What we Know,

WE KNOW, WE KNOW.

We know that people generally don't understand the bearing of the condition of their eyes on their general health. There are children in this county to-day, sick because of eye strain. Their illness is attributed to other causes, and unless they come under care of an honest and intelligent optician, they will go on being sick until the true cause is discovered by accident or the exercise of good common sense. Let us assist you in this cause.

Did you ever See a Snow Storm in Summer?

We never did; but we have seen the clothing at this time of the year so covered with dandruff that it looked as if it had been out in a regular snowstorm.

No need of this snowstorm. As the summer sun would melt the falling snow so will

Ager's Hair Vigor melt these flakes of dandruff in the scalp. It goes further than this: it improves their formation. It has still other properties; it will restore color to gray hair in just ten times out of every ten cases.

And it does even more: it feeds and nourishes the roots of the hair. Thin hair becomes thick hair; and short hair becomes long hair. We have a book on the Hair and Scalp. It is yours, for the asking.

If you do not obtain all the benefits you expect from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system, which may be easily removed. Address: DR. J. C. AYER, Lowell, Mass.

The Coal Market. The past month has shown unusual activity in the consuming market, owing to the short period of cold weather.

This came at a time when the retail yards had but a small surplus in stock. This, together with the natural increase in household consumption, caused heavy buying for both immediate and later delivery.

The rapid movement of anthracite to the consumer's cellar has placed the market in a healthier condition than for some time past. There are no large accumulations of coal at any points, and since most of that which has been moved has gone directly into consumption, the retail yards have less in stock than is usual at this time.

Moreover, the temporary difficulty in securing deliveries will lead many dealers and consumers to purchase and carry larger stocks than before, so that, unless an excess tonnage is thrown on the market, there will be a fair prospect for a normal Spring buying movement.

The market is, and will continue, one which is based not largely on weather conditions, and consequently will be quickly affected by any attempt to mislead and sell more than it can readily absorb.

THE ACCUSED POSTMASTER.

Counsel Say They Will Prove Him the Victim of a Conspiracy.

Wilkesbarre, Pa., March 10.—R. F. Bogert, postmaster of Wilkesbarre, who was arrested last Thursday, charged with tampering with the mails in his office, was given a hearing before United States Commissioner Hahn last evening. United States District Attorney Myers, of Pittsburgh, represented the government. The defendant was represented by John T. Lehman, W. S. McLean and F. W. Wheaton.

Inspectors Gorman and Gregory, of the postal department, testified that they had been sent from Washington to investigate charges made against the management of the Wilkesbarre postoffice. First they instructed the night clerks in the office to keep a watch on the postmaster's movements, when he entered the office at night. Then they posted decoy letters on railroad trains, sending them carefully in the presence of the postal clerks. A third party directed the letters. The inspectors followed them up. Gorman said he was on a ladder overlooking the postmaster's private office. He swore he saw him on two occasions re-seal letters on his desk.

On the second occasion he got a signal from one of the clerks inside, and they entered the office. The inspectors followed them up. Gorman said he was on a ladder overlooking the postmaster's private office. He swore he saw him on two occasions re-seal letters on his desk.

The two night clerks testified to having received the decoy letters and placed them in Flick's box. A few minutes after Bogert's entrance the office letters were out of the box. When this was discovered the signal was given for the inspectors to enter the office. The cross examination was severe, and the inspectors contradicted themselves at times.

The defense offered no testimony, but said they were ready to enter bail for the United States court. The commissioner fixed bail at \$4,000, which was furnished. Counsel for the defense say they can establish the fact at the trial that a conspiracy was on foot to ruin the postmaster.
