ONCE again we are told the Senatorial deadlock will end—this time, next week.

THE Philadelphia newspapers daily urge upon residents of that city to boil all the water used in the house.

THE calm at Harrisburg still continues, but the storm is said to be drawing nearer with each succeeding day.

JEFFERSON'S Birthday, like his views, seems to be susceptible to the stretching process. To oblige Bryan, the Jefferson Birthday dinner will be held on some other day.

IN New York it is a misdemeanor to feed the sparrow. In Boston there are excellent persons who seem willing to make it a misdemeanor to get rid of him.

THE name of Dr. Bland, of Pottsville, is prominently mentioned in connection with the Republican nomination for Congress in this district.

THE United States Senate, several years ago, decided that if a Legislature of a state upon which developed the duty of electing a Senator, adjourned sine die without doing so, there was no way in which the vacancy could be filled ad interim, that is, until the Legislature should meet in session again, or it should be succeeded by a new Legislature.

THE sure and right way is to offer an amendment to the Constitution making a Senatorship an elective office, the same as that of Representative.

MRS. MOLINEX'S PLEA.

She Begg the Newspapers to Refrain From Criticisms.

DENIES A PUBLISHED STATEMENT. That She Visited a Jersey City Hotel With Her Husband—Has Never Been in That City Except to Pass Through on a Train.

New York, March 25.—Mrs. Blanche C. Molinex, wife of the man who is under indictment for the murder of Mrs. Adams, last night sent out the following written statement:

"Since the terrible tragedy culminating in the death of Mrs. Adams and throughout the unprovoked and unexcused attack which I have followed I have felt it to be my duty to bear in silence the cruel attacks that have been made upon me in the newspapers. I have made no answer to these attacks, nor have I made any effort to set myself right before the world, but the advice of the counsel for my husband, who has been subjected to this unprovoked and infamous charge and whose interests are, of course, next to my heart.

"But the statements in the newspapers of today, charging me by implication with having visited a hotel in Jersey City with Mr. Barnet, so grossly and atrociously false that I feel in justice to myself, my husband and my friends, that I must make some statement.

"I may say in beginning that the cruel slander uttered by the district attorney in his address to the coroner's jury is, I believe, largely responsible for the subsequent attacks upon me. His official position and the fact that they did not do me any wrong, but the public has been so misled to believe that a sworn public officer could, without a shadow of proof, vilify and slander the reputation of a woman. But this was done by the district attorney, and I have suffered in consequence.

"On the occasion to which the district attorney referred in making his slanderous accusation against me I was on a yachting trip, chartered by my married sister, and the testimony before the coroner failed to show a single instance of impropriety or indiscretion on my part, as, indeed, there was no such instance. My husband, Mr. Barnet, and I were in the city, and he was accompanied by his sister, and the testimony before the coroner failed to show a single instance of impropriety or indiscretion on my part, as, indeed, there was no such instance.

"During the lifetime of my parents I lived with them, as I testified before the coroner, and all my other places of residence were also testified to by me. Much of the time I lived with my married sisters, and always visited them, and was always invited to them. There has never been any mystery about my life or movements, nor has there been anything in my life different from that of any other self-respecting woman.

"My acquaintance with Mr. Barnet was through the introduction of Mr. Molinex, and my associations with him were purely those of friendship. I was never in Jersey City in my life except in passing through to take a train.

"At the time stated in the newspapers, when Mr. Barnet first visited the hotel, May, 1897, I had never met him. This slander is as baseless as the many others which have been published concerning me.

"In simple justice to myself, my family and my friends, I ask the public press to refrain from printing such wicked accusations, which the slightest investigation would show to be unfounded.

Invalid Killed a Burglar. Bluefields, Va., March 25.—While O. H. Skinner, a saloonkeeper, was lying ill in an upper room of his house, near Gray, he and his wife were attacked by a negro, who assaulted them and attempted robbery. Skinner regained himself enough to get hold of his revolver, and while the man was attacking his wife shot him three times in the head, killing him instantly. The negro proved to be F. L. Scott, a notorious character. Skinner was acquitted from all blame by the coroner's jury.

Fatal Fire in Memphis. Memphis, March 25.—In a fire which broke out in the boarding house of a Mrs. Nolan, at 1341 Court street, at 2:30 in the morning, four people lost their lives and several were seriously injured. The dead are: Mrs. Chapin, a widow; Roy Chapin, her son, aged 10; Chester Chapin, aged 4; Thomas Roll, aged 90. All four were suffocated. Robert Campbell had his leg broken.

"To Do Ill Costs More Than To Do Well." This "wise saw" might properly read, "It costs more to BE ill than to BE well." The source of all health is rich, strong blood. It is to the body what the mighty streams are to the earth. If the blood is pure, the body thrives; if the blood is weak or impoverished, then every pulse-beat carries weakness instead of strength.

Why make the cost of living more than it need be? Purify your blood and give your constitution a chance to do its level best. The only perfect blood purifier and vigor-maker in existence is the world-famed Hood's Sarsaparilla. It brings good, perfect health. It never disappoints.

Scrofula.—"When three months old our baby Roy was covered with itching and burning scrofula sores. The best physicians failed to relieve. Hood's Sarsaparilla saved his life as it made a permanent cure." Mas. F. M. Frost, East Springfield, Mass.

Grip.—"Through the blessing of God Hood's Sarsaparilla and Hood's Pills cured me of grip and the after weakness. My heart and nerves were badly affected, but an hour's rest and the action of my housework. I have been a walking advertisement for Hood's among my neighbors." Mrs. Mary M. Messinger, Freehold, Pa.

Rheumatism.—Rheumatism is a disease of the blood, and the acid must be neutralized to effect a cure. "I was troubled with rheumatism so badly that I could not walk. Hood's Sarsaparilla cured me." Mrs. M. C. B. M. Southfield, Minn.

Eczema.—"My daughter had eczema and it affected her eyes. The doctor said it was incurable. Her skin is now smooth and white and all on account of Hood's Sarsaparilla. I have been cured of eczema and can now walk three or four miles easily." Mrs. E. A. Henry, Sank Centre, Minn.

Catarah.—"I suffered from childhood with catarah. I was entirely deaf in one ear. Hood's Sarsaparilla cured me and restored my hearing." Mrs. W. Rogers, Midland, Tex.

Big Damages For a Crippled Child. Chicago, March 25.—Emma Crowell was awarded \$20,000 yesterday in a street railway damage case. The girl, who is 8 years old, was run over and crippled for life. At a former trial the jury failed to agree. It is alleged that two of the jurors were bribed.

Hope for the Sick

The strongest desire of the sick is to get well. Nobody in good health can realize the intensity of this longing. It is so strong that unless relief comes it turns to helplessness—and helplessness kills. Certainly no one can afford to neglect a remedy that brings hope to the hopeless, strength to the weak, health to the sick; a remedy that, like Dr. Williams' Pink Pills for Pale People, gives absolute proof that it has cured every form of disease it is advertised to cure.

You can obtain the proof upon application, stating your trouble and giving your address. No sufferer from any disorder of the blood or nerves should fail to write us.

Recommended by Nurses. Mrs. L. E. Browning, of Pueblo, Col., says: "About two years ago I was very sick with blood poisoning, caused by an abscess that had not received proper treatment. The disease for a time settled in my throat, and I then developed rheumatism. My physicians advised me to get into bed, but I could not feed myself, and the swelling in my feet and ankles made walking impossible. After considerable treatment, my physician finally advised me to try Dr. Williams' Pink Pills for Pale People. I had a box of Dr. Williams' Pink Pills for Pale People, and I have since used it. It is the best medicine I know of for that purpose. I feel much better than a week ago, and my rheumatism was gone. I grew stronger each day, and now am in the best of health." (Signed) "Mrs. L. E. Browning."

The genuine package always bears the full name. Sold by all druggists or sent direct by the Dr. Williams Medicine Co., Schenectady, N.Y. 50¢ per box.

China's Starving Millions. Washington, March 25.—Citizens of the United States residing in Chefoo, China, have made an urgent appeal, through Consul Fowler, at Chefoo, to the charitable in America and elsewhere on behalf of the sufferers from the appalling Yellow River floods of this year. These floods have been described by the natives as "China's sorrow," and the petitioners state that never before was the distress so great and heartrending as now. The most conservative estimates place the number of starving at 2,000,000, and time and the increasing cold weather will undoubtedly greatly augment the distress.

ANIMAL STATISTICS.

Showing the Increases and Decreases in Number and Value. Washington, March 25.—The annual report of John Hyde, statistician of the department of agriculture, on the number and value of farm animals will shortly be ready for distribution. It will show an increase in the number of horses and mules, and a decrease in the number of swine, with a general increase in value. A decrease of 295,000 in the number of horses is accompanied by an increase of \$32,712,400 in total value, the average value per head increasing from \$34.20 to \$37.40. Similarly a decrease of 1,239,972 in the number of neat cattle other than milk cows is accompanied by an increase of \$25,024,501 in total value, the average value per head increasing from \$20.92 to \$22.70. In the case of milk cows there is an increase of 140,229 in number, of \$38,420,000 in total value and of \$27.21 in average value per head, and in that of sheep an increase of 1,457,403 in number, of \$14,978,397 in total value and of 20 cents in average value per head. Horses show a decrease both in number and total value, the decrease in number amounting to 50,000 and that in value to \$148,256. The average value per head, however, is \$1.08 higher than last year. In the case of swine also there is a decrease both in number and total value, the decrease in number being 1,108,302 and that in value \$4,241,690.

In nearly all the great agricultural states of the central Mississippi valley there is a decrease in average value per head, but throughout almost the entire south, as well as in most of the eastern states and on the Pacific coast, there is an increase in average value, the net result being an average differing only one cent per head from the average of last year. The total value of farm animals is conservatively estimated at \$1,907,100,407, an increase of \$108,355,487, or 5.74 per cent during the past year.

Mr. Morine will re-enter the cabinet, and the only obstacle in the way of a settlement is the question of a rearrangement of portfolios consequent upon his recall.
