting that henceforth it will be written plain Mr. Brumm.

SENATOR LOSCH is a much sought man these days. The whys and wherefores are plain to those on the inside.

THE Journal is booming a city charter for Pottsville. The place should first shake off its swaddling clothes.

THERE is not a man, woman or child in this country who does not rejoice at the elevation of George Dewey to the rank of Admiral.

THE Democrats at Harrisburg absolutely refuse to listen to the siren voice of would-be leader Sibley. The gentleman from Pittsburg has the call.

MATTERS are becoming desperate in the camp of the enemy, when it becomes necessary to call in the services of county officials, resident and non-resident, in behalf of a candidate for the insignificant position of janitor of schools—and then fail.

THAT some people have money, and in the matter of settling their bills are on the lookout for discounts, is evident by the amounts paid by Collector Burke on his sixty-day settlement. The borough and school district will be the gainer, for the reason that they will have the use of the money so much earlier in the year.

Prof. Coles' Predictions.
Prof. Coles' predictions last month "that the planets were all on one side of the heavens and in position to cause awful storms and blizzards, snow blockades and floods, that would surprise the oldest inhabitants," came true. He says he has received hundreds of complimentary newspaper notices from all parts of the country declaring them to be the most remarkable and accurate long range forecasts ever made by any one man or weather bureau in this or any other country.

This month, says the forecaster, the planets are in a still more dangerous position than they were last month; but fortunately for America the High Flood vital forces will rule—by a two-thirds majority—and will keep away many of the greatest storms and send them around to the antipodes. The

"Like Diamonds Raindrops Glisten."
Drops of Hood's Sarsaparilla are precious jewels for the blood which glisten in their use, and, like the rain, disappear for the good of humanity. Each dose when taken is in a very short time thoroughly mixed with the blood and actively getting in its work of purification. Hood's never disappoints.

Milk Leg—"When my last child was born in Lockport, N. Y., in 1874, I became afflicted with milk leg in terrible form. Our family physician was faithful but could only relieve temporarily. Keeping boarders, I was on my feet a great deal. Finally the dye in some red stockings poisoned my inflamed ankles, making many sores. I was in continual misery, gangrene setting in five times. The bones were visible, finger and toe nails came off and my hair came out. I could not sleep. I took the Sarsaparilla again and it completely restored me."

Malaria—"I was a soldier and after typhoid fever, I was laid up with malaria, and nervous prostration so that I could not work. Nothing helped until Hood's Sarsaparilla cured me completely so that I am now well." J. H. STILLMAN, Cheltenham, Pa.

Sorofia—"Running scrofula sores made me shunned by neighbors. Medical treatment failed. A relative urged me to try Hood's Sarsaparilla. In six and a few months the sores completely healed." Mrs. J. M. HATCO, Etta, N. H.

RECALLED TO LIFE.

Warner's Safe Cure Gives Mr. Vansett Better Health Than Ever.

"I secretly feared that I was losing my mind." The man who uttered these words is a respected citizen of Philadelphia, who has passed through as much bodily pain and mental torture as a man can endure and still live. In the midst of extreme bodily weakness came the dreadful shadow of insanity. Mere death has no horror to compare with that.

G. A. Vansett is a retired shoe manufacturer, residing at 1008 Milton street, who suffered for many years with kidney trouble and vainly sought relief until he took Warner's Safe Cure. Although he is older than most men, he is in better health than he ever hoped to attain.

"Ten years ago," he says, "I had a complication of diseases that puzzled the doctors, and matters were made worse by worry over my business. When I got out of bed, I was so shaky that only by the use of stimulants could I keep on my feet. My head ached continually, my appetite was gone, and nothing tasted right. I felt lame all over and the flesh was sore on my bones. Unusual excitement or annoyance left me exhausted and flabby as an old sponge. I could not sleep, and the least noise sounded like thunder. During the day I got drowsy and could not fix my thoughts on any subject. Sheer force of will kept me going. I secretly feared that I was losing my mind."

"A trip abroad seemed to do me good, but I had not been back three weeks, when my old trouble returned. I had an intense itching of the skin at night. A noted physician told me I had Bright's disease in a stage so far advanced that, although medicine might prolong my life, I would do well to put my earthly affairs in order."

"I did not dare to tell my wife. I had read accounts of Bright's disease being overcome by Warner's Safe Cure, and determined to try this remedy as a last resort. Unknown to my family, I began taking it, and soon realized its good effect. To make a long story short, it made me well, and in six months I looked and felt like another man. Thanks to Warner's Safe Cure, my old age is healthier than my youth was."

This is a typical case of Bright's disease described with great force and clearness. Mr. Vansett's fear of madness was well grounded. The weak kidneys did not take decayed tissue from the blood, and every hour the poison in the system was increasing. Every time a beat of the heart pumped blood to the brain, that wonderful organ was poisoned. What a relief it is to know that you have turned your back on sickness and danger! And what a blessing is Warner's Safe Cure, which will enable you to do so.

old country may be terribly storm swept. March, in the main, will prove a very mild month.

The greatest storm danger periods, according to the same prophet, will be between the 3d and 7th, the 9th and 17th, and the 19th and 31st. If a break should occur in the gaseous matter now passing over the sun at any time during these periods, then America will be in danger of being storm swept and great floods will do untold damage. A tidal wave may inundate some of the islands of the sea, and result in great damage to shipping along the sea coasts. Earthquakes and airquakes will appear in both countries and hurricanes and phenomenal electrical storms will do much damage. Some of the states will be surprised by a March blizzard and great snow storms, while others are enjoying springlike weather. Thunder storms, followed by strange appearing phenomena in the north, may cause many to wonder and fear. Another comet will be sighted by the big telescope this month.

Watch for sudden changes in the stock market, as an excess of "High Flood" days brings exciting scenes in the business, political and social world, is the parting warning of Prof. Coles.

THE Philadelphia Inquirer says that "at the risk of his own life Chief Deischer, of the Shenandoah Fire Department, rushed into a burning building during Tuesday's conflagration and rescued from an agonizing death the young daughter of one of the victims of the fire." Our contemporary uses this as an argument that this is not a degenerate age. The laughable part of the whole matter is that there is no such person in this town as "Chief Deischer" and neither did the "chief" take his life in his own hands to save a child." That story originated in the fertile brain of a representative of a Hazleton paper. No such "act of heroism" occurred in Shenandoah.

Still in the Ring.
From Hazleton Sentinel.
The Shenandoah EVENING HERALD asks what has become of Hazleton's new county boomers, states that no bill has been introduced and that even the Quay County Glee Club has gone into winter quarters. In reply we might say that the recent blizzard has frozen out some of the enthusiasm, but its still in existence and may be expected to reappear at any moment. Our thanks are extended for the solicitous inquiries of our neighboring contemporary.

Shepton's Coal Boom.
The residents of Shepton are waiting for spring to open, anticipating a boom. It is generally understood that either the Pennsylvania or Reading Coal Companies will sink two sloops about one and a half miles west of that town, where prospecting has been going on all winter, and it is known with great success. The Mammoth, Lykens Valley and Buck Mountain veins have been proven, and coal has been found in abundance.

Milton's Little Tax War.
In 1897 the Milton Borough Council adopted an ordinance requiring telephone companies to pay a license of 50 cents annually for each pole in that town. This tax the Central Pennsylvania Telephone and Supply Company has refused to pay, agreeing, however, that if the Council would exonerate it for the years of 1897 and 1898 it would pay the license hereafter. This week the Council declined to accept the company's proposition.

SAGASTA'S SUCCESSOR.

Madrid, March 4.—The ministerial cabinet, formed by the Conservative leader, Sagasta, on the 1st inst., has been dissolved. The result of his negotiations with the statesmen, generals and political leaders, informed Senor Sagasta yesterday that he desired to retain the present cabinet, and she then invited him to reconstruct the cabinet. Senor Sagasta replied that it would be impossible for him to remain premier without a dissolution.

Thereupon the queen regent referred the same request to Senor Montero Rios, president of the senate, who declined for the same reason.

Finally Senor Silveira, the conservative leader, accepted the task, and it is expected that he will submit to conservative ministry to her majesty today for approval. The newspapers predict that popular demonstrations will greet a conservative ministry.

In the Silveira cabinet it is believed that Marquis Pidal, former vice president of the chamber of deputies, will hold the portfolio of foreign affairs. Lieutenant General Polavieja, who has held the posts of governor general of Cuba and of the Philippines, the portfolio of war, and Senor Date the portfolio of the interior.

The cabinet will be dissolved, the new cabinet taking place toward the end of April and the new chamber of deputies meeting in May. Count De Rascon, Spanish ambassador to Great Britain, and Senor Leon y Castillo, ambassador to France, have tendered their resignations. The prefects and secretaries of state have also resigned their offices.

Senor Silveira has offered the finance portfolio to Marquis Villa Verde, the ministry of marine to Admiral Laroga, the ministry of justice to Senor Duran and the ministry of public works, agriculture and commerce to Senor Cardenas.

Jealousy and Murder.
Allentown, Pa., March 4.—In a fit of jealousy last night Frank Kramer, hostler at the Cedarville hotel, three miles west of Allentown, shot and instantly killed Maggie Good, a 25-year-old girl, who was visiting at the hotel. Owen Kern, the proprietor, in the head and abdomen, and Kern may die. Kramer also shot Mrs. Owen Kern, wife of the hotel keeper, the bullet piercing her left arm. Kramer then fled to his brother's house, a mile away, where he was arrested at 11 o'clock. He made no resistance, but asked to be hanged at once. He was almost helplessly drunk when arrested, having drunk nearly a quart of whisky. He is 24 years old, and single.

A Narrow Escape.
Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in trial bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at A. Waseley's Drug Store. Regular size 50c and \$1.00. Guaranteed or price refunded.

DEWEY'S NEW HONOR.
It Makes Him Outrank All the Generals of the Army.
Washington, March 4.—The news of confirmation by the senate of George Dewey as admiral of the navy and of his promotion to the rank of major general by brevet in the regular army was promptly cable to those two officials at Manila yesterday, with the congratulations of the president and Secretaries Long and Alger.

The special act making Dewey admiral of the navy increases his emoluments from \$8,000 to \$13,000 per annum, and no account was taken of the effect of action or non-action on the part of the senate on the many naval nominations then pending before that body. This in the list of rear admirals submitted, 18 in number, Admiral stands two numbers in advance of Sampson. This is precisely his relative position on the existing register, though had the senate confirmed the nominations of the two officers to be rear admirals as they were specially submitted by the president Sampson would stand two numbers ahead of Schley. The recommendation of the president, however, was not followed and both are rear admirals, with Schley two numbers in advance.

The Natural Cure for Indigestion.
Do you have pain in the stomach after eating? Do you have a yellow tongue? Wind on the stomach? Constipation? These things arise from Indigestion and Dyspepsia.
Digestion depends on digestive fluids or "ferments" secreted by certain glands. When the secretion becomes insufficient, indigestion results. Dr. Williams' Pink Pills for Pale People cause these glands to resume their normal action and good digestion follows.
Artificial ferments (of which most so-called Dyspepsia cures are composed) may give temporary relief, but Dr. Williams' Pink Pills for Pale People afford a permanent cure.
Poor digestion often causes irregularity of the heart's action. This irregularity may be mistaken for real, organic heart disease. A case in point: Mrs. E. C. Newell, Ind., had suffered for four years with stomach trouble. The gases generated by the indigestion pressed on the heart, and caused an irregularity of its action. She had much pain in her stomach and heart, and was subject to frequent and severe choking spells which were most severe at night. Doctors were called in, but she was unable to get any relief. Her condition grew so bad that she was obliged to give up her work, and she was nearly blind. She noted that in intervals in which her stomach did not become normal, her breathing was better. She concluded that her indigestion was alone at fault she procured the proper medicine to treat that trouble and with immediate relief resulted. Her appetite returned, her choking spells became less frequent and finally ceased. Her weight, which had been greatly reduced, was restored and she now weighs more than she has for several years.
That others may know the means of cure we give the name of the medicine used—Dr. Williams' Pink Pills for Pale People. These pills contain all the elements necessary to build up the life and richness to the blood and restore shattered nerves. —New Brs., Greenburgh, Ind.

Increased Wages For 60,000.
Boston, March 4.—Advice received from several mill centers in New England make it appear that the action of the Fall River cotton manufacturers in voting to restore the schedule of wages paid in the cotton mills in 1897, has become general throughout New England. While up to today Maine manufacturers had not made any announcement, it is understood that some of them have the question under consideration. Thus far cotton mills employing about 50,000 hands have decided to restore the schedule of 1897.
