Second Officer Brenton Succumbed to the Terrible Cold While He and His Lifeboat Crew Were Trying to Reach Shore to Secure Assistance.

Hallfax, N. S., March 4 .- The government steamer Aberdeen has arrived here. from Sable Island, bringing the crew of the wrecked steamer Moravia, which was lost on the northeast bar of the Island last month. Second Officer Brenton, of the Moravia, is the only one lost out of a crew of 40. The others were safely landed here and are being well

looked after. Captain Joginson was seen by a correspondent on board the Aberdeen. His of the body. There is nothing else known story shows that the Moravia was short which will so completely and perfectly story shows that the Moravia was short of coal, and bound for Halifax, when the dinaster occurred. She had a rough voyage and had only 100 tons of coal when compelled to change her course.

For several days afterwards Captain Joginson was unable to take observation, and on the 13th inst, the vessel struck on the extreme northeast end of the dry bar. Within two hours the ship began to break up, and the crew was forced to

leave at once. The officers and crew of the Moravia speak in the highest terms of their treatment at Sable Island and on the Aberdeen. Already arrangements are being made by local agents of the Hamburg American line to have them provided for. All are in good health and are little the worse for their experience. The story of the survivors was that the vessel was in a disabled condition when she first went ashore.

About 4 a. m. on the 12th the waves began to have a telling effect and the vessel commenced to break up. By this time she had made so much water that he was settling at stem and stern. Shortly after she parted amidships,

and the men, realizing their dangerous position, prepared to launch the boats. This operation was attended with extreme danger.

At 10 a. m. the condition of the shin was such that it was decided to cut the ines from the lifeboat, in order that the crew might reach the island for as-sistance. The minute the lines were cut the crew commenced a hard battle for their lives. The little craft was swept

away from the steamer like a cork, and work as they would the men found it impossible to approach the shore. They were gradually carried away to sea, and suffered untold agonies from the ex-treme cold and heavy snow. The waves

Erne Defeats Hawkins.

San Francisco, March 4.-Frank Erne, of Buffalo, knocked out Dal Hawkins, of San Francisco, in the seventh round of what was to be a 20 round contest at Woodward's Pavilion, last night. The result came as a complete surprise to Hawkins and his friends, as until the end of the sixth round Hawkins had the better of the contest. Erne had fought almost entirely on the defensive, and many predicted that the fight would last the limit.

The Last Legislative Day Attended

With Greatest Confusion.

A TWENTY-FIVE HOUR SESSION. The Nation's Lawmakers Worked All

Day and When Final Adjournment Was Beached Had Completed All the Absolutely Necessary Work.

Washington, March 4 .- Congress ad journed at noon today after a session which had lasted since 11 o'clock yesterday forenoon, with short recesses for Excitoment, confusion, refreshment. heavy strain and hard work have charactorized the fast legislative day of the Firty-fifth congress in the senate. At times the confusion was so great in this usually staid and decorus body as to render the transaction of business almost impossible. Business that ordinarily would have the undivided attention of every senator on the floor was trainact ed amid so much noise that it was next

to impossible to follow the proceedings Towards midnight comparative orde was evolved from the seeming chaos of he early part of the day and evening and congress adjourned with its aloso lately necessary work completed. When the senate convened it faced the

task of considering two of the great appropriation bills, those of the army and supplying the general deficiencies The former carries appropriations exig \$50,000,000 and the latter about \$20,000,000. With a determination to complete the appropriation bills the sen ate began immediately to consider these measures, and at 8 o'clock last night the army bill was passed, the deficiency hill velopment of the war department court having been passed nearly three hours of inquiry into General Miles' beef before

A report on the sundry civil appropriation bill was agreed to, but the luability of the senate conferrees to secure an agreement on the Hawalian cable proposition created a heated discussion, in the course of which Speaker Reed was alluded to in uncomplimentary terms. The Toledo exposition bill, carrying an appropriation of \$50,000, was passed without debate.

Last night the river and harbor con-ference was presented. A debate on the recession of the senate conference from the senate amendment providing for reservoirs to irrigate arid lands at the head waters of the Missouri river was prespitated by the advocates of the proposi tion. An effort was made to recomm the bill to the conferrees, but it failed after an impassioned speech by Senator Frye, who submitted the report. The debate continued until an early hour this morning, when it was passed without the amendment.

Crowded galleries looked down upon the struggling members of the house as the closing scenes of the last legislative day were being enacted. Step by step the leaders in charge of the app tions bills pushed them through the final stages and during every Iull in the cou sideration of conference reports mem bers clamored for recognition for be-lated local bills, in the vain hope of rescuing them from death on the calendur.

At times the house was like bedlam Pound as the speaker would with his gavel, it was almost impossible to preserve order, and to the casual visitor in the gallery the proceedings on the floor must have been about as intelligible as an exciting day in the wheat pit would be to a parish priest. The noise and confusion on the floor, punctuated with the constant banging of the speaker's gavel or backgrounded with the droning voice of the clerk, irate members facing each other and talking at the same time pages scurrying up and down the aisles, all this was utterly distracting. But the people in the galleries stayed on, and The Kind You Have Always Bought there were a dozen persons in line in the corridors waiting for vacant sents, so great is the attraction of a dying con-

time a man stops to take account of things, he finds the dollars have come, but health has departed. Then he reverses matters completely. He devotes the rest of his life to spending his dollars to regain his health. What a man with worn out body and tired brain needs most of all is a good stomach. Dr. Pierce's Golden Medical Discovery is the proper remedy to set the stomach tight. This medicine will make his appetite good, make his weak stomach strong and help it to digest the food he puts into it. Good digestion makes pute blood, and pure blood vitilizes the whole system. This great remedy also cures those who have sore throat, a persistent cough, weak and bleeding lungs and bronchits, all of which often arise from weak stomach and consequent indigestion. This a cleansing, strengthening, purifying, invigorating al-terative tonic. It puts life into the blood and nerves, into the brain and body. If Shiloh's Cough and Consumption Cure, which is sold for the small price of 25 cts., 50 the Democrats on the proposition to con-sider the resolution affecting the rights of members of the house holding com-missions in the army to retain their sents in the house. The Democrats decided not to allow the resolution to be brought on the affecting it

a guaranteo.

The house passed the army appropria-tion bill with all senate amendments, and the bill now goes to the president. Mr. Walker, of Massachusetts, after many successful attempts, got an opcortunity during the afternoon to voice his views on currency reform and se-verely criticized some of his Republican collengues. When the great beacon light on the dome blazed forth as darkness fell thousands upon thousands were attracted to the brilliantly illuminated wings of the Capitol, where the two houses were to sit out the night. In the reserve galleries of the house were congregated the elite of the society of

the national capital, while the public gat eries were banked to the doors. Stylish ly gowned ladies and gentlemen in even ing dress added colut to the occasion.

The hig questions in dispute between the two houses, being naturally the last to be adjusted, were postponed far into the night. From time to time short recesses were taken. Those were simply breathing spells, however, and soon the leaders were at it again harder than OVIE.
