What we Know,

**WE KNOW,
WE KNOW.**

We know that people generally
don't understand the bearing of the
condition of their eyes have on their
general health. There are children in
this county to-day, sick because of
eye strain. Their illness is
attributed to other causes, and unless
they come under care of an honest and
intelligent optician, they will go on being
sick until the true cause be discovered
by accident or the exercise of good
common sense. Let us
assist you in this cause.

THE WEATHER.
Sunrise, 6:08; sunset, 6:09; length of
day, 12h, 1m; moon sets, 5:07.
In the Pacific coast and plateau
regions rains and snows were gen-
eral, except on the North Pacific
coast and in the southern plateau.
The rains have extended throughout
California. Warm weather will con-
tinue generally east of the Missis-
sippi river. Forecast for District of
Columbia, New Jersey, eastern Pennsylv-
ania, Delaware and Maryland: Fair;
fresh to brisk northerly winds.

COUNCIL CASE SETTLED.
Auditors and Town Council Have Come
to an Amicable Agreement.

From the Miner's Journal.
It is announced that the case of the
Borough Auditors against the Town, which
of Shenandoah has been amicably settled.
The law suit, which has been pending for
some time, was precipitated by the Council
refusing to pay the Auditors' bill, and a series
of misunderstandings and petty jealousies,
in which half the town appeared to be
involved. No person suspected or accused
was recently shown their superior judg-
ment by using their influence to effect a
settlement. It is also said that a very large
proportion of the most influential persons of
that town, regardless of political affiliation,
tried to adjust the matter.

Finally the friends of the contestants,
without the knowledge of either party, se-
lected T. B. Edwards, mine inspector for the
Shenandoah, to act as mediator and bring
about a settlement, and thus prevent a need-
less expenditure of money in litigation. This
unenviable task was undertaken, and an
equitable adjustment of the trouble was
accomplished, and the Councilmen and Auditors
and all involved are undoubtedly grateful
over the result.

permanent cure in all cases of cough, or cold
on chest or lungs. It will cure when other
remedies have failed. Physicians recom-
mend it.

Pool Match.
Two hundred people witnessed an interest-
ing pool tournament at E. N. Reed's pool
room, Mahanoy City, last evening. There
were eight entries and two tables. It re-
quired four heats, of 30 points each, and two
finals to decide the championship. In the
first heat John Webb beat James O'Hara and
William Moyer won over Dr. William Nei-
man. In the second heat James Daley out-
played William Price, while Jesse Webb suc-
ceeded in scoring over Harry Grimm. In
the final James Daley became victor over
William Moyer, while John Webb succeeded
in defeating his brother, Jesse, by two points.
After a short intermission Daley and John
Webb tossed for tables for the championship.
The former won the toss and broke the balls.
He started out in fine form and gained such
a strong lead that it seemed he had won
his opponent. But towards the finish
when Daley had charge of the cue he rallied
by making several clever shots and scoring
close to Webb, but was finally defeated by a
score of 30 to 40. The winner was presented
with a pearl-handle cue.

Roosevelt Opposes Sensationalism.
Albany, March 17.—Governor
Roosevelt yesterday sent to Warden Sage
of Sing Sing prison a letter giving directions
as to the details for the execution of Mrs.
Place to make it as unobtrusive as
possible. He suggests that one woman
attendant be provided and that one of
the physicians attend to her. He says fur-
ther: "I desire you to have merely one
representative of the Associated Press
and one representative of the non-Associ-
ated Press papers, but I wish you also to
see that no one of those otherwise admit-
tedly respectable newspapers publishes a
painful act of justice shall not be made
an excuse for that species of hideous sen-
sationalism which is more demoralizing
than anything else to the public mind."

California's Welcome Rain.
San Francisco, March 17.—There is
hardly a section of California that has
not been visited by rain within two
days, and in most places it has been rain-
ing almost constantly for 48 hours. This
rainfall will prove the savior of the state
this year, as, had it not fallen at this
most opportune time, this would have
been the second dry season, but now
crops are saved, the rivers will furnish
plenty of water for the miners and busi-
ness generally will be good.

The Philadelphia at Apia.
Washington, March 17.—Admiral
Kautz has reported the arrival at Apia
of the cruiser Philadelphia on March 6.
He made no mention of political af-
fairs.

Volunteers Going Home in Style.
Savannah, Ga., March 17.—The Third
Connecticut volunteers, which will be
mustered out on Monday, is making ar-
rangements to go home in style. With
wages and travel pay, the men will re-
ceive nearly \$100 each. Company C,
from Norwich, has engaged the full
berth space of the steamship Tallahassee
to New York. Companies F, from Don-
nelson, and E, from Williamstown, have
engaged special through trains. Com-
pany G, from Putnam, will probably
have a similar train, and other com-
panies will follow suit.

Six Proze to Death on Valdez Glacier.
Seattle, Wash., March 17.—The steam-
er Excelsior, which arrived last night
from the mouth of Copper river, Alaska,
brings news of the freezing to death of
six men on Valdez glacier about the 1st
of March. They were Adolph Ehrhardt,
Maxilian Miller, August Schuita and Al-
fred Aleaman of New York, Dr. Ed-
ward Logan of Denver and Rudolph
Elliott of Louisville. All the bodies
except that of Dr. Logan were recovered
and buried at Valdez.

Political Gossip.
J. A. Depew, the well-known Delano
merchant, has announced himself as a candi-
date for County Treasurer on the Democratic
ticket. A. J. is a hustler and should be secure
the nomination would add material strength
to the Democratic ticket.

The election of school superintendent,
which takes place less than five weeks, is at-
tracting attention at the hands of local
politicians.

The mention of the name of W. H. Evans,
of Mahanoy City, as a candidate for County
Register, was favorably received here.

William Jones, a prominent Republican
politician, of Palo Alto, and a leader of the
Independent movement last fall, has accepted
a lucrative position in Philadelphia.

The name of William Newmaster, of town,
has been frequently spoken of in connection
with the Republican nomination for County
Treasurer.
Commissioner Frank Kastner, of Lofty, is
a candidate for re-election. He is one of the
most efficient and obliging officials that ever
filled that office, and there is a general desire
on the part of the taxpayers for his nomi-
nation at the hands of the Republicans. The
expenses of the Commissioners' office have
been decreased thousands of dollars by the
present hon. Jenkens, the present popular Re-
corder, has announced his candidacy for re-
nomination. And he deserves it.
County politicians are laying their plans
for the state delegate fight.

PERSONAL MENTION.

Criminal Court Adjourns.
Criminal court adjourned yesterday after-
noon after being in session ten days.
Jacob Kull and John Murray, election offi-
cers in Norwegian township, were found not
guilty of violating the election laws. They
were charged with refusing the vote of the
prosecutor, Michael Connor. The costs
were placed on the prosecutor.

Patrick Kenna, of Blythe township, was
also found not guilty of violating the elec-
tion laws, it being claimed he voted at the
wrong polling place. The costs were placed
on the prosecutor, Constable Brennan. The
defendant was represented by M. M. Burke
and Attorneys Bashore, McLaughlin, Striegel
and Flannigan looked after the prosecution.
M. M. Burke, Esq., representing William

TEMPERING FRESH,

ON A FIRM FOOTING.

The Anthracite Coal Operators' Associa-
tion Sees Bright Prospects.
The market situation during the month
past and at the present time shows increasing
firmness, though as yet without any material
advance in price. The tonnage mined thus
far in the year has been within the market
requirements, showing that the companies
recognize and are endeavoring to conform to
the law of supply and demand. Hitherto
the failure to comply with this law has
brought about heavy losses for which there
was no reasonable excuse.

The actions of the transportation interests
and their evident wish to place the market
on a substantial footing is in accordance with
the often expressed argument of the in-
dividual operators relative to the tide-water
purchase contracts. When these were made,
it was the intent of the buyers to maintain
the selling price at a figure which would al-
low the operators a fair return for their
product. But in the five years since that
time, prices have, through the actions of the
selling interests, been permitted to decline to
such low figures that, while the letter of the
contracts has been carried out, the under-
lying intent has not, and it has been evident
that a radical change was essential, either in
the nature and percentage of any future
contract, or in the maintenance of prices in
the various markets.

This is of as great importance to the trans-
porters as to the operators. They have in at-
tention times during the past three years
made sincere efforts to establish the market
on a firm footing, but each time there has
arisen one or another obstacle which has
defeated their purpose. This year the founda-
tion for a renewal of similar efforts is far
more substantial, and there appears to be ex-
pecting that there will result, through
gradual development, a permanent improve-
ment which will benefit both the operators
and carrying companies.

The past month has, like that which pre-
ceded it, been filled with rumors of in-
possible consolidations and agreements whose
substantiality was the clearest proof of their
futility. It is safe to assert that whatever
changes may take place in system or policy,
they will be in the nature of the introduction
of rational business methods which will be
developed by time and necessity.

The ground-work upon which many rumors
have been based has been the consolidation
into one company, by Simpson and Watkins,
of their various anthracite coal interests and
the purchase of some additional and desirable
properties. In order to accomplish this, the
properties have been sold to a stock company,
the Temple Iron Company, of which Mr.
Watkins will be President, and through this
central company the various interests
formerly owned by them, will be managed.
The companies brought together have been
the Dabylon Coal Company, Mt. Lookout
Coal Company, Forty Fort Coal Company,
Edgerly Coal Company, Northwest Coal
Company, and the lately purchased Sterrick
Creek Coal Company, and Lackawanna Coal
Company. The combined output of these
collieries in 1908 was 1,300,000 tons and their
producing capacity is rated at something over
2,000,000 tons. It has been generally under-
stood that options have been secured on
several other properties but nothing definite
can be ascertained as to whether or not
purchases will follow.
