The Allan Line Steamer Castilian ALL THE PASSENGERS RESCUED.

The Splendid Discipline on Board Pre vented Any Semblance of Panlo and Won Highest Praise From Passengers-Impressive Religious Service.

Hallfax, N. S., March 13 .- The new Allan line steamer Castilian, from Portland for Halifax, went ashore at Cannet Rock light, near Yarmouth, at 4.30 in the morning, at low tide, in a dense fog her compasses being deranged. I'we compariments are full of water and tugs were sent from Yarmouth to the scene and removed the 10 cabin and 25 steer age passengers. The ship is in charge of Captain Barrett and officers formerly of the steamer Parisian, the entire crew of the Parisian having been transferred to the new boat. The steamer was due to embark mails and passengers here

for Laverpool. The first and second holds of the vessel are full of water. The steamer is aground aft to the engine room, and there are six foet of water in the en-gine room. There is six fathoms of water under her aft. The captain, three mates, the steamer of the the steward, engineers and some of the crew remain on board, and three tugs are standing by. The steamer was 15 miles out of her course, with a fresh southwest wind which would increase the current.

The passengers and crew left Yar mouth this morning for Halifax to take the mail steamer Vancouver for Eng land. The passengers speak in the highest terms of the discipline maintain-ed after the ship struck. She had been moving slowly, with a sharp lookout in the haze. The officers wanted to give a wide borth to Cape Sable, which they feared they might be nearing. Nothing of whistle or buoy was heard or seen, and no sign of land until the shock, which was so light that many passen-gers thought it was a heavy wave. Engines were reversed, but when it was found the steamer held fast the boats were got ready and the sleeping passen-gers awakened and told to pack up in case it should be necessary to send them ashore.

Splendid coolness was displayed by the whole crew. Rockets were fired at intervals, and at daylight the first officer and purser went ashore in a small boar to Tusket. They drove nine miles to Yarmouth for assistance. During the time the passengers were waiting for help the sea began to run high, and the for rolling of the ship became unpleasant. Lord Archibald Douglass, a returning Jesult missionary, conducted an im-pressive service on the deck in the forenoon. In the afternoon the boats were launched and the passengers' crew told off to them. Shortly after the

whistles of tugs were heard, and at ? o'clock all hands but the captain, en gineers and some of the crew were safely taken off and conveyed to Yar iouth Opinions in Yarmouth differ as to floating the ship. The chances are favorable if the weather continues modcrate. The work of discharging the cargo commenced teday. A large num-ber of sheep in the forward holds have

been found drowned, and the swelling of grain has thrown up the dining saloon deck. Free Pills.

GOMEZ'S DEPOSITION. The Patriotic Cuban Leader Wel-

comes Relief From Command.

THE POPULACE APPLAUDS HIM.

Despite the Action of the Unban Assembly, It is Probable That the Amerteam Authorities Will to Deal With Gomez in Distributing \$3,000,000. Havana, March 13.-General Maximo

Gomez has bound the following statement to the Culean people and army: "By the use of the supreme facultie

with which it is endowed the assembly representing the army only, has deposed me as commander-in-chief of the Cu-ban army, which grade it conferred upome during the last war. As commander in-chief I always followed the dictate of my best conscience and the conscienc of great national needs. I endeavored i all circumstances to fulfill my daty

The assembly considers the fact the I do not aid it in its efforts to raise loans which later would compromise the greatest financial and political interests of Cuba to be an act of insuburdinatio and of want of respect. The primary cause for the action taken again niy conviction that Caba should begin the exercise of its own sovereignty, as a republic of union and concord, proclaimed at Monte Cristo and austrined until impaired on the field of battle, free

from all compromise, keeping the na lion's honor spotless.

"As for the rest, as a sincere man, I confess I think them because they re-Greene's Warranted Syrup of Tar if it fails lieve me of great political obligations and also leave me free to return to my abandoned home, which, during 30 years of continual strife for the good of th ountry that I love so much, has been ny one aspiration. Foreigner as I am, I did not come to serve this country by ciping it to defend its just cause as nercenary soldier, and consequently since the oppressive power of Spain has withdrawn and left Cuba in freedom I had sheathed my sword, thinking I had finished the mission which I had voluntarily imposed upon usyscif. I am owed nothing. I retire contented and satisfied at having done all I could for the banefit of my brothers. Wherever destiny rules that I make my ome, there can the Cubans depend upon a friend."

Coming Events, Mar. 17.-Grand ball under the auspices of the Bryan Club, Robbins' opera house. April 4.-Schoppe Brya, Minstrels at Fer Governor General Brooke was pro ly notified of the deposition of Gomzz, and he was much interested to learn the details of the assempty's proceed-April 3.--Grand concert in the P. M. church, corner Jardin and Oak streets, under auspices ings. He said he could not express an opinion as to the effect of the assembly's action upon the future relations between General Gomes and the United States, particularly in the matter of distributing the \$3,000,000 offered by the Washington government to the Unban troops as a condition of disbandment, but the impression seems to be among the Ameri-can authorities that, as the assembly derful cures of throat and lung diseases. No has never been officially recognized by matter what other modicines have failed to the United States government, its action will not amount to more than the resolutions of any other body of individuals.

The assembly is being strongly cen-sured by Cubans on all sides, and there were popular demonstrations yesterday afternoon in favor of the deposed com "Long live Gomez" and "Death to the assembly." General Gomez during the day received numerous visitors, all of whom assured him of their affection and loyalty, and that the declarations by the assembly, on whatever subject, could not represent even the army, as the elections which gave its members their elections which gave its members their present positions are really void for il-legality and political jobbery. There is no doubt that a majority of the people support him as against the assembly, The local press will probably attack the assembly, urging its dissolution as the est thing that can happen, and insistng that there is no reason why the United States authorities may not con-United States authorities may not con-tinue to treat with Gomes in the matter of the payment to the troops. It is suid on good authority that the payrolls Gomez is preparing to hand General Brooke are most complete, full and fair, and that when the army learns he could alter the transmission of transmission of transmission of transmission of the transmission of transmiss

MICHIGAN'S HEAVY SNOW.

Double Header Trala Stuck in a Twelve Foot Bank. Detroit, Mich., March 13.-Nearly all

points in the upper peninsular of Michigan report railway trailie completely blocked by snow storms. A special from Bessemer, Mich., says: The heaviest snow storm in the history of the snow belt is prevailing. For 45 hours all trains have been snowed in at different places. All streets are blocked with banks of snow from four to eight feet deep. This with former storms, will make a total fall of snow about S to 12 feet on an average. In some places the drifts are from the top of one roof to the other. Telegraph wires are down and all com-munications are by private lines.

A special from Houghton says: A bits-sard for the past 24 hours has tied up everything. All trains are cancelled and no railroad communication with the east has been had since Saturday. A double beader sent out yesterday over the Mineral Range railway to try and open com-munication with Calumet struck a snow bank 12 root high one mile west of Han ock, and a gang of snow shorelers was dispatched to shorel the engine out. Snow drifts eight feet high are in the streets. Calumet reports the streets com-pletely blockaded, and in places the and in places
