You feel the blood rushing along. But what kind of blood? That is the question. Is it pure blood or impure blood?

If the blood is impure then you are weak and languid; your appetite is poor and your digestion is weak. You cannot sleep well and the morning finds you unprepared for the work of the day. Your cheeks are pale and your complexion is sallow. You are troubled with pimples, boils, or some eruption of the skin. Why not purify your blood?

Long continued ill-health causes gloom and depression and takes all the pleasure out of life. Each day is dark and there is no hope for the morrow for the man who by impudence and excesses has deprived himself of the vim, vitality and vigor which makes life cheerful. Many men are in this condition, but there is a rare opportunity and weak men should take advantage of it.

The Toy Spaniel and Pug.

The Stuarts added to the list the toy spaniel, and our Dutch connection brought us the pug. Both came from Holland, but the former, the King Charles, was originally a pure bred dwarf spaniel, exceptionally intelligent, useful in finding game and differing only in its smaller size and extreme domesticity from our larger breeds. The "spaniel gentle or comfoter," which Dr. Catus denounced as a useless lap dog, must have preceded the King Charles as an indigenous pet. Pugs came in with chocolate, powder, negro page boys and hoops and marked the first step in English taste for the grotesque in dogs. The cleanliness and absence of canine odor about the pug, as well as his decorative qualities, also recommended him. He was an exotic and has remained in favor on his merits for nearly 200 years. The spotted carriage dog was a Hanoverian introduction, and the white Pomeranian is credited to the connection with Prussia in the wars of Frederick the Great.—London Spectator.
